Zinn, R. A., 1145
Zinn, S. A., 94
Zlender, B., 988

Subject Index for Volume 80
(January through December, 2002)

A

α-Amylase
Influence of abomasal infusion of glucose or partially hydrolyzed starch on pancreatic exocrine secretion in beef steers, 1112
α-Lactalbumin
Lactational performance of first-parity transgenic gilts expressing bovine α-lactalbumin in their milk, 1090
Aberdeen-Angus
Influence of Brahman-derivative breeds and Angus on carcass traits, physical composition, and palatability, 2126
Aberdeen Angus
Relationship of milk yield and quality to preweaning gain of calves from Angus, Brahman and reciprocal-cross cows on different forage systems, 2522
Abomasum
The provision of solid feeds to veal calves: II. Behavior, physiology, and abomasal damage, 367
Abortion
Components of litter size in commercial swine, 553
Absorption
Relative bioactivity of Dietary *RRR*- and *all-rac*-alpha-tocopheryl acetates in swine assessed with deuterium-labeled vitamin E, 702
Accuracy
Weaning, yearling, and preharvest ultrasound measures of fat and muscle area in steers, bulls, and heifers, 2817
Acidosis
Effects of bacterial direct-fed microbials on ruminal fermentation, blood variables, and the microbial populations of feedlot cattle, 1977
Acyl-CoA Desaturase
Conjugated linoleic acid depresses the Δ^9 desaturase index and stearoyl coenzyme A desaturase enzyme activity in porcine subcutaneous adipose tissue, 2110
Adaptation
Effects of restricted versus conventional dietary adaptation on feedlot performance, carcass characteristics, site and extent of digestion, digesta kinetics and ruminal metabolism, 2726
Influence of food deprivation on the transport of 3-O-methyl-α-D-glucose across the isolated ruminal epithelium of sheep, 2740
Adenosinetriphosphatase
Rapid communication: Mapping of the *Ca^{2+} ATPase* of fast twitch 1 skeletal muscle sarcoplasmic reticulum (*ATP2A1*) gene to porcine chromosome 3, 1387
Adipocytes
Quantitative analysis of β-adrenergic receptor subtypes in pig tissues, 963
Adipose Tissue
Coordinate regulation of ovine adipose tissue gene expression by propionate, 2840
Effect of dietary energy supply and fat source on the fatty acid pattern of adipose and lean tissues and lipogenesis in the pig, 1564
Effects of dietary copper on the expression of lipogenic genes and metabolic hormones in steers, 1999
Human acylation-stimulating protein and lipid biosynthesis in bovine adipose tissue explants, 751
Technical note: Adipose tissue blood flow in miniature swine (*Sus scrofa*) using the ^{133}xenon washout technique, 1294
Aflatoxins
Changes in performance, blood parameters, humoral and cellular immune responses in weanling piglets exposed to low doses of aflatoxin, 1250
Age
Effect of calf age and dam breed on intake, energy expenditure, and excretion of nitrogen, phosphorus, and methane of beef cows with calves, 1124
Evaluation of American Wagyu sires for scrotal circumference by age and body weight, 19
Age differences
Effects of growth potential and growth path on tenderness of beef longissimus muscle from bulls and steers, 3211
Age Groups
Effect of age at feedlot entry on performance and carcass characteristics of bulls and steers, 2247
Aggression
Effect of zeranol or melengestrol acetate (MGA) on testicular and antler development and aggression in farmed fallow bucks, 1433
Aging
Elevated rate of collagen solubilization and postmortem degradation in muscles of lambs with high growth rates: Possible relationship with activity of matrix metalloproteinases, 1871
Influence of Brahman-derivative breeds and Angus on carcass traits, physical composition, and palatability, 2126
Influence of packaging method and storage time on shear value and mechanical strength of intramuscular connective tissue of chevon, 2383
Technical note: The effect of freezing on Warner-Bratzler shear force values of beef longissimus steaks across several postmortem aging periods, 2122
Agouti
Rapid communication: Sequencing of the porcine agouti-related protein (*AGRP*) gene, 1389
Alfalfa
Effect of exogenous fibrolytic enzyme on ruminal fermentation and digestibility of alfalfa and rye-grass hay fed to lambs, 3016
Evaluation of hay-type and grazing-tolerant alfalfa cultivars in season-long or complementary rotational stocking systems for beef cows, 768
Alternative Splicing
Regulation of hepatic insulin-like growth factor I leader exon usage in lambs: Effect of immunization against growth hormone-releasing factor and subsequent growth hormone treatment, 1074
Amines
Production of amines in equine cecal contents in an in vitro model of carbohydrate overload, 2656
Amino Acids
Additivity and associative effects of metabolizable energy and amino acid digestibility of corn, soybean meal, and wheat red dog for White Pekin ducks, 3222
Body composition and tissue accretion rates of barrows fed corn-soybean meal diets or low-protein, amino acid-supplemented diets at different feeding levels, 654
Degree of amino acid restrictions during the grower phase and compensatory growth in pigs selected for lean growth efficiency, 2610
Determination of true ileal amino acid digestibility and the endogenous amino acid outputs associated with barley samples for growing-finishing pigs by the regression analysis technique, 1593
Effects of small peptides or amino acids infused to a perfused area of the skin of Angora goats on mohair growth, 1097
Evaluation of mobile nylon bag technique for determining apparent ileal digestibilities of protein and amino acids in growing pigs, 409
Nitrogen metabolism and growth performance of gilts fed standard corn-soybean meal diets or low-crude protein, amino acid-supplemented diets, 2911
Protein and fat utilization in lactating sows: I. Effects on milk production and body composition, 2442
Protein and fat utilization in lactating sows: II. Challenging behavior of a model of metabolism, 2452
Regional and processor variation in the ileal digestible amino acid content of soybean meals measured in growing swine, 429
Supplementing barley or rapeseed meal to dairy cows fed grass-red clover silage: II. Amino acid profile of microbial fractions, 2188
The effect of litter size and day of lactation on amino acid uptake by the porcine mammary glands, 2402

The effects of dry extrusion temperature of whole soybeans on digestion of protein and amino acids by steers, 2493
The influence of soy oligosaccharides on apparent and true ileal amino acid digestibilities and fecal consistency in growing pigs, 2433
Amino Acid Sequences
Purification of porcine β-casein, N-terminal sequence, quantification in mastitic milk, 1863
Anabolics
Effects of restricted feeding, low-energy diet, and implantation of trenbolone acetate plus estradiol on growth, carcass traits, and circulating concentrations of insulin-like growth factor (IGF)-I and IGF-binding protein-3 in finishing barrows, 84
Anesthesia
Technical note: Adipose tissue blood flow in miniature swine (*Sus scrofa*) using the ^{133}xenon washout technique, 1294
Angora
Effects of small peptides or amino acids infused to a perfused area of the skin of Angora goats on mohair growth, 1097
Angus
Repeated-measure animal models to estimate genetic components of mature weight, hip height, and body condition score, 2071
Animal Breeding
Fetal development in the pig in relation to genetic merit for piglet survival, 1759
Animal Feeding
Cow-calf and feedlot performances of Brahman-derivative breeds, 3037
Animal Housing
Nutrient composition of Kansas swine lagoons and hoop barn manure, 2051
Animal Manures
Nutrient composition of Kansas swine lagoons and hoop barn manure, 2051
Animal Models
The effects of implant strategy on finished body weight of beef cattle, 1791
Animal Performance
Factors affecting animal performance during the grazing season in a mountain cattle production system, 1638
Animal Production
Pleiotropic effects in Hereford, Limousin, and Piedmontese F_2 crossbred calves of genes controlling muscularity including the Piedmontese myostatin allele, 1
Animal Tissues
Effects of modified tall oil and vitamin E on growth performance, carcass characteristics, and meat quality of growing-finishing pigs, 1575
Animal Welfare
Decision support system for overall welfare assessment in pregnant sows A: Model structure and weighting procedure, 1819
Decision support system for overall welfare assessment in pregnant sows B: Validation by expert opinion, 1835
The provision of drinking water to veal calves for welfare purposes, 2362
The provision of solid feeds to veal calves: II. Behavior, physiology, and abomasal damage, 367
Annuals
Growth performance of stocker calves backgrounded on sod-seeded winter annuals or hay and grain, 926
Anovulation
Influence of exogenous gonadotropin-releasing hormone on ovarian function in beef cows after short- and long-term nutritionally induced anovulation, 3268
Anterior Pituitary
Administration of estradiol-17β increases anterior pituitary IGF-I and relative amounts of serum and anterior pituitary IGF-binding proteins in barrows, 214
Antibiotics
Effects of virginiamycin and monensin plus tylosin on ruminal protein metabolism in steers fed corn-based finishing diets with or without wet corn gluten feed, 3005
Antibodies
Changes in performance, blood parameters, humoral and cellular immune responses in weanling piglets exposed to low doses of aflatoxin, 1250
Response of early-weaned pigs to spray-dried porcine or animal plasma-based diets supplemented with egg-yolk antibodies against enterotoxigenic *Escherichia coli*, 2895
Antioxidants
Effects of vascular infusion with a solution of saccharides; sodium chloride; phosphates; and vitamins C, E, or both on carcass traits, Warner-Bratzler shear force, and palatability traits of steaks and ground beef, 1904
Antiserum
Purification of porcine β-casein, N-terminal sequence, quantification in mastitic milk, 1863
Arginine
Arginine catabolism in lactating porcine mammary tissue, 467
Arid Climate
Metabolic characteristics of multiparous Angus and Brahman cows grazing in the Chihuahuan Desert, 2223
Artemisia tridentata
Influence of macronutrients and activated charcoal on intake of sagebrush by sheep and goats, 2099
Artificial Insemination
Comparison of three approaches for synchronization of ovulation for timed artificial insemination in *Bos indicus*-influenced cattle managed on the Texas gulf coast, 1173
Evaluation of a fixed-time artificial insemination protocol for postpartum suckled beef cows, 3060
Aspartic Acid
Effects of N-methyl-D,L-aspartate on LH, GH, and testosterone secretion in goat bucks maintained under long or short photoperiods, 1623
Augmentation
Online evaluation of a commercial video image analysis system (Computer Vision System) to predict beef carcass red meat yield and for augmenting the assignment of USDA yield grades, 1195

B

β-Adrenergic Agonists
Manipulation of growth in pigs through treatment of the neonate with clenbuterol and somatotropin, 1852
Paylean alters myosin heavy chain isoform content in pig muscle, 1888
β-Adrenergic Receptor
Quantitative analysis of β-adrenergic receptor subtypes in pig tissues, 963
β-Casein
Purification of porcine β-casein, N-terminal sequence, quantification in mastitic milk, 1863
β-glucanase
Xylanase and β-glucanase supplementation improve conjugated bile acid fraction in intestinal contents and increase villus size of small intestine wall in broiler chickens fed a rye-based diet, 2773
Bacillus thuringiensis
Utilization of Bt corn residues by grazing beef steers and Bt corn silage and grain by growing beef cattle and lactating dairy cows, 1352
Bacteria
An in vitro study of manure composition on the biochemical origins, composition, and accumulation of odorous compounds in cattle feedlots, 2214
Effects of ruminal and postruminal infusion of starch hydrolysate or glucose on the microbial ecology of the gastrointestinal tract in growing steers, 3027
Factors affecting conjugated linoleic acid and *trans*-vaccenic acid production by mixed ruminal bacteria, 3347
Barley
Determination of true ileal amino acid digestibility and the endogenous amino acid outputs associated with barley samples for growing-finishing pigs by the regression analysis technique, 1593
Evaluation of the homoarginine technique for measuring true ileal amino acid digestibilities in pigs fed a barley-canola meal-based diet, 440
Low-phytic acid barley improves calcium and phosphorus utilization and growth performance in growing pigs, 2663
Bayesian Theory
Genetic antagonism between body weight and milk production in beef cattle, 316

Inbreeding effects on the parameters of the growth function in three strains of Iberian pigs, 2267
Multivariate analysis of litter size for multiple parities with production traits in pigs: II. Response to selection for litter size and correlated response to production traits, 2548
Scaling to account for heterogeneous variances in a Bayesian analysis of broiler quantitative trait loci, 45
Beef
An evaluation of the USDA standards for feeder cattle frame size and muscle thickness, 560
Beef customer satisfaction: Factors affecting consumer evaluations of clod steaks, 401
Characteristics of estrus before and after first insemination and fertility of heifers after synchronized estrus using GnRH, $PGF_{2\alpha}$, and progesterone, 2792
Effect of high-oil corn or added corn oil on ruminal biohydrogenation of fatty acids and conjugated linoleic acid formation in beef steers fed finishing diets, 3353
Effect of Vitamin D_3 supplementation level on the postmortem tenderization of beef from steers, 971
Effects of vascular infusion with a solution of saccharides; sodium chloride; phosphates; and vitamins C, E, or both on carcass traits, Warner-Bratzler shear force, and palatability traits of steaks and ground beef, 1904
Evaluating the point of separation, during carcass fabrication, between the beef wholesale rib and the beef wholesale chuck[1], 101
Fiber-type composition of muscles of the beef chuck and round, 2872
Increasing tenderness of beef round and sirloin muscles through prerigor skeletal separations, 123
Influence of Brahman-derivative breeds and Angus on carcass traits, physical composition, and palatability, 2126
Mapping intramuscular tenderness variation in four major muscles of the beef round, 2594
Online evaluation of a commercial video image analysis system (Computer Vision System) to predict beef carcass red meat yield and for augmenting the assignment of USDA yield grades, 1195
Relationships among glycolytic potential, dark cutting (dark, firm, and dry) beef, and cooked beef palatability, 1895
Technical note: Sampling methodology for relating sarcomere length, collagen concentration, and the extent of postmortem proteolysis to beef and pork longissimus tenderness, 982
Technical note: The effect of freezing on Warner-Bratzler shear force values of beef longissimus steaks across several postmortem aging periods, 2122
Tenderness variation in beef longissimus muscle steaks with slight and small degrees of marbling, 2390
The efficacy of three objective systems for identifying beef cuts that can be guaranteed tender, 3315
Beef Bulls
Evaluations of genotype×environment interactions of beef bulls performance-tested in feedlot or pasture, 1716
Beef Cattle
Breed comparisons of Angus, Brahman, Hereford, Pinzgauer, Sahiwal, and Tarentaise for weight, weight adjusted for condition score, height, and body condition score, 3142
Breed comparisons of Angus, Charolais, Hereford, Jersey, Limousin, Simmental and South Devon for weight, weight adjusted for body condition score, height and body condition score of cows, 3123
Comparison of models for estimation of genetic parameters for mature weight of Hereford cattle, 583
Comparison of three approaches for synchronization of ovulation for timed artificial insemination in *Bos indicus*-influenced cattle managed on the Texas gulf coast, 1173
Comparisons of Angus-, Braunvieh-, Chianina-, Hereford-, Gelbvieh-, Maine Anjou-, and Red Poll-sired cows for weight, weight adjusted for body condition score, height, and body condition score, 3133
Effect of age at feedlot entry on performance and carcass characteristics of bulls and steers, 2247
Effect of an accelerated finishing program on performance, carcass characteristics, and circulating insulin-like growth factor I concentration of early-weaned bulls and steers, 900
Effect of chlortetracycline in a trace mineral salt mix on fertility traits in beef cattle females in Florida, 880
Effect of increasing proportion of supplemental N from urea in prepartum supplements on range beef cow performance and on forage intake and digestibility by steers fed low-quality forage, 1652
Effects of bacterial direct-fed microbials on ruminal fermentation, blood variables, and the microbial populations of feedlot cattle, 1977
Effects of breeding date, weaning date, and grazing season length on profitability of cow-calf production systems in southeastern Montana, 1462
Effects of growth potential and growth path on tenderness of beef longissimus muscle from bulls and steers, 3211
Effects of restricted versus conventional dietary adaptation on feedlot performance, carcass characteristics, site and extent of digestion, digesta kinetics and ruminal metabolism, 2726
Effects of selection for ultrasound intramuscular fat percentage in Angus bulls on carcass traits of progeny, 2017
Effects of supplemental vitamin E on performance, health, and humoral immune response of beef cattle, 933
Effects of supplementation on intake, digestion, and performance of beef cattle consuming fertilized, stockpiled bermudagrass forage, 780
Efficacy of intramuscular treatment of beef cows with oxytetracycline to reduce mastitis and to increase calf growth, 1405
Evaluation of hay-type and grazing-tolerant alfalfa cultivars in season-long or complementary rotational stocking systems for beef cows, 768
Genetic and environmental parameters for steer ultrasound and carcass traits, 1489
Genetic evaluation of carcass yield using ultrasound measures on young replacement beef cattle, 1809
Genetic evaluation of the probability of pregnancy at 14 months for Nellore heifers, 951
Genetic variation in fatness and fatty acid composition of crossbred cattle, 2825
Genome-wide scans for QTL affecting carcass traits in Hereford × composite double backcross populations, 2316
Intestinal starch disappearance increased in steers abomasally infused with starch and protein, 3361
Investigation of genotype × country interactions for growth traits in beef cattle, 330
Net absorption and utilization of nitrogenous compounds across ruminal, intestinal, and hepatic tissues of growing beef steers fed dry-rolled or steam-flaked sorghum grain, 525
Nitrogen metabolism of beef steers fed endophyte-free tall fescue hay: Effects of ruminally protected methionine supplementation, 1344
Purebred-crossbred performance and genetic evaluation of postweaning growth and carcass traits in *Bos indicus* × *Bos taurus* crosses in Australia, 1801
Relationship of milk yield and quality to preweaning gain of calves from Angus, Brahman and reciprocal-cross cows on different forage systems, 2522
The influence of level of feeding on growth and serum insulin-like growth factor I and insulin-like growth factor-binding proteins in growing beef cattle supplemented with somatotropin, 94
Utilization of Bt corn residues by grazing beef steers and Bt corn silage and grain by growing beef cattle and lactating dairy cows, 1352
Utilization of distillers grains from the fermentation of sorghum or corn in diets for finishing beef and lactating dairy cattle, 1105
Weaning, yearling, and preharvest ultrasound measures of fat and muscle area in steers, bulls, and heifers, 2817
Beef Cows
Effect of an orally active progestin on follicular dynamics in cycling and anestrous postpartum beef cows, 1932
Effect of calf age and dam breed on intake, energy expenditure, and excretion of nitrogen, phosphorus, and methane of beef cows with calves, 1124
Effects of supplementation with high linoleic or oleic cracked safflower seeds on postpartum reproduction and calf performance of primiparous beef heifers, 2023
Evaluation of a fixed-time artificial insemination protocol for postpartum suckled beef cows, 3060
Factors affecting animal performance during the grazing season in a mountain cattle production system, 1638
Influence of exogenous gonadotropin-releasing hormone on ovarian function in beef cows after short- and long-term nutritionally induced anovulation, 3268
Relationship between serum insulin-like growth factor-I and genotype during the postpartum interval in beef cows, 716

Seasonal effects on estrous behavior and time of ovulation in nonlactating beef cows, 3053
Weight necessary to change body condition scores in Angus cows, 2031
Beef Production
Exposure to ammoniated wheat straw as suckling calves improves performance of mature beef cows wintered on ammoniated wheat straw, 2340
Beef Quality
Grass Silage Versus Maize Silage Effects on Retail Packaged Beef Quality, 1556
Influence of slaughter weight and sex on yield and quality grades of Hanwoo (Korean native cattle) carcasses, 129
National Beef Quality Audit–2000: Survey of targeted cattle and carcass characteristics related to quality, quantity, and value of fed steers and heifers, 1212
Behavior
Can goats learn about foods through conditioned food aversions and preferences when multiple food options are simultaneously available?, 2091
Development of the chicken as a model for prenatal stress, 1954
Does nutritive and non-nutritive sucking reduce other oral behaviors and stimulate rest in calves?, 2574
Effects of melengestrol acetate on reproductive behavior and concentrations of LH and testosterone in bulls, 1059
Genetic linkage mapping of quantitative trait loci for behavioral and neuroendocrine stress response traits in pigs, 2276
Offstream water and trace mineral salt as management strategies for improved cattle distribution, 346
Seasonal effects on estrous behavior and time of ovulation in nonlactating beef cows, 3053
Shade effects on performance, carcass traits, physiology, and behavior of heat-stressed feedlot heifers, 2043
Synthetic maternal pheromone stimulates feeding behavior and weight gain in weaned pigs, 3179
The effects of split marketing on the physiology, behavior, and performance of finishing swine, 338
The provision of drinking water to veal calves for welfare purposes, 2362
The provision of solid feeds to veal calves: II. Behavior, physiology, and abomasal damage, 367
Berkshire
Effect of vitamin E on improving fresh pork quality in Berkshire- and Hampshire-sired pigs, 3230
Betaine
Effect of dietary betaine on nutrient utilization and partitioning in the young growing feed-restricted pig, 421
Impact of betaine on pig finishing performance and carcass composition, 475
Methionine as a methyl group donor in growing cattle, 2197
Supplemental betaine and peroxide-treated feather meal for finishing cattle, 2234
Bile Acids
Xylanase and β-glucanase supplementation improve conjugated bile acid fraction in intestinal contents and increase villus size of small intestine wall in broiler chickens fed a rye-based diet, 2773
Binding Proteins
Administration of estradiol-17β increases anterior pituitary IGF-I and relative amounts of serum and anterior pituitary IGF-binding proteins in barrows, 214
Inability of heterologous growth hormone (GH) to regulate GH binding protein in GH-transgenic swine, 1962
Bioavailability
Comparison of spray-dried blood meal and blood cells in diets for nursery pigs, 2879
Biohydrogenation
Effect of high-oil corn or added corn oil on ruminal biohydrogenation of fatty acids and conjugated linoleic acid formation in beef steers fed finishing diets, Conjugated Linoleic Acid
Effect of high-oil corn or added corn oil on ruminal biohydrogenation of fatty acids and conjugated linoleic acid formation in beef steers fed finishing diets, 3353
Biotechnology
Soybean meal from Roundup Ready or conventional soybeans in diets for growing-finishing swine, 708
Birth Weight
Cow-calf and feedlot performances of Brahman-derivative breeds, 3037
The effect of birth weight and feeding of supplemental milk replacer to piglets during lactation on preweaning and postweaning growth performance and carcass characteristics, 301
Blood
Changes in oxygen content and acid-base balance in arterial and portal blood in response to the dietary electrolyte balance in pigs during a 9-h period after a meal, 1233
Changes in performance, blood parameters, humoral and cellular immune responses in weanling piglets exposed to low doses of aflatoxin, 1250
Blood Cells
Comparison of spray-dried blood meal and blood cells in diets for nursery pigs, 2879
Blood Flow
Measurement of blood flow through the mammary gland in lactating sows: Methodological aspects, 196
Blood Gases
Changes in oxygen content and acid-base balance in arterial and portal blood in response to the dietary electrolyte balance in pigs during a 9-h period after a meal, 1233
Blood Meal
Comparison of spray-dried blood meal and blood cells in diets for nursery pigs, 2879
Blood Plasma
Effect of spray-dried plasma and lipopolysaccharide exposure on weaned pigs: I. Effects on the immune axis of weaned pigs, 494
Effect of spray-dried plasma and lipopolysaccharide exposure on weaned pigs: II. Effects on the hypothalamic-pituitary-adrenal axis of weaned pigs, 502
Growth performance, diet apparent digestibility, and plasma metabolite concentrations of barrows fed corn-soybean meal diets or low-protein, amino acid-supplemented diets at different feeding levels, 644
Boars
Effect of frequency of boar exposure and adjusted mating times on measures of reproductive performance in weaned sows, 892
Body Composition
Body composition and tissue accretion rates of barrows fed corn-soybean meal diets or low-protein, amino acid-supplemented diets at different feeding levels, 654
Effect of high temperature and low-protein diets on the performance of growing-finishing pigs, 691
Prediction of swine carcass composition by total body electrical conductivity (TOBEC), 113
Body Condition
High versus low body condition in mares: Interactions with responses to somatotropin, GnRH analog, and dexamethasone, 3277
Leptin in horses: Tissue localization and relationship between peripheral concentrations of leptin and body condition, 2942
Repeated-measure animal models to estimate genetic components of mature weight, hip height, and body condition score, 2071
The relationship between body condition, leptin, and reproductive and hormonal characteristics of mares during the seasonal anovulatory period, 2695
Weight necessary to change body condition scores in Angus cows, 2031
Body Fat
Plasma leptin concentration in adult cattle: Effects of breed, adiposity, feeding level, and meal intake, 1317
Body Temperature
Feeding strategies for managing heat load in feedlot cattle, 2373
Body Weight
Changes in performance, blood parameters, humoral and cellular immune responses in weanling piglets exposed to low doses of aflatoxin, 1250
Genetic parameters for various random regression models to describe the weight data of pigs, 575
Body weight
Genotype × environmental interaction for mature size and rate of maturing for Angus, Brahman, and reciprocal-cross cows grazing bermudagrass or endophyte infected fescue, 3073
Body Weight
Relationships between body weight at first mating and subsequent body development, feed intake, and reproductive performance of rabbit does, 2036
Repeated-measure animal models to estimate genetic components of mature weight, hip height, and body condition score, 2071

Bones
Long-term effects of boron supplementation on reproductive characteristics and bone mechanical properties in gilts, 154
Boron
Long-term effects of boron supplementation on reproductive characteristics and bone mechanical properties in gilts, 154
Bos indicus
Energy requirement for maintenance and growth of Nellore bulls and steers fed high-forage diets, 1671
Bos taurus
Comparisons of Angus-, Braunvieh-, Chianina-, Hereford-, Gelbvieh-, Maine Anjou-, and Red Poll-sired cows for weight, weight adjusted for body condition score, height, and body condition score, 3133
Bovidae
Intake, digestion, and digestive characteristics of *Neotyphodium coenophialum*-infected and uninfected fescue by heifers offered hay diets supplemented with *Aspergillus oryzae* fermentation extract or laidlomycin propionate, 225
Relationships of metabolic hormones and serum glucose to growth and reproductive development in performance-tested Angus, Brangus, and Brahman bulls, 757
Transplantation of bovine germinal cells into mouse testes, 1925
Brahman
Cow-calf and feedlot performances of Brahman-derivative breeds, 3037
Estimated genetic parameters for carcass traits of Brahman cattle, 955
Relationship of milk yield and quality to preweaning gain of calves from Angus, Brahman and reciprocal-cross cows on different forage systems, 2522
Breed
Breed comparisons of Angus, Charolais, Hereford, Jersey, Limousin, Simmental and South Devon for weight, weight adjusted for body condition score, height and body condition score of cows, 3123
Breed Differences
Plasma leptin concentration in adult cattle: Effects of breed, adiposity, feeding level, and meal intake, 1317
Breeding
Effects of breeding date, weaning date, and grazing season length on profitability of cow-calf production systems in southeastern Montana, 1462
Breeding Methods
Preweaning growth of F_1 tropically adapted beef cattle breeds × Angus and reproductive performance of their Angus dams in arid rangeland, 911
Breeding Value
Estimates of genetic parameters and genetic change for reproduction, weight, and wool characteristics of columbia sheep, 3086
Fetal development in the pig in relation to genetic merit for piglet survival, 1759
Breeds
Breed comparisons of Angus, Brahman, Hereford, Pinzgauer, Sahiwal, and Tarentaise for weight, weight adjusted for condition score, height, and body condition score, 3142
Comparisons of Angus-, Braunvieh-, Chianina-, Hereford-, Gelbvieh-, Maine Anjou-, and Red Poll-sired cows for weight, weight adjusted for body condition score, height, and body condition score, 3133
Effect of calf age and dam breed on intake, energy expenditure, and excretion of nitrogen, phosphorus, and methane of beef cows with calves, 1124
Factors affecting animal performance during the grazing season in a mountain cattle production system, 1638
Relationships of metabolic hormones and serum glucose to growth and reproductive development in performance-tested Angus, Brangus, and Brahman bulls, 757
Broilers
Xylanase and β-glucanase supplementation improve conjugated bile acid fraction in intestinal contents and increase villus size of small intestine wall in broiler chickens fed a rye-based diet, 2773
Brown Adipose Tissue
Uncoupling proteins and energy expenditure in mice divergently selected for heat loss, 602
Brown Fat
Ontogenic development of brown adipose tissue in Angus and Brahman fetal calves, 591
Browsing
Can goats learn about foods through conditioned food aversions and preferences when multiple food options are simultaneously available?, 2091
Bulls
Effects of melengestrol acetate on reproductive behavior and concentrations of LH and testosterone in bulls, 1059
Endocrine, growth, and carcass characteristics of bulls immunized against luteinizing hormone-releasing hormone fusion proteins, 2209
Relationships of metabolic hormones and serum glucose to growth and reproductive development in performance-tested Angus, Brangus, and Brahman bulls, 757
Butyrates
Isolated canine and murine intestinal cells exhibit a different pattern of fuel utilization for oxidative metabolism, 1223
Butyric Acid
Tributyrin and lactitol synergistically enhanced the trophic status of the intestinal mucosa and reduced histamine levels in the gut of nursery pigs, 670

C

Calcitonin
Rapid communication: Physical and linkage mapping of the porcine calcitonin (*CALC*) gene, 1701
Calcium
Effect of Vitamin D_3 supplementation level on the postmortem tenderization of beef from steers, 971
Low-phytic acid barley improves calcium and phosphorus utilization and growth performance in growing pigs, 2663
Rapid communication: Physical and linkage mapping of the porcine calcitonin (*CALC*) gene, 1701
Short-term feeding of vitamin D_3 improves color but does not change tenderness of pork-loin chops, 2116
Calpain
Dietary-induced changes of muscle growth rate in pigs: Effects on in vivo and postmortem muscle proteolysis and meat quality, 2862
Evaluation of single-nucleotide polymorphisms in *CAPN1* for association with meat tenderness in cattle, 3077
Calves
Does nutritive and non-nutritive sucking reduce other oral behaviors and stimulate rest in calves?, 2574
Effect of nutrient intake on the development of the somatotropic axis and its responsiveness to GH in Holstein bull calves, 1528
Effects of supplementation on intake and growth of nursing calves grazing native range in southeastern North Dakota, 2717
Growth of Holstein calves from birth to 90 days: The influence of dietary zinc and BLAD status, 545
Growth performance and metabolic and endocrine traits in calves pair-fed by bucket or by automate starting in the neonatal period, 1545
Ontogenic development of brown adipose tissue in Angus and Brahman fetal calves, 591
Calving Season
Factors affecting animal performance during the grazing season in a mountain cattle production system, 1638
Canis
Isolated canine and murine intestinal cells exhibit a different pattern of fuel utilization for oxidative metabolism, 1223
Carbadox
Brewers dried yeast as a source of mannanoligosaccharides for weanling pigs, 2619
Carbohydrate Loading
Production of amines in equine cecal contents in an in vitro model of carbohydrate overload, 2656
Carbohydrates
Efficacy of partially hydrolyzed corn syrup solids as a replacement for lactose in manufactured liquid diets for neonatal pigs, 143
Carcass
Endocrine, growth, and carcass characteristics of bulls immunized against luteinizing hormone-releasing hormone fusion proteins, 2209
Carcass Composition
Effect of dietary betaine on nutrient utilization and partitioning in the young growing feed-restricted pig, 421

Effects of dietary lipid type on muscle fatty acid composition, carcass leanness, and meat toughness in lambs, 628
Evaluating the point of separation, during carcass fabrication, between the beef wholesale rib and the beef wholesale chuck[1], 101
Genetic effects on fatty acid composition of carcass fat of Japanese Black Wagyu steers, 1005
Genetic evaluation of carcass yield using ultrasound measures on young replacement beef cattle, 1809
Genetic parameters for pork carcass components, 3099
Weaning, yearling, and preharvest ultrasound measures of fat and muscle area in steers, bulls, and heifers, 2817
Carcasses
An evaluation of the USDA standards for feeder cattle frame size and muscle thickness, 560
Assessment of chromium tripicolinate supplementation and dietary protein level on growth, carcass, and blood criteria in growing pigs, 2412
Genome-wide scans for QTL affecting carcass traits in Hereford × composite double backcross populations, 2316
Growth performance, carcass characteristics, nutrient digestibility and fecal odorous compounds in growing-finishing pigs fed diets containing hydrolyzed feather meal, 171
Impact of betaine on pig finishing performance and carcass composition, 475
Reflectance spectrum of adipose tissue to trace grass feeding in sheep: Influence of measurement site and shrinkage time after slaughter, 886
Carcass Grading
Influence of slaughter weight and sex on yield and quality grades of Hanwoo (Korean native cattle) carcasses, 129
Carcass Quality
By-product feeds for meat goats: Effects on digestibility, ruminal environment, and carcass characteristics, 1752
Effect of age at feedlot entry on performance and carcass characteristics of bulls and steers, 2247
Effect of zinc source (zinc oxide vs zinc proteinate) and level on performance, carcass characteristics, and immune response of growing and finishing steers, 2747
Effects of β-mannanase addition to corn-soybean meal diets on growth performance, carcass traits, and nutrient digestibility of weanling and growing-finishing pigs, 1012
Effects of restricted versus conventional dietary adaptation on feedlot performance, carcass characteristics, site and extent of digestion, digesta kinetics and ruminal metabolism, 2726
Effects of selection for ultrasound intramuscular fat percentage in Angus bulls on carcass traits of progeny, 2017
Estimated genetic parameters for carcass traits of Brahman cattle, 955
Growth, carcass characteristics, muscle conjugated linoleic acid (CLA) content, and response to intravenous glucose challenge in high percentage Wagyu, Wagyu × Limousin, and Limousin steers fed sunflower oil-containing diets, 2996
Prediction of intramuscular fat percentage in live swine using real-time ultrasound, 3046
The effects of dietary fat sources, levels, and feeding intervals on pork fatty acid composition, 1606
The provision of solid feeds to veal calves: I. Growth performance, forestomach development, and carcass and meat quality, 357
Carcass Traits
Effects of vascular infusion with a solution of saccharides; sodium chloride; phosphates; and vitamins C, E, or both on carcass traits, Warner-Bratzler shear force, and palatability traits of steaks and ground beef, 1904
Carcass Yield
Estimated genetic parameters for carcass traits of Brahman cattle, 955
Carotenoids
Reflectance spectrum of adipose tissue to trace grass feeding in sheep: Influence of measurement site and shrinkage time after slaughter, 886
Castration
Effect of an accelerated finishing program on performance, carcass characteristics, and circulating insulin-like growth factor I concentration of early-weaned bulls and steers, 900
Effects of ketoprofen alone or in combination with local anesthesia during the castration of bull calves on plasma cortisol, immunological, and inflammatory responses, 1044
Cattle
Amplification and linkage mapping of the ovine microsatellite *DYMS1* in German Angus cattle, 1383
An in vitro study of manure composition on the biochemical origins, composition, and accumulation of odorous compounds in cattle feedlots, 2214
Binding of ractopamine HCl to ocular tissues of cattle and turkeys in vivo and to melanin in vitro, 2931
Effect of ammonium sulfate fertilization on bahiagrass quality and copper metabolism in grazing beef cattle, 2507
Effects of gossypol from cottonseed meal and dietary vitamin E on the reproductive characteristics of superovulated beef heifers, 2485
Effects of ketoprofen alone or in combination with local anesthesia during the castration of bull calves on plasma cortisol, immunological, and inflammatory responses, 1044
Effects of residual and reapplied biosolids on performance and mineral status of grazing beef steers, 260
Effects of ruminal and postruminal infusion of starch hydrolysate or glucose on the microbial ecology of the gastrointestinal tract in growing steers, 3027
Effects of virginiamycin and monensin plus tylosin on ruminal protein metabolism in steers fed corn-based finishing diets with or without wet corn gluten feed, 3005
Evaluation of Finishing Performance, Carcass Characteristics, Acid-resistant *E. coli* and Total Coliforms from Steers Fed Combinations of Wet Corn Gluten Feed and Steam-Flaked Corn, 3328
Flaking corn: Processing mechanics, quality standards, and impacts on energy availability and performance of feedlot cattle, 1145
Growth performance of stocker calves backgrounded on sod-seeded winter annuals or hay and grain, 926
Human acylation-stimulating protein and lipid biosynthesis in bovine adipose tissue explants, 751
Influence of abomasal infusion of glucose or partially hydrolyzed starch on pancreatic exocrine secretion in beef steers, 1112
Influence of slaughter weight and sex on yield and quality grades of Hanwoo (Korean native cattle) carcasses, 129
Melengestrol acetate blocks the preovulatory surge of luteinizing hormone, the expression of behavioral estrus, and ovulation in beef heifers, 1280
Phosphorus requirement of finishing feedlot calves, 1690
Pleiotropic effects in Hereford, Limousin, and Piedmontese F_2 crossbred calves of genes controlling muscularity including the Piedmontese myostatin allele, 1
Rapid communication: Nucleotide sequence of the bovine elongation factor 1 alpha cDNA, 1696
Relationship of fertility to ovarian follicular waves before breeding in dairy cows, 1053
Sodium chlorate supplementation reduces *E. coli* O157:H7 populations in cattle, 1683
Supplemental betaine and peroxide-treated feather meal for finishing cattle, 2234
Technical note: Time-resolved fluoro-immunometric assay for intact insulin in livestock species, 191
The effects of implant strategy on finished body weight of beef cattle, 1791
The identification of common haplotypes in bovine chromosome 5 within commercial lines of *Bos taurus* and their associations with growth traits, 1187
Tissue residues of ractopamine and urinary excretion of ractopamine and metabolites in animals treated for 7 days with dietary ractopamine, 1240
Two-step and random regression analyses of weight gain of station-tested beef bulls, 1497
Cattle Breeds
Cow-calf and feedlot performances of Brahman-derivative breeds, 3037
Evaluation of American Wagyu sires for scrotal circumference by age and body weight, 19
Metabolic characteristics of multiparous Angus and Brahman cows grazing in the Chihuahuan Desert, 2223
Cattle Diseases
Growth of Holstein calves from birth to 90 days: The influence of dietary zinc and BLAD status, 545
Cecum
A comparison of enzymatic and molecular approaches to characterize the cellulolytic microbial ecosystems of the rumen and the cecum, 790

Characterization of microbial populations and volatile fatty acid concentrations in the jejunum, ileum, and cecum of pigs weaned at 17 vs 24 days of age, 2904
Production of amines in equine cecal contents in an in vitro model of carbohydrate overload, 2656
Cell Cycle
Rapid communication: Nucleotide sequence and physical mapping of the porcine *cyclin-dependent kinase inhibitor 3* (*CDKN3*) gene, 1699
Cellulolytic Microorganisms
A comparison of enzymatic and molecular approaches to characterize the cellulolytic microbial ecosystems of the rumen and the cecum, 790
Effect of a preparation of *Saccharomyces cerevisiae* on microbial profiles and fermentation patterns in the large intestine of horses fed a high fiber or a high starch diet, 2600
Charcoal
Influence of macronutrients and activated charcoal on intake of sagebrush by sheep and goats, 2099
Chemical Treatment
In vitro gas production measurements to evaluate interactions between untreated and chemically treated rice straws, grass hay, and mulberry leaves, 517
Chickens
Development of the chicken as a model for prenatal stress, 1954
Scaling to account for heterogeneous variances in a Bayesian analysis of broiler quantitative trait loci, 45
Chlorate
Sodium chlorate supplementation reduces *E. coli* O157:H7 populations in cattle, 1683
Chloride
Changes in oxygen content and acid-base balance in arterial and portal blood in response to the dietary electrolyte balance in pigs during a 9-h period after a meal, 1233
Chlortetracycline
Effect of chlortetracycline in a trace mineral salt mix on fertility traits in beef cattle females in Florida, 880
Cholecalciferol
Short-term feeding of vitamin D_3 improves color but does not change tenderness of pork-loin chops, 2116
Cholesterol
Influence of dietary conjugated linoleic acid on growth, meat quality, lipogenesis, plasma leptin and physiological variables of lipid metabolism in rabbits, 1020
Cholesteryl Ester Transfer Protein
Rapid communication: Genetic linkage and physical mapping of the porcine *cholesteryl ester transfer protein* (*CETP*) gene, 1391
Choline
Methionine as a methyl group donor in growing cattle, 2197
Chromium
Assessment of chromium tripicolinate supplementation and dietary energy level and source on growth, carcass, and blood criteria in growing pigs, 483
Assessment of chromium tripicolinate supplementation and dietary protein level on growth, carcass, and blood criteria in growing pigs, 2412
Effect of chromium tripicolinate supplementation on porcine immune response during the periparturient and neonatal period, 456
Effect of chromium tripicolinate supplementation on porcine immune response during the postweaning period, 449
Classification
The efficacy of three objective systems for identifying beef cuts that can be guaranteed tender, 3315
Clenbuterol
Binding of ractopamine HCl to ocular tissues of cattle and turkeys in vivo and to melanin in vitro, 2931
Effects of clenbuterol on body stores of polychlorinated dibenzofurans (PCDF) and dibenzo-*p*-dioxins (PCDD) in rats, 2461
Coancestry
Inbreeding effects on the parameters of the growth function in three strains of Iberian pigs, 2267
Codominance
Linkage analysis using direct and indirect counting and relative efficiencies for codominant and dominant loci, 2528
Coliform Bacteria
Brewers dried yeast as a source of mannanoligosaccharides for weanling pigs, 2619
Collagen
Elevated rate of collagen solubilization and postmortem degradation in muscles of lambs with high growth rates: Possible relationship with activity of matrix metalloproteinases, 1871
Color
Alpha-tocopherol concentrations and case life of lamb muscle as influenced by concentrate or pasture finishing, 2513
Correlations among selected pork quality traits, 617
Subjective and objective evaluation of veal lean color, 1911
Colorimetry
Subjective and objective evaluation of veal lean color, 1911
Commercial Farming
Components of litter size in commercial swine, 553
Compensatory Growth
Degree of amino acid restrictions during the grower phase and compensatory growth in pigs selected for lean growth efficiency, 2610
Competitive Ability
Degree of competition at feeding differentially affects behavior and performance of group-housed growing-finishing pigs of different relative weights, 376
Complementary DNA
Coordinate regulation of ovine adipose tissue gene expression by propionate, 2840
Rapid communication: Nucleotide sequence of the bovine elongation factor 1 alpha cDNA, 1696
Complement
Human acylation-stimulating protein and lipid biosynthesis in bovine adipose tissue explants, 751
Concentration
Effects of roughage source and concentration on intake and performance by finishing heifers, 1395
Conjugated Dienes
Conjugated linoleic acid depresses the Δ^9 desaturase index and stearoyl coenzyme A desaturase enzyme activity in porcine subcutaneous adipose tissue, 2110
Conjugated Linoleic Acid
Effects of conjugated linoleic acids (CLA) on tissue response to homeostatic signals and plasma variables associated with lipid metabolism in lactating dairy cows, 1285
Effects of modified tall oil and vitamin E on growth performance, carcass characteristics, and meat quality of growing-finishing pigs, 1575
Factors affecting conjugated linoleic acid and *trans*-vaccenic acid production by mixed ruminal bacteria, 3347
Growth, carcass characteristics, muscle conjugated linoleic acid (CLA) content, and response to intravenous glucose challenge in high percentage Wagyu, Wagyu × Limousin, and Limousin steers fed sunflower oil-containing diets, 2996
Influence of dietary conjugated linoleic acid on growth, meat quality, lipogenesis, plasma leptin and physiological variables of lipid metabolism in rabbits, 1020
Connective Tissue
Influence of packaging method and storage time on shear value and mechanical strength of intramuscular connective tissue of chevon, 2383
Consumer
Evaluating the point of separation, during carcass fabrication, between the beef wholesale rib and the beef wholesale chuck[1], 101
Consumer Preference
Beef customer satisfaction: Factors affecting consumer evaluations of clod steaks, 401
Copper
Effect of ammonium sulfate fertilization on bahiagrass quality and copper metabolism in grazing beef cattle, 2507
Effect of corn- molasses-based supplements on trace mineral status in beef heifers, 2787
Effect of dietary mannan oligosaccharides and(or) pharmacological additions of copper sulfate on growth performance and immunocompetence of weanling and growing/finishing pigs, 2887
Effects of dietary copper on the expression of lipogenic genes and metabolic hormones in steers, 1999
Corn
Effect of corn- molasses-based supplements on trace mineral status in beef heifers, 2787
Corn Gluten Feed
By-product feeds for meat goats: Effects on digestibility, ruminal environment, and carcass characteristics, 1752

Correlated Responses
Correlated response to selection for litter size in pigs: I. Growth, fat deposition and feeding behavior traits, 2556
Correlated response to selection for litter size in pigs: II. Carcass, meat, and fat quality traits, 2566
Correlation
Heterosis and recombination effects on pig growth and carcass traits, 2286
Corticosterone
Development of the chicken as a model for prenatal stress, 1954
Cottonseed Oilmeal
Effects of gossypol from cottonseed meal and dietary vitamin E on the reproductive characteristics of superovulated beef heifers, 2485
Cows
Appearance and disappearance of swainsonine in serum and milk of lactating ruminants with nursing young following a single dose exposure to swainsonine (locoweed; *Oxytropis sericea*), 2476
Characteristics of estrus before and after first insemination and fertility of heifers after synchronized estrus using GnRH, $PGF_{2\alpha}$, and progesterone, 2792
Metabolic characteristics of multiparous Angus and Brahman cows grazing in the Chihuahuan Desert, 2223
Restricted suckling of tropical dairy cows by their own calf or other cows' calves, 1663
The effects of cognitive behavioral intervention on the attitude and behavior of stockpersons and the behavior and productivity of commercial dairy cows, 68
The relationship between meal composition and long-term diet choice, 3165
Creatine
Creatine monohydrate supplementation and the quality of fresh pork in normal and halothane carrier pigs, 997
Creed Feed
Effect of creep feed consumption on individual feed intake characteristics and performance of group-housed weanling pigs, 1413
Crossbreds
Effect of folic acid and glycine supplementation on embryo development and folate metabolism during early pregnancy in pigs, 2134
Joint evaluation of purebreds and crossbreds in swine, 2263
Crossbreeding
Estimates of parameters between direct and maternal genetic effects for weaning weight and direct genetic effects for carcass traits in crossbred cattle, 3107
Influence of Brahman-derivative breeds and Angus on carcass traits, physical composition, and palatability, 2126
Preweaning growth of F_1 tropically adapted beef cattle breeds × Angus and reproductive performance of their Angus dams in arid rangeland, 911
Purebred-crossbred performance and genetic evaluation of postweaning growth and carcass traits in *Bos indicus* × *Bos taurus* crosses in Australia, 1801
Relationship of milk yield and quality to preweaning gain of calves from Angus, Brahman and reciprocal-cross cows on different forage systems, 2522
Cynodon dactylon
Effects of supplementation on intake, digestion, and performance of beef cattle consuming fertilized, stockpiled bermudagrass forage, 780
Cysteine
Methionine as a methyl group donor in growing cattle, 2197
Cytokines
Changes in performance, blood parameters, humoral and cellular immune responses in weanling piglets exposed to low doses of aflatoxin, 1250
Growth performance and whole-body composition of pigs experimentally infected with *Mycoplasma hyopneumoniae*, 384
Cytoplasm
Heterosis and recombination effects on pig growth and carcass traits, 2286
Heterosis and recombination effects on pig reproductive traits, 2303
Cytoplasmic Inheritance
Nuclear, cytoplasmic, and environmental effects on growth, fat, and muscle traits in Suffolk lambs from a sire referencing scheme, 57

D

Dairy Cattle
Alterations in lipid metabolism induced by recombinant bovine tumor necrosis factor-alpha administration to dairy heifers, 2151
Metabolism of propionate and 1,2-propanediol absorbed from the washed reticulorumen of lactating cows, 2168
Relationship between postpartum changes in 13, 14-dihydro-15-keto-$PGF_{2\alpha}$, concentrations in Holstein cows and their susceptibility to endometritis, 1068
Utilization of Bt corn residues by grazing beef steers and Bt corn silage and grain by growing beef cattle and lactating dairy cows, 1352
Utilization of distillers grains from the fermentation of sorghum or corn in diets for finishing beef and lactating dairy cattle, 1105
Dairy Cows
A dynamic model of N metabolism in the lactating dairy cow and an assessment of impact of N excretion on the environment, 248
Apparent ruminal degradation and rumen escape of soluble nitrogen fractions in grass and grass silage administered intraruminally to lactating dairy cows, 2704
Digestive processes of dairy cows fed silages harvested at four stages of grass maturity, 1986
Plasma leptin concentration in adult cattle: Effects of breed, adiposity, feeding level, and meal intake, 1317
Supplementing barley or rapeseed meal to dairy cows fed grass-red clover silage: II. Amino acid profile of microbial fractions, 2188
Supplementing barley or rapeseed meal to dairy cows fed grass-red clover silage: I. Rumen degradability and microbial flow, 2176
Dairy Heifers
Characteristics of estrus before and after first insemination and fertility of heifers after synchronized estrus using GnRH, $PGF_{2\alpha}$, and progesterone, 2792
Dark Cutting Meat
Relationships among glycolytic potential, dark cutting (dark, firm, and dry) beef, and cooked beef palatability, 1895
Degradability
Influence of rumen protein degradability and supplementation frequency on performance and nitrogen use in ruminants consuming low-quality forage: Cow performance and efficiency of nitrogen use in wethers, 1629
Degradable
Effect of corn processing on degradable intake protein requirement of finishing cattle, 242
Degradation
Influence of rumen protein degradability and supplementation frequency on steers consuming low-quality forage: II. Ruminal fermentation characteristics, 2978
Influence of rumen protein degradability and supplementation frequency on steers consuming low-quality forage: I. Site of digestion and microbial efficiency, 2967
Detection
Tissue residues of ractopamine and urinary excretion of ractopamine and metabolites in animals treated for 7 days with dietary ractopamine, 1240
Deuterium Oxide
Relation of growth hormone response to growth hormone-releasing hormone to estimation of milk production via deuterium oxide dilution in beef cattle, 1270
Development
Developmental changes in ketogenic enzyme gene expression during sheep rumen development, 1538
Dexamethasone
High versus low body condition in mares: Interactions with responses to somatotropin, GnRH analog, and dexamethasone, 3277
Dietary Fat
Effect of high temperature and low-protein diets on the performance of growing-finishing pigs, 691
Growth, carcass characteristics, muscle conjugated linoleic acid (CLA) content, and response to intravenous glucose challenge in high percentage Wagyu, Wagyu × Limousin, and Limousin steers fed sunflower oil-containing diets, 2996
Dietary Nutrients
Effects of nutrient supply and dietary bulk on O_2 uptake and nutrient net fluxes across rumen, mesenteric- and portal-drained viscera in ewes, 1362

Dietary Protein
Effect of high temperature and low-protein diets on the performance of growing-finishing pigs, 691
Impact of betaine on pig finishing performance and carcass composition, 475
Diet
Effects of dietary ingredients on manure characteristics and odorous emissions from swine, 1512
Effects of dietary lipid type on muscle fatty acid composition, carcass leanness, and meat toughness in lambs, 628
Effects of Providing a Water-Soluble Globulin in Drinking Water and Diet Complexity on Growth Performance of Weanling Pigs, 3065
Effects of restricted feeding, low-energy diet, and implantation of trenbolone acetate plus estradiol on growth, carcass traits, and circulating concentrations of insulin-like growth factor (IGF)-I and IGF-binding protein-3 in finishing barrows, 84
Diets
Fermented wheat in liquid diets: Effects on gastrointestinal characteristics in weanling piglets, 1179
Diet Studies
Can goats learn about foods through conditioned food aversions and preferences when multiple food options are simultaneously available?, 2091
Digesta
Validity of specifically applied rare earth elements and compartmental models for estimating flux of undigested plant tissue residues through the gastrointestinal tract of ruminants, 2753
Digestibiilty
By-product feeds for meat goats: Effects on digestibility, ruminal environment, and carcass characteristics, 1752
Digestibility
Determination of true ileal amino acid digestibility and the endogenous amino acid outputs associated with barley samples for growing-finishing pigs by the regression analysis technique, 1593
Digestibility and dry matter intake of diets containing alfalfa and kenaf , 2989
Digestive processes of dairy cows fed silages harvested at four stages of grass maturity, 1986
Effect of exogenous fibrolytic enzyme on ruminal fermentation and digestibility of alfalfa and rye-grass hay fed to lambs, 3016
Effects of oscillating dietary protein on ruminal fermentation and site and extent of nutrient digestion in sheep, 3336
Evaluation of mobile nylon bag technique for determining apparent ileal digestibilities of protein and amino acids in growing pigs, 409
Evaluation of the homoarginine technique for measuring true ileal amino acid digestibilities in pigs fed a barley-canola meal-based diet, 440
Growth performance, carcass characteristics, nutrient digestibility and fecal odorous compounds in growing-finishing pigs fed diets containing hydrolyzed feather meal, 171
Growth performance, diet apparent digestibility, and plasma metabolite concentrations of barrows fed corn-soybean meal diets or low-protein, amino acid-supplemented diets at different feeding levels, 644
Regional and processor variation in the ileal digestible amino acid content of soybean meals measured in growing swine, 429
The effects of potassium diformate and its molecular constituents on the apparent ileal and fecal digestibility and retention of nutrients in growing-finishing pigs, 681
The influence of soy oligosaccharides on apparent and true ileal amino acid digestibilities and fecal consistency in growing pigs, 2433
The nutritional value of degermed, dehulled corn for pigs and its impact on the gastrointestinal tract and nutrient excretion, 2629
Digestion
Effect of inclusion of defatted grape seed meal in the diet on digestion and performance of growing rabbits, 162
Effect of levels of starch, fiber, and lactose on digestion and growth performance of early-weaned rabbits, 1029
Influence of rumen protein degradability and supplementation frequency on steers consuming low-quality forage: I. Site of digestion and microbial efficiency, 2967
Intake, digestion, and digestive characteristics of *Neotyphodium coenophialum*-infected and uninfected fescue by heifers offered hay diets supplemented with *Aspergillus oryzae* fermentation extract or laidlomycin propionate, 225
The effects of dry extrusion temperature of whole soybeans on digestion of protein and amino acids by steers, 2493
Digestion Kinetics
Digestive processes of dairy cows fed silages harvested at four stages of grass maturity, 1986
Dioxins
Effects of clenbuterol on body stores of polychlorinated dibenzofurans (PCDF) and dibenzo-*p*-dioxins (PCDD) in rats, 2461
Dipeptides
Effects of small peptides or amino acids infused to a perfused area of the skin of Angora goats on mohair growth, 1097
Disease Resistance
Effects of a *Quillaja saponaria* extract on growth performance and immune function of weanling pigs challenged with *Salmonella typhimurium*, 1939
Effects of *Ascophyllum nodosum* extract on growth performance and immune function of young pigs challenged with *Salmonella typhimurium*, 1947
Using genetic markers for disease resistance to improve production under constant infection pressure, 322
Diseases
Circulating cortisol, tumor necrosis factor-α interleukin-1β, and interferon-γ in pigs infected with *Actinobacillus pleuropneumoniae*, 202
Growth performance and whole-body composition of pigs experimentally infected with *Mycoplasma hyopneumoniae*, 384
Distiller's Grains
Nutrient database for distiller's dried grains with solubles produced from new ethanol plants in Minnesota and South Dakota, 2639
Utilization of distillers grains from the fermentation of sorghum or corn in diets for finishing beef and lactating dairy cattle, 1105
Distiller's Solubles
Nutrient database for distiller's dried grains with solubles produced from new ethanol plants in Minnesota and South Dakota, 2639
Distribution
Offstream water and trace mineral salt as management strategies for improved cattle distribution, 346
DNA
Amplification and linkage mapping of the ovine microsatellite *DYMS1* in German Angus cattle, 1383
Rapid communication: Complete nucleotide sequence of the chicken *prolactin* gene, 1381
Dominance
Linkage analysis using direct and indirect counting and relative efficiencies for codominant and dominant loci, 2528
Dopamine
Growth hormone response to a novel growth hormone-releasing tripeptide in horses: Interaction with gonadotropin-releasing hormone, thyrotropin-releasing hormone, and sulpiride, 744
Drinking Water
The provision of drinking water to veal calves for welfare purposes, 2362
Duodenum
The biohydrogenation of linoleamide in vitro and its effects on linoleic acid concentration in duodenal contents of sheep, 533
Duroc
Pork quality, processing, and sensory characteristics of dry-cured hams as influenced by Duroc crossing and sex, 988

E

Early Weaning
Early-weaning and postweaning nutritional management affect feedlot performance, carcass merit, and the relationship of 12th-rib fat, marbling score, and feed efficiency among Angus and Wagyu heifers, 28
Effect of an accelerated finishing program on performance, carcass characteristics, and circulating insulin-like growth factor I concentration of early-weaned bulls and steers, 900
Effect of levels of starch, fiber, and lactose on digestion and growth performance of early-weaned rabbits, 1029

Response of early-weaned pigs to spray-dried porcine or animal plasma-based diets supplemented with egg-yolk antibodies against enterotoxigenic *Escherichia coli*, 2895
E. coli
Response of early-weaned pigs to spray-dried porcine or animal plasma-based diets supplemented with egg-yolk antibodies against enterotoxigenic *Escherichia coli*, 2895
Egg yolk
Response of early-weaned pigs to spray-dried porcine or animal plasma-based diets supplemented with egg-yolk antibodies against enterotoxigenic *Escherichia coli*, 2895
Eicosanoids
Relationship between postpartum changes in 13, 14-dihydro-15-keto-$PGF_{2\alpha}$ concentrations in Holstein cows and their susceptibility to endometritis, 1068
Electrolytes
Changes in oxygen content and acid-base balance in arterial and portal blood in response to the dietary electrolyte balance in pigs during a 9-h period after a meal, 1233
Electromagnetic Field
Prediction of swine carcass composition by total body electrical conductivity (TOBEC), 113
Embryos
Factors affecting cellular outgrowth from porcine inner cell masses in vitro, 2671
Influences of parity and level of feed intake on reproductive response to insulin administration after weaning in sows, 1038
Embryo Transfer
Effect of time of oocyte collection and site of insemination on oocyte transfer in mares, 1275
Endogenous Losses
Evaluation of the homoarginine technique for measuring true ileal amino acid digestibilities in pigs fed a barley-canola meal-based diet, 440
Endometritis
Relationship between postpartum changes in 13, 14-dihydro-15-keto-$PGF_{2\alpha}$ concentrations in Holstein cows and their susceptibility to endometritis, 1068
Endometrium
Rapid communication: Nucleotide sequence of the bovine elongation factor 1 alpha cDNA, 1696
Retinol and Estradiol Regulation of Retinol Binding Protein and Prostaglandin Production by Porcine Uterine Epithelial Cells in vitro, 2688
Energy
Assessment of chromium tripicolinate supplementation and dietary energy level and source on growth, carcass, and blood criteria in growing pigs, 483
Effect of calf age and dam breed on intake, energy expenditure, and excretion of nitrogen, phosphorus, and methane of beef cows with calves, 1124
Relationship between aging and nutritionally controlled growth rate on heat production of ewe lambs, 2759
Enterococcus
Effects of bacterial direct-fed microbials on ruminal fermentation, blood variables, and the microbial populations of feedlot cattle, 1977
Environment
Alternative housing systems for pigs: influences on growth, composition, and pork quality, 1781
Diverse birth and rearing environment effects on pig growth and meat quality, 1707
Effects of stocking rate and crude protein intake during gestation on ground cover, soil-nitrate concentration, and sow and litter performance in an outdoor swine production system, 1451
Genotype × environmental interaction for mature size and rate of maturing for Angus, Brahman, and reciprocal-cross cows grazing bermudagrass or endophyte infected fescue, 3073
Enzyme Activities
A comparison of enzymatic and molecular approaches to characterize the cellulolytic microbial ecosystems of the rumen and the cecum, 790
Enzymes
Effect of exogenous fibrolytic enzyme on ruminal fermentation and digestibility of alfalfa and rye-grass hay fed to lambs, 3016
Epinephrine
Technical note: Adipose tissue blood flow in miniature swine (*Sus scrofa*) using the ^{133}xenon washout technique, 1294
Epistasis
Heterosis and recombination effects on pig growth and carcass traits, 2286
Heterosis and recombination effects on pig reproductive traits, 2303
Epithelium
Volatile fatty acid metabolism by epithelial cells isolated from different areas of the ewe rumen, 270
Equidae
Production of amines in equine cecal contents in an in vitro model of carbohydrate overload, 2656
Ergot Alkaloids
Technical note: Epimerization of ergopeptine alkaloids in organic and aqueous solvents, 1616
Escherichia coli
Effects of ruminal and postruminal infusion of starch hydrolysate or glucose on the microbial ecology of the gastrointestinal tract in growing steers, 3027
Evaluation of Finishing Performance, Carcass Characteristics, Acid-resistant *E. coli* and Total Coliforms from Steers Fed Combinations of Wet Corn Gluten Feed and Steam-Flaked Corn, 3328
Escherichia coli O157:H7
Sodium chlorate supplementation reduces *E. coli* O157:H7 populations in cattle, 1683
Estradiol
Administration of estradiol-17β increases anterior pituitary IGF-I and relative amounts of serum and anterior pituitary IGF-binding proteins in barrows, 214
Retinol and Estradiol Regulation of Retinol Binding Protein and Prostaglandin Production by Porcine Uterine Epithelial Cells in vitro, 2688
The use of a progesterone-releasing device (CIDR-B) or melengestrol acetate with GnRH, LH, or estradiol benzoate for fixed-time AI in beef heifers, 1746
Estrogen Receptors
Examination of the relationship between the estrogen receptor gene and reproductive traits in swine, 2334
Estrous Cycle
Seasonal serum concentrations of melatonin in cycling and noncycling mares, 2949
Serum leptin and its adipose gene expression during pubertal development, the estrous cycle, and different seasons in cattle, 2158
Estrus
Characteristics of estrus before and after first insemination and fertility of heifers after synchronized estrus using GnRH, $PGF_{2\alpha}$, and progesterone, 2792
Effect of frequency of boar exposure and adjusted mating times on measures of reproductive performance in weaned sows, 892
Evaluation of a fixed-time artificial insemination protocol for postpartum suckled beef cows, 3060
Seasonal effects on estrous behavior and time of ovulation in nonlactating beef cows, 3053
Estrus Cycle
Melengestrol acetate blocks the preovulatory surge of luteinizing hormone, the expression of behavioral estrus, and ovulation in beef heifers, 1280
Ethoxyquin
Carbohydrate fermentation and nitrogen metabolism of a finishing beef diet by ruminal microbes in continuous cultures as affected by ethoxyquin and(or) supplementation of monensin and tylosin, 1117
Ewes
Appearance and disappearance of swainsonine in serum and milk of lactating ruminants with nursing young following a single dose exposure to swainsonine (locoweed; *Oxytropis sericea*), 2476
Leptin concentrations in periparturient ewes and their subsequent offspring, 738
Excreta
Genetic and nutritional effects on swine excreta, 2809
Excretion
Effect of feeding organic and inorganic sources of additional zinc on growth performance and zinc balance in nursery pigs, 1917
Effects of dietary protein and fermentable fiber on nitrogen excretion patterns and plasma urea in grower pigs, 3247

Effects of dietary protein and oathull fiber on nitrogen excretion patterns and postprandial plasma urea profiles in grower pigs, 3238
Exercise
Effects of fasting and transportation on pork quality development and extent of postmortem metabolism, 3194
Impact of spontaneous exercise on performance, meat quality, and muscle fiber characteristics of growing/finishing pigs, 2833
Technical note: Adipose tissue blood flow in miniature swine (*Sus scrofa*) using the ^{133}xenon washout technique, 1294
Extrusion
Nutritional quality of extruded kidney bean (*Phaseolus vulgaris* L. var. Pinto) and its effects on growth and skeletal muscle nitrogen fractions in rats, 875
The effects of dry extrusion temperature of whole soybeans on digestion of protein and amino acids by steers, 2493

F

Fallow Deer
Effect of zeranol or melengestrol acetate (MGA) on testicular and antler development and aggression in farmed fallow bucks, 1433
Farrowing Rate
Effect of frequency of boar exposure and adjusted mating times on measures of reproductive performance in weaned sows, 892
Fasting
Effects of fasting and transportation on pork quality development and extent of postmortem metabolism, 3194
Fats
Correlated response to selection for litter size in pigs: I. Growth, fat deposition and feeding behavior traits, 2556
Correlated response to selection for litter size in pigs: II. Carcass, meat, and fat quality traits, 2566
Effects of supplementation with high linoleic or oleic cracked safflower seeds on postpartum reproduction and calf performance of primiparous beef heifers, 2023
Prediction of swine carcass composition by total body electrical conductivity (TOBEC), 113
Protein and fat utilization in lactating sows: I. Effects on milk production and body composition, 2442
Protein and fat utilization in lactating sows: II. Challenging behavior of a model of metabolism, 2452
Fatty Acids
Conjugated linoleic acid depresses the Δ^9 desaturase index and stearoyl coenzyme A desaturase enzyme activity in porcine subcutaneous adipose tissue, 2110
Effect of dietary energy supply and fat source on the fatty acid pattern of adipose and lean tissues and lipogenesis in the pig, 1564
Effects of dietary conjugated linoleic acid on fatty acid composition, lipid oxidation, color, and water-holding capacity of pork loin, 108
Effects of dietary lipid type on muscle fatty acid composition, carcass leanness, and meat toughness in lambs, 628
Feeding lambs high-oleate or high-linoleate safflower seeds differentially influences carcass fatty acid composition, 609
Genetic effects on fatty acid composition of carcass fat of Japanese Black Wagyu steers, 1005
Genetic variation in fatness and fatty acid composition of crossbred cattle, 2825
The biohydrogenation of linoleamide in vitro and its effects on linoleic acid concentration in duodenal contents of sheep, 533
The effects of dietary fat sources, levels, and feeding intervals on pork fatty acid composition, 1606
Fatty Acid Synthase
Coordinate regulation of ovine adipose tissue gene expression by propionate, 2840
Fearfulness
The effects of cognitive behavioral intervention on the attitude and behavior of stockpersons and the behavior and productivity of commercial dairy cows, 68
Feather Meal
Growth performance, carcass characteristics, nutrient digestibility and fecal odorous compounds in growing-finishing pigs fed diets containing hydrolyzed feather meal, 171
Supplemental betaine and peroxide-treated feather meal for finishing cattle, 2234
Feed Conversion Efficiency
Degree of competition at feeding differentially affects behavior and performance of group-housed growing-finishing pigs of different relative weights, 376
Feeding Behavior
Correlated response to selection for litter size in pigs: I. Growth, fat deposition and feeding behavior traits, 2556
Degree of competition at feeding differentially affects behavior and performance of group-housed growing-finishing pigs of different relative weights, 376
Effect of group size and feeder type on growth performance and feeding patterns in finishing pigs, 568
The relationship between meal composition and long-term diet choice, 3165
Feeding
Exposure to ammoniated wheat straw as suckling calves improves performance of mature beef cows wintered on ammoniated wheat straw, 2340
The provision of solid feeds to veal calves: II. Behavior, physiology, and abomasal damage, 367
Feeding Frequency
Growth performance and metabolic and endocrine traits in calves pair-fed by bucket or by automate starting in the neonatal period, 1545
Plasma leptin concentration in adult cattle: Effects of breed, adiposity, feeding level, and meal intake, 1317
Feed Intake
A prolonged photoperiod improves feed intake and energy metabolism of weanling pigs, 1736
Degree of competition at feeding differentially affects behavior and performance of group-housed growing-finishing pigs of different relative weights, 376
Digestive processes of dairy cows fed silages harvested at four stages of grass maturity, 1986
Effect of creep feed consumption on individual feed intake characteristics and performance of group-housed weanling pigs, 1413
Feeding strategies for managing heat load in feedlot cattle, 2373
Growth performance, diet apparent digestibility, and plasma metabolite concentrations of barrows fed corn-soybean meal diets or low-protein, amino acid-supplemented diets at different feeding levels, 644
Feedlots
Comparison of muscle fatty acid profiles and cholesterol concentrations of bison, beef cattle, elk, and chicken, 1202
Effect of age at feedlot entry on performance and carcass characteristics of bulls and steers, 2247
Estimated genetic parameters for carcass traits of Brahman cattle, 955
Feeding strategies for managing heat load in feedlot cattle, 2373
Phosphorus requirement of finishing feedlot calves, 1690
Shade effects on performance, carcass traits, physiology, and behavior of heat-stressed feedlot heifers, 2043
Supplemental betaine and peroxide-treated feather meal for finishing cattle, 2234
Feed Supplementations
Influence of rumen protein degradability and supplementation frequency on steers consuming low-quality forage: I. Site of digestion and microbial efficiency, 2967
Feed Supplements
Winter-annual pasture as a supplement for beef cows, 1157
Feed Troughs
Effects of feeder-trough space and variation in body weight within a pen of pigs on performance in a wean-to-finish production system, 2241
Fermentation
Effect of liquid feeding weaned pigs on growth performance to harvest, 1725
Effects of ruminal and postruminal infusion of starch hydrolysate or glucose on the microbial ecology of the gastrointestinal tract in growing steers, 3027
Effects of virginiamycin and monensin plus tylosin on ruminal protein metabolism in steers fed corn-based finishing diets with or without wet corn gluten feed, 3005
Factors affecting conjugated linoleic acid and *trans*-vaccenic acid production by mixed ruminal bacteria, 3347
Fermented wheat in liquid diets: Effects on gastrointestinal characteristics in weanling piglets, 1179

Influence of rumen protein degradability and supplementation frequency on steers consuming low-quality forage: II. Ruminal fermentation characteristics, 2978
In vitro gas production measurements to evaluate interactions between untreated and chemically treated rice straws, grass hay, and mulberry leaves, 517
Fertility
Characteristics of estrus before and after first insemination and fertility of heifers after synchronized estrus using GnRH, $PGF_{2\alpha}$, and progesterone, 2792
Effect of pyruvate on the function of stallion spermatozoa stored for up to 48 hours, 12
Relationship of fertility to ovarian follicular waves before breeding in dairy cows, 1053
Fertilization
Effect of time of oocyte collection and site of insemination on oocyte transfer in mares, 1275
Fertilizers
Effects of residual and reapplied biosolids on performance and mineral status of grazing beef steers, 260
Festuca
Intake, digestion, and digestive characteristics of *Neotyphodium coenophialum*-infected and uninfected fescue by heifers offered hay diets supplemented with *Aspergillus oryzae* fermentation extract or laidlomycin propionate, 225
Nitrogen metabolism of beef steers fed endophyte-free tall fescue hay: Effects of ruminally protected methionine supplementation, 1344
Technical note: Epimerization of ergopeptine alkaloids in organic and aqueous solvents, 1616
Festuca arundinacea
Performance of steers grazing rhizomatous and nonrhizomatous birdsfoot trefoil in pure stands and in tall fescue mixtures, 1970
Fetal Development
Fetal development in the pig in relation to genetic merit for piglet survival, 1759
Ontogenic development of brown adipose tissue in Angus and Brahman fetal calves, 591
Fetus
Interrelationships among conceptus size, uterine protein secretion, fetal erythropoiesis, and uterine capacity, 729
Fiber
Effect of inclusion of defatted grape seed meal in the diet on digestion and performance of growing rabbits, 162
Effect of levels of starch, fiber, and lactose on digestion and growth performance of early-weaned rabbits, 1029
Fibers
Effects of dietary protein and fermentable fiber on nitrogen excretion patterns and plasma urea in grower pigs, 3247
Effects of dietary protein and oathull fiber on nitrogen excretion patterns and postprandial plasma urea profiles in grower pigs, 3238
Fibrinogen
Effects of ketoprofen alone or in combination with local anesthesia during the castration of bull calves on plasma cortisol, immunological, and inflammatory responses, 1044
Fibroblasts
Rapid communication: Linkage and physical mapping of the porcine *basic fibroblast growth factor* (*FGF2*) gene, 1385
Finishing
Effect of group size and feeder type on growth performance and feeding patterns in finishing pigs, 568
Effect of removal and remixing of lightweight pigs on performance to slaughter weights, 1166
Effects of double stocking and weighing frequency on pig performance in wean-to-finish production systems, 1442
Effects of increasing dietary niacin on growth performance and meat quality in finishing pigs reared in two different environments, 3203
Evaluation of Finishing Performance, Carcass Characteristics, Acid-resistant *E. coli* and Total Coliforms from Steers Fed Combinations of Wet Corn Gluten Feed and Steam-Flaked Corn, 3328
Fixed-Time AI
The use of a progesterone-releasing device (CIDR-B) or melengestrol acetate with GnRH, LH, or estradiol benzoate for fixed-time AI in beef heifers, 1746
Flaking
Evaluation of Finishing Performance, Carcass Characteristics, Acid-resistant *E. coli* and Total Coliforms from Steers Fed Combinations of Wet Corn Gluten Feed and Steam-Flaked Corn, 3328
Flow
Validity of specifically applied rare earth elements and compartmental models for estimating flux of undigested plant tissue residues through the gastrointestinal tract of ruminants, 2753
Fodder Crops
Winter-annual pasture as a supplement for beef cows, 1157
Folic Acid
Effect of folic acid and glycine supplementation on embryo development and folate metabolism during early pregnancy in pigs, 2134
Interrelationships among conceptus size, uterine protein secretion, fetal erythropoiesis, and uterine capacity, 729
Follicles
Changes in follicular fluid Steroids, insulin-like growth factors (IGF) and IGF-binding protein concentration and proteolytic activity during equine follicular development, 179
Effect of an orally active progestin on follicular dynamics in cycling and anestrous postpartum beef cows, 1932
Influence of exogenous gonadotropin-releasing hormone on ovarian function in beef cows after short- and long-term nutritionally induced anovulation, 3268
Relationship between serum insulin-like growth factor-I and genotype during the postpartum interval in beef cows, 716
Relationship of fertility to ovarian follicular waves before breeding in dairy cows, 1053
Food Intake
Effects of four mono- and sesquiterpenes on the consumption of alfalfa pellets by sheep, 3301
The influence of level of feeding on growth and serum insulin-like growth factor I and insulin-like growth factor-binding proteins in growing beef cattle supplemented with somatotropin, 94
Uncoupling proteins and energy expenditure in mice divergently selected for heat loss, 602
Food Preferences
Can goats learn about foods through conditioned food aversions and preferences when multiple food options are simultaneously available?, 2091
Conditioning taste aversions to locoweed (*Oxytropis sericea*) in horses, 79
Effects of four mono- and sesquiterpenes on the consumption of alfalfa pellets by sheep, 3301
Influence of macronutrients and activated charcoal on intake of sagebrush by sheep and goats, 2099
The relationship between meal composition and long-term diet choice, 3165
Forage
Effect of increasing proportion of supplemental N from urea in prepartum supplements on range beef cow performance and on forage intake and digestibility by steers fed low-quality forage, 1652
Exposure to ammoniated wheat straw as suckling calves improves performance of mature beef cows wintered on ammoniated wheat straw, 2340
Growth performance of stocker calves backgrounded on sod-seeded winter annuals or hay and grain, 926
Influence of rumen protein degradability and supplementation frequency on steers consuming low-quality forage: II. Ruminal fermentation characteristics, 2978
Influence of rumen protein degradability and supplementation frequency on steers consuming low-quality forage: I. Site of digestion and microbial efficiency, 2967
Matua bromegrass hay for mares in gestation and lactation, 2960
Performance of steers grazing rhizomatous and nonrhizomatous birdsfoot trefoil in pure stands and in tall fescue mixtures, 1970
Relationship of milk yield and quality to preweaning gain of calves from Angus, Brahman and reciprocal-cross cows on different forage systems, 2522
Foraging
Polyethylene glycol influences selection of foraging location by sheep consuming quebracho tannin, 1846
Forestomach
Influence of food deprivation on the transport of 3-O-methyl-α-D-glucose across the isolated ruminal epithelium of sheep, 2740

Freezing
Technical note: The effect of freezing on Warner-Bratzler shear force values of beef longissimus steaks across several postmortem aging periods, 2122
Frequency
Influence of rumen protein degradability and supplementation frequency on performance and nitrogen use in ruminants consuming low-quality forage: Cow performance and efficiency of nitrogen use in wethers, 1629
Influence of rumen protein degradability and supplementation frequency on steers consuming low-quality forage: II. Ruminal fermentation characteristics, 2978
Influence of rumen protein degradability and supplementation frequency on steers consuming low-quality forage: I. Site of digestion and microbial efficiency, 2967
Functional Foods
Effect of extruded full-fat soybeans on conjugated linoleic acid content of intramuscular, intermuscular, and subcutaneous fat in beef steers, 1135
Funding
Reflection on the history, coordination, and funding trends for U.S. public meat research: Information to enhance resource allocation, 2085
Furans
Effects of clenbuterol on body stores of polychlorinated dibenzofurans (PCDF) and dibenzo-*p*-dioxins (PCDD) in rats, 2461
Fusaric Acid
Effects of feeding a blend of grains naturally contaminated with *Fusarium* mycotoxins on swine performance, brain regional neurochemistry, and serum chemistry and the efficacy of a polymeric glucomannan mycotoxin adsorbent, 3257
Fusarium Mycotoxins
Effects of feeding a blend of grains naturally contaminated with *Fusarium* mycotoxins on swine performance, brain regional neurochemistry, and serum chemistry and the efficacy of a polymeric glucomannan mycotoxin adsorbent, 3257

G

Gallus gallus
Rapid communication: Complete nucleotide sequence of the chicken *prolactin* gene, 1381
Gap Junctions
Rapid communication: Physical and linkage mapping of the porcine *connexin 37* (*CX37*) gene, 1376
Gases
In vitro gas production measurements to evaluate interactions between untreated and chemically treated rice straws, grass hay, and mulberry leaves, 517
Gene Expression
Gene expression in sexually dimorphic muscles in sheep, 1879
Serum leptin and its adipose gene expression during pubertal development, the estrous cycle, and different seasons in cattle, 2158
Gene Mapping
Amplification and linkage mapping of the ovine microsatellite *DYMS1* in German Angus cattle, 1383
Rapid communication: Linkage and physical mapping of the porcine *basic fibroblast growth factor* (*FGF2*) gene, 1385
Rapid communication: Linkage mapping of the porcine immunoreceptor *DAP10* and *NKG2D* genes, 1378
Rapid communication: Mapping of the *beta Tropomyosin* (*TPM2*) gene to pig chromosome 1, 1380
Rapid communication: Mapping of the *Ca^{2+} ATPase of fast twitch 1 skeletal muscle sarcoplasmic reticulum* (*ATP2A1*) gene to porcine chromosome 3, 1387
Rapid communication: Nucleotide sequence and physical mapping of the porcine *cyclin-dependent kinase inhibitor 3* (*CDKN3*) gene, 1699
Rapid communication: Physical and linkage mapping of the porcine calcitonin (*CALC*) gene, 1701
Rapid communication: Physical and linkage mapping of the porcine *connexin 37* (*CX37*) gene, 1376
Genetic Analysis
Genetic evaluation of carcass yield using ultrasound measures on young replacement beef cattle, 1809
Rapid communication: Complete nucleotide sequence of the chicken *prolactin* gene, 1381
Genetic Correlation
Estimates of genetic parameters and genetic change for reproduction, weight, and wool characteristics of columbia sheep, 3086
Estimates of parameters between direct and maternal genetic effects for weaning weight and direct genetic effects for carcass traits in crossbred cattle, 3107
Genetic and environmental parameters for steer ultrasound and carcass traits, 1489
Genetic antagonism between body weight and milk production in beef cattle, 316
Genetic parameter estimates of yearling live animal ultrasonic measurements in Brangus cattle, 3150
Genetic parameters for weight, weight adjusted for body condition score, height, and body condition score in beef cows, 3112
Genetic Engineering
The impact of a transgene for ovine growth hormone on the performance of two breeds of sheep, 2325
Genetic Markers
Examination of the relationship between the estrogen receptor gene and reproductive traits in swine, 2334
Heterozygosity for genes influencing a quantitative trait, 1478
Scaling to account for heterogeneous variances in a Bayesian analysis of broiler quantitative trait loci, 45
Genetic Parameters
Estimated genetic parameters for carcass traits of Brahman cattle, 955
Genetic evaluation of the probability of pregnancy at 14 months for Nellore heifers, 951
Genetic parameter estimates of yearling live animal ultrasonic measurements in Brangus cattle, 3150
Genetic parameters and trends for lean growth rate and its components in U.S. Yorkshire, Duroc, Hampshire, and Landrace pigs, 2062
Genetic parameters for pork carcass components, 3099
Genetic parameters for various random regression models to describe the weight data of pigs, 575
Genetic parameters for weight, weight adjusted for body condition score, height, and body condition score in beef cows, 3112
Genetic variation in fatness and fatty acid composition of crossbred cattle, 2825
Maternal effects on traits measured during postweaning performance test of swine from four breeds, 1470
Multivariate analysis of litter size for multiple parities with production traits in pigs: I. Bayesian variance component estimation, 2540
Nuclear, cytoplasmic, and environmental effects on growth, fat, and muscle traits in Suffolk lambs from a sire referencing scheme, 57
Purebred-crossbred performance and genetic evaluation of postweaning growth and carcass traits in *Bos indicus* × *Bos taurus* crosses in Australia, 1801
Genetic Polymorphism
Evaluation of single-nucleotide polymorphisms in *CAPN1* for association with meat tenderness in cattle, 3077
Rapid communication: Linkage and physical mapping of the porcine *basic fibroblast growth factor* (*FGF2*) gene, 1385
Genetic Trend
Genetic parameters and trends for lean growth rate and its components in U.S. Yorkshire, Duroc, Hampshire, and Landrace pigs, 2062
Genetic Variance
Purebred-crossbred performance and genetic evaluation of postweaning growth and carcass traits in *Bos indicus* × *Bos taurus* crosses in Australia, 1801
Genetic Variation
Genetic diversity and assignment tests among seven French cattle breeds based on microsatellite DNA analysis, 942
Genetics
Genetic and nutritional effects on swine excreta, 2809
Genetic effects on fatty acid composition of carcass fat of Japanese Black Wagyu steers, 1005
Using genetic markers for disease resistance to improve production under constant infection pressure, 322
Genotype Environment
Relationship of milk yield and quality to preweaning gain of calves from Angus, Brahman and reciprocal-cross cows on different forage systems, 2522

Genotype-Environment Interaction
Investigation of genotype × country interactions for growth traits in beef cattle, 330
Preweaning growth of F_1 tropically adapted beef cattle breeds × Angus and reproductive performance of their Angus dams in arid rangeland, 911
Genotypes
Effect of vitamin E on improving fresh pork quality in Berkshire- and Hampshire-sired pigs, 3230
Genotype × environmental interaction for mature size and rate of maturing for Angus, Brahman, and reciprocal-cross cows grazing bermudagrass or endophyte infected fescue, 3073
Pork quality, processing, and sensory characteristics of dry-cured hams as influenced by Duroc crossing and sex, 988
Relationship between serum insulin-like growth factor-I and genotype during the postpartum interval in beef cows, 716
Germ Line
Factors affecting cellular outgrowth from porcine inner cell masses in vitro, 2671
Gestation
Conceptus competition for uterine space: Different strategies exhibited by the Meishan and Yorkshire pig, 1311
GH
Effects of N-methyl-D,L-aspartate on LH, GH, and testosterone secretion in goat bucks maintained under long or short photoperiods, 1623
Gilts
The effect of lean growth rate on puberty attainment in gilts, 1299
Globulins
Effects of Providing a Water-Soluble Globulin in Drinking Water and Diet Complexity on Growth Performance of Weanling Pigs, 3065
Gluconeogenesis
Metabolism of propionate and 1,2-propanediol absorbed from the washed reticulorumen of lactating cows, 2168
Glucose Absorption
Influence of food deprivation on the transport of 3-O-methyl-α-D-glucose across the isolated ruminal epithelium of sheep, 2740
Glucose
Growth, carcass characteristics, muscle conjugated linoleic acid (CLA) content, and response to intravenous glucose challenge in high percentage Wagyu, Wagyu × Limousin, and Limousin steers fed sunflower oil-containing diets, 2996
Influence of abomasal infusion of glucose or partially hydrolyzed starch on pancreatic exocrine secretion in beef steers, 1112
Glutamine
Isolated canine and murine intestinal cells exhibit a different pattern of fuel utilization for oxidative metabolism, 1223
Glycogen
Effects of fasting and transportation on pork quality development and extent of postmortem metabolism, 3194
Effects of high-protein/low-carbohydrate swine diets during the final finishing phase on pork muscle quality, 137
Relationships among glycolytic potential, dark cutting (dark, firm, and dry) beef, and cooked beef palatability, 1895
Glycolytic Potential
The impact of longissimus glycolytic potential and short-term feeding of magnesium sulfate heptahydrate prior to slaughter on carcass characteristics and pork quality, 1586
GnRH
Growth hormone response to a novel growth hormone-releasing tripeptide in horses: Interaction with gonadotropin-releasing hormone, thyrotropin-releasing hormone, and sulpiride, 744
Performance of male pigs immunized against GnRH is related to the time of onset of biological response, 2953
Responses of seasonally anovulatory mares to daily administration of thyrotropin-releasing hormone and(or) gonadotropin-releasing hormone analog, 208
The use of a progesterone-releasing device (CIDR-B) or melengestrol acetate with GnRH, LH, or estradiol benzoate for fixed-time AI in beef heifers, 1746
Goat Meat
Influence of packaging method and storage time on shear value and mechanical strength of intramuscular connective tissue of chevon, 2383
Goats
By-product feeds for meat goats: Effects on digestibility, ruminal environment, and carcass characteristics, 1752
Effects of N-methyl-D,L-aspartate on LH, GH, and testosterone secretion in goat bucks maintained under long or short photoperiods, 1623
Effects of small peptides or amino acids infused to a perfused area of the skin of Angora goats on mohair growth, 1097
Induction of sexual activity in lactating anovulatory female goats using male goats treated only with artificially long days, 2780
Influence of macronutrients and activated charcoal on intake of sagebrush by sheep and goats, 2099
Influence of macronutrients and polyethylene glycol on intake of a quebracho tannin diet by sheep and goats, 3154
Management of the female stimulus during semen collection and its association with libido re-establishment and semen characteristics of goats, 1520
Simulated preslaughter holding and isolation effects on stress responses and live weight shrinkage in meat goats, 1771
Use of somatic cells from goat milk for dynamic studies of gene expression in the mammary gland, 1258
Gonadotropin-Releasing Hormone
Influence of exogenous gonadotropin-releasing hormone on ovarian function in beef cows after short- and long-term nutritionally induced anovulation, 3268
Gonadotropins
Pituitary responsiveness to GnRH in mares following deslorelin acetate implantation to hasten ovulation, 2681
Gossypol
Effects of gossypol from cottonseed meal and dietary vitamin E on the reproductive characteristics of superovulated beef heifers, 2485
Grading
The efficacy of three objective systems for identifying beef cuts that can be guaranteed tender, 3315
Grain
Net absorption and utilization of nitrogenous compounds across ruminal, intestinal, and hepatic tissues of growing beef steers fed dry-rolled or steam-flaked sorghum grain, 525
Grape Seeds
Effect of inclusion of defatted grape seed meal in the diet on digestion and performance of growing rabbits, 162
Grasses
Reflectance spectrum of adipose tissue to trace grass feeding in sheep: Influence of measurement site and shrinkage time after slaughter, 886
Winter-annual pasture as a supplement for beef cows, 1157
Grass Silage
Apparent ruminal degradation and rumen escape of soluble nitrogen fractions in grass and grass silage administered intraruminally to lactating dairy cows, 2704
Grass Silage Versus Maize Silage Effects on Retail Packaged Beef Quality, 1556
Supplementing barley or rapeseed meal to dairy cows fed grass-red clover silage: II. Amino acid profile of microbial fractions, 2188
Grazing
Effects of breeding date, weaning date, and grazing season length on profitability of cow-calf production systems in southeastern Montana, 1462
Evaluation of hay-type and grazing-tolerant alfalfa cultivars in season-long or complementary rotational stocking systems for beef cows, 768
Offstream water and trace mineral salt as management strategies for improved cattle distribution, 346
Grazing Systems
Winter-annual pasture as a supplement for beef cows, 1157
Group Size
Effect of group size and feeder type on growth performance and feeding patterns in finishing pigs, 568
Growth
Assessment of chromium tripicolinate supplementation and dietary energy level and source on growth, carcass, and blood criteria in growing pigs, 483
Assessment of chromium tripicolinate supplementation and dietary protein level on growth, carcass, and blood criteria in growing pigs, 2412
Body composition and tissue accretion rates of barrows fed corn-soybean meal diets or low-protein, amino acid-supplemented diets at different feeding levels, 654
Breed comparisons of Angus, Brahman, Hereford, Pinzgauer, Sahiwal, and Tarentaise for weight, weight adjusted for condition score, height, and body condition score, 3142

Breed comparisons of Angus, Charolais, Hereford, Jersey, Limousin, Simmental and South Devon for weight, weight adjusted for body condition score, height and body condition score of cows, 3123
Comparison of models for estimation of genetic parameters for mature weight of Hereford cattle, 583
Comparisons of Angus-, Braunvieh-, Chianina-, Hereford-, Gelbvieh-, Maine Anjou-, and Red Poll-sired cows for weight, weight adjusted for body condition score, height, and body condition score, 3133
Correlated response to selection for litter size in pigs: I. Growth, fat deposition and feeding behavior traits, 2556
Dietary-induced changes of muscle growth rate in pigs: Effects on in vivo and postmortem muscle proteolysis and meat quality, 2862
Dietary medium- or long-chain triglycerides improve body condition of lean-genotype sows and increase suckling pig growth, 38
Duration of feeding conjugated linoleic acid influences growth performance, carcass traits, and meat quality of finishing barrows, 637
Effect of dietary mannan oligosaccharides and(or) pharmacological additions of copper sulfate on growth performance and immunocompetence of weanling and growing/finishing pigs, 2887
Effect of duration of performance test on variance component estimates for lamb growth rate, 2078
Effect of feeding organic and inorganic sources of additional zinc on growth performance and zinc balance in nursery pigs, 1917
Effect of group size and feeder type on growth performance and feeding patterns in finishing pigs, 568
Effect of high temperature and low-protein diets on the performance of growing-finishing pigs, 691
Effect of removal and remixing of lightweight pigs on performance to slaughter weights, 1166
Effects of β-mannanase addition to corn-soybean meal diets on growth performance, carcass traits, and nutrient digestibility of weanling and growing-finishing pigs, 1012
Effects of birth weight and postnatal nutrition on neonatal sheep: III. Regulation of energy metabolism, 2850
Effects of increasing dietary niacin on growth performance and meat quality in finishing pigs reared in two different environments, 3203
Effects of increasing L-lysine HCl in corn- or sorghum-soybean meal-based diets on growth performance and carcass characteristics of growing-finishing pigs, 2420
Effects of modified tall oil and vitamin E on growth performance, carcass characteristics, and meat quality of growing-finishing pigs, 1575
Effects of small peptides or amino acids infused to a perfused area of the skin of Angora goats on mohair growth, 1097
Effects of supplementation on intake and growth of nursing calves grazing native range in southeastern North Dakota, 2717
Elevated rate of collagen solubilization and postmortem degradation in muscles of lambs with high growth rates: Possible relationship with activity of matrix metalloproteinases, 1871
Endocrine, growth, and carcass characteristics of bulls immunized against luteinizing hormone-releasing hormone fusion proteins, 2209
Energy requirement for maintenance and growth of Nellore bulls and steers fed high-forage diets, 1671
Evaluations of genotype×environment interactions of beef bulls performance-tested in feedlot or pasture, 1716
Genetic parameters and trends for lean growth rate and its components in U.S. Yorkshire, Duroc, Hampshire, and Landrace pigs, 2062
Genetic parameters for weight, weight adjusted for body condition score, height, and body condition score in beef cows, 3112
Growth of Holstein calves from birth to 90 days: The influence of dietary zinc and BLAD status, 545
Growth performance and metabolic and endocrine traits in calves pair-fed by bucket or by automate starting in the neonatal period, 1545
Growth performance and whole-body composition of pigs experimentally infected with *Mycoplasma hyopneumoniae*, 384
Growth performance, carcass characteristics, nutrient digestibility and fecal odorous compounds in growing-finishing pigs fed diets containing hydrolyzed feather meal, 171
Growth performance, diet apparent digestibility, and plasma metabolite concentrations of barrows fed corn-soybean meal diets or low-protein, amino acid-supplemented diets at different feeding levels, 644
Growth performance of stocker calves backgrounded on sod-seeded winter annuals or hay and grain, 926
Impact of betaine on pig finishing performance and carcass composition, 475
Inbreeding effects on the parameters of the growth function in three strains of Iberian pigs, 2267
Manipulation of growth in pigs through treatment of the neonate with clenbuterol and somatotropin, 1852
Multivariate analysis of litter size for multiple parities with production traits in pigs: I. Bayesian variance component estimation, 2540
Nitrogen metabolism and growth performance of gilts fed standard corn-soybean meal diets or low-crude protein, amino acid-supplemented diets, 2911
Nuclear, cytoplasmic, and environmental effects on growth, fat, and muscle traits in Suffolk lambs from a sire referencing scheme, 57
Relationship between aging and nutritionally controlled growth rate on heat production of ewe lambs, 2759
Relationships of metabolic hormones and serum glucose to growth and reproductive development in performance-tested Angus, Brangus, and Brahman bulls, 757
The effect of birth weight and feeding of supplemental milk replacer to piglets during lactation on preweaning and postweaning growth performance and carcass characteristics, 301
The effects of implant strategy on finished body weight of beef cattle, 1791
The provision of drinking water to veal calves for welfare purposes, 2362
The provision of solid feeds to veal calves: I. Growth performance, forestomach development, and carcass and meat quality, 357
Two on-farm data collection methods to determine dynamics of swine compositional growth and estimates of dietary lysine requirements, 1419
Growth Promoters
The effects of implant strategy on finished body weight of beef cattle, 1791
Growth Rate
Performance of male pigs immunized against GnRH is related to the time of onset of biological response, 2953

H

Ham
Pork quality, processing, and sensory characteristics of dry-cured hams as influenced by Duroc crossing and sex, 988
Hampshire
Effect of vitamin E on improving fresh pork quality in Berkshire- and Hampshire-sired pigs, 3230
Handling
The effects of cognitive behavioral intervention on the attitude and behavior of stockpersons and the behavior and productivity of commercial dairy cows, 68
Haplotypes
The identification of common haplotypes in bovine chromosome 5 within commercial lines of *Bos taurus* and their associations with growth traits, 1187
Haptoglobins
Effects of ketoprofen alone or in combination with local anesthesia during the castration of bull calves on plasma cortisol, immunological, and inflammatory responses, 1044
Hay
Digestibility and dry matter intake of diets containing alfalfa and kenaf , 2989
Matua bromegrass hay for mares in gestation and lactation, 2960
Health
Effects of supplemental vitamin E on performance, health, and humoral immune response of beef cattle, 933
Restricted suckling of tropical dairy cows by their own calf or other cows' calves, 1663
Heart Rate
Does nutritive and non-nutritive sucking reduce other oral behaviors and stimulate rest in calves?, 2574
Heat Production

A prolonged photoperiod improves feed intake and energy metabolism of weanling pigs, 1736
Uncoupling proteins and energy expenditure in mice divergently selected for heat loss, 602
Heat Stress
Effect of high temperature and low-protein diets on the performance of growing-finishing pigs, 691
Feeding strategies for managing heat load in feedlot cattle, 2373
Shade effects on performance, carcass traits, physiology, and behavior of heat-stressed feedlot heifers, 2043
Heifers
Effect of chlortetracycline in a trace mineral salt mix on fertility traits in beef cattle females in Florida, 880
Effects of roughage source and concentration on intake and performance by finishing heifers, 1395
Genetic evaluation of the probability of pregnancy at 14 months for Nellore heifers, 951
Serum leptin and its adipose gene expression during pubertal development, the estrous cycle, and different seasons in cattle, 2158
Height
Repeated-measure animal models to estimate genetic components of mature weight, hip height, and body condition score, 2071
Hematology
The provision of solid feeds to veal calves: II. Behavior, physiology, and abomasal damage, 367
Hemoglobin
Subjective and objective evaluation of veal lean color, 1911
Herbivores
Effects of four mono- and sesquiterpenes on the consumption of alfalfa pellets by sheep, 3301
Heritability
Comparison of models for estimation of genetic parameters for mature weight of Hereford cattle, 583
Effect of duration of performance test on variance component estimates for lamb growth rate, 2078
Estimates of genetic parameters and genetic change for reproduction, weight, and wool characteristics of columbia sheep, 3086
Estimates of parameters between direct and maternal genetic effects for weaning weight and direct genetic effects for carcass traits in crossbred cattle, 3107
Genetic parameter estimates of yearling live animal ultrasonic measurements in Brangus cattle, 3150
Genetic parameters for weight, weight adjusted for body condition score, height, and body condition score in beef cows, 3112
Repeated-measure animal models to estimate genetic components of mature weight, hip height, and body condition score, 2071
Heterogeneity
Scaling to account for heterogeneous variances in a Bayesian analysis of broiler quantitative trait loci, 45
Heterozygosity
Heterozygosity for genes influencing a quantitative trait, 1478
High-Oil Corn
Effect of high-oil corn or added corn oil on ruminal biohydrogenation of fatty acids and conjugated linoleic acid formation in beef steers fed finishing diets, 3353
History
Reflection on the history, coordination, and funding trends for U.S. public meat research: Information to enhance resource allocation, 2085
Hormone Receptors
Effect of nutrient intake on the development of the somatotropic axis and its responsiveness to GH in Holstein bull calves, 1528
Hormones
Effects of birth weight and postnatal nutrition on neonatal sheep: III. Regulation of energy metabolism, 2850
Growth performance and metabolic and endocrine traits in calves pair-fed by bucket or by automate starting in the neonatal period, 1545
Metabolic characteristics of multiparous Angus and Brahman cows grazing in the Chihuahuan Desert, 2223
The relationship between body condition, leptin, and reproductive and hormonal characteristics of mares during the seasonal anovulatory period, 2695
Horses
Daily treatment of growing foals with equine somatotropin: Pathologic and endocrinologic assessments at necropsy and residual effects in live animals, 392
Effect of a preparation of *Saccharomyces cerevisiae* on microbial profiles and fermentation patterns in the large intestine of horses fed a high fiber or a high starch diet, 2600
Effect of pyruvate on the function of stallion spermatozoa stored for up to 48 hours, 12
Growth hormone response to a novel growth hormone-releasing tripeptide in horses: Interaction with gonadotropin-releasing hormone, thyrotropin-releasing hormone, and sulpiride, 744
Leptin in horses: Tissue localization and relationship between peripheral concentrations of leptin and body condition, 2942
Technical note: Time-resolved fluoro-immunometric assay for intact insulin in livestock species, 191
Housing
Alternative housing systems for pigs: influences on growth, composition, and pork quality, 1781
Decision support system for overall welfare assessment in pregnant sows A: Model structure and weighting procedure, 1819
Decision support system for overall welfare assessment in pregnant sows B: Validation by expert opinion, 1835
Effect of wean-to-finish management on pig performance, 309
Hydrocortisone
Circulating cortisol, tumor necrosis factor-α interleukin-1β, and interferon-γ in pigs infected with *Actinobacillus pleuropneumoniae*, 202
Effects of ketoprofen alone or in combination with local anesthesia during the castration of bull calves on plasma cortisol, immunological, and inflammatory responses, 1044
Effects of ventilation regimen on the welfare and performance of lactating ewes in summer, 2349
Hydroxyproline
Elevated rate of collagen solubilization and postmortem degradation in muscles of lambs with high growth rates: Possible relationship with activity of matrix metalloproteinases, 1871
Hypothalamus
Genetic linkage mapping of quantitative trait loci for behavioral and neuroendocrine stress response traits in pigs, 2276

I

Identification
The use of passive injectable transponders in fattening lambs from birth to slaughter: Effects of injection position, age, and breed, 919
Ileum
Characterization of microbial populations and volatile fatty acid concentrations in the jejunum, ileum, and cecum of pigs weaned at 17 vs 24 days of age, 2904
Immune Response
Effect of zinc source (zinc oxide vs zinc proteinate) and level on performance, carcass characteristics, and immune response of growing and finishing steers, 2747
Effects of ventilation regimen on the welfare and performance of lactating ewes in summer, 2349
Immune System
Effect of chromium tripicolinate supplementation on porcine immune response during the periparturient and neonatal period, 456
Effect of chromium tripicolinate supplementation on porcine immune response during the postweaning period, 449
Effect of spray-dried plasma and lipopolysaccharide exposure on weaned pigs: I. Effects on the immune axis of weaned pigs, 494
Rapid communication: Linkage mapping of the porcine immunoreceptor *DAP10* and *NKG2D* genes, 1378
Serum α-tocopherol and immune function in yearling ewes supplemented with zinc and vitamin E, 1329
Immunization
Endocrine, growth, and carcass characteristics of bulls immunized against luteinizing hormone-releasing hormone fusion proteins, 2209
Performance of male pigs immunized against GnRH is related to the time of onset of biological response, 2953
Immunoglobulins
Effects of feeding a blend of grains naturally contaminated with *Fusarium* mycotoxins on swine performance, brain regional neurochemistry, and serum chemistry and the efficacy of a polymeric glucomannan mycotoxin adsorbent, 3257

Inbreeding Depression
Inbreeding effects on the parameters of the growth function in three strains of Iberian pigs, 2267
Indexes
Decision support system for overall welfare assessment in pregnant sows A: Model structure and weighting procedure, 1819
Decision support system for overall welfare assessment in pregnant sows B: Validation by expert opinion, 1835
Indicating Instruments
Online evaluation of a commercial video image analysis system (Computer Vision System) to predict beef carcass red meat yield and for augmenting the assignment of USDA yield grades, 1195
Infrared Spectrophotometry
Technical note: Fourier transform infrared (FTIR) spectroscopy as an optical nose for predicting odor sensation, 1524
Inoculant
Effect of inoculants on whole-crop barley silage fermentation and dry matter disappearance in situ, 510
Insemination
Effect of time of oocyte collection and site of insemination on oocyte transfer in mares, 1275
In situ
Effect of inoculants on whole-crop barley silage fermentation and dry matter disappearance in situ, 510
Instrumentation
The efficacy of three objective systems for identifying beef cuts that can be guaranteed tender, 3315
Insulin
Growth, carcass characteristics, muscle conjugated linoleic acid (CLA) content, and response to intravenous glucose challenge in high percentage Wagyu, Wagyu × Limousin, and Limousin steers fed sunflower oil-containing diets, 2996
Influences of parity and level of feed intake on reproductive response to insulin administration after weaning in sows, 1038
Technical note: Time-resolved fluoro-immunometric assay for intact insulin in livestock species, 191
Insulin-like Growth Factor
Administration of estradiol-17β increases anterior pituitary IGF-I and relative amounts of serum and anterior pituitary IGF-binding proteins in barrows, 214
Changes in follicular fluid Steroids, insulin-like growth factors (IGF) and IGF-binding protein concentration and proteolytic activity during equine follicular development, 179
Effect of an accelerated finishing program on performance, carcass characteristics, and circulating insulin-like growth factor I concentration of early-weaned bulls and steers, 900
Effect of nutrient intake on the development of the somatotropic axis and its responsiveness to GH in Holstein bull calves, 1528
Effects of restricted feeding, low-energy diet, and implantation of trenbolone acetate plus estradiol on growth, carcass traits, and circulating concentrations of insulin-like growth factor (IGF)-I and IGF-binding protein-3 in finishing barrows, 84
Influence of exogenous gonadotropin-releasing hormone on ovarian function in beef cows after short- and long-term nutritionally induced anovulation, 3268
Protein (lysine) restriction in primiparous lactating sows: Effects on metabolic state, somatotropic axis, and reproductive performance after weaning, 3286
Regulation of hepatic insulin-like growth factor I leader exon usage in lambs: Effect of immunization against growth hormone-releasing factor and subsequent growth hormone treatment, 1074
Relationship between serum insulin-like growth factor-I and genotype during the postpartum interval in beef cows, 716
The influence of level of feeding on growth and serum insulin-like growth factor I and insulin-like growth factor-binding proteins in growing beef cattle supplemented with somatotropin, 94
Intake
Digestibility and dry matter intake of diets containing alfalfa and kenaf , 2989
Effect of corn processing on degradable intake protein requirement of finishing cattle, 242
Effect of exogenous fibrolytic enzyme on ruminal fermentation and digestibility of alfalfa and rye-grass hay fed to lambs, 3016
Effects of nutrient supply and dietary bulk on O_2 uptake and nutrient net fluxes across rumen, mesenteric- and portal-drained viscera in ewes, 1362
Effects of supplementation on intake and growth of nursing calves grazing native range in southeastern North Dakota, 2717
Polyethylene glycol influences selection of foraging location by sheep consuming quebracho tannin, 1846
Interferon
Circulating cortisol, tumor necrosis factor-α interleukin-1β, and interferon-γ in pigs infected with *Actinobacillus pleuropneumoniae*, 202
Effects of ketoprofen alone or in combination with local anesthesia during the castration of bull calves on plasma cortisol, immunological, and inflammatory responses, 1044
Interleukin
Circulating cortisol, tumor necrosis factor-α interleukin-1β, and interferon-γ in pigs infected with *Actinobacillus pleuropneumoniae*, 202
International Comparisons
Investigation of genotype × country interactions for growth traits in beef cattle, 330
Intestinal Microorganisms
Characterization of microbial populations and volatile fatty acid concentrations in the jejunum, ileum, and cecum of pigs weaned at 17 vs 24 days of age, 2904
Intestinal Mucosa
Isolated canine and murine intestinal cells exhibit a different pattern of fuel utilization for oxidative metabolism, 1223
Tributyrin and lactitol synergistically enhanced the trophic status of the intestinal mucosa and reduced histamine levels in the gut of nursery pigs, 670
Intestines
Intestinal starch disappearance increased in steers abomasally infused with starch and protein, 3361
Intraepithelial Metabolism
Influence of food deprivation on the transport of 3-O-methyl-α-D-glucose across the isolated ruminal epithelium of sheep, 2740
In Vitro
In vitro gas production measurements to evaluate interactions between untreated and chemically treated rice straws, grass hay, and mulberry leaves, 517
The biohydrogenation of linoleamide in vitro and its effects on linoleic acid concentration in duodenal contents of sheep, 533
Iron
Interrelationships among conceptus size, uterine protein secretion, fetal erythropoiesis, and uterine capacity, 729
Isolation
Simulated preslaughter holding and isolation effects on stress responses and live weight shrinkage in meat goats, Preslaughter Holding
Simulated preslaughter holding and isolation effects on stress responses and live weight shrinkage in meat goats, 1771

J

Jejunum
Characterization of microbial populations and volatile fatty acid concentrations in the jejunum, ileum, and cecum of pigs weaned at 17 vs 24 days of age, 2904

K

Kenaf
Digestibility and dry matter intake of diets containing alfalfa and kenaf , 2989
Ketogenesis
Developmental changes in ketogenic enzyme gene expression during sheep rumen development, 1538
Kinetics
Kinetics of ruminal degradation of wheat and potato starches in total mixed rations, 235
Relative bioactivity of Dietary *RRR*- and *all-rac*-alpha-tocopheryl acetates in swine assessed with deuterium-labeled vitamin E, 702

L

Lactation
- Appearance and disappearance of swainsonine in serum and milk of lactating ruminants with nursing young following a single dose exposure to swainsonine (locoweed; *Oxytropis sericea*), 2476
- Dietary medium- or long-chain triglycerides improve body condition of lean-genotype sows and increase suckling pig growth, 38
- Effects of conjugated linoleic acids (CLA) on tissue response to homeostatic signals and plasma variables associated with lipid metabolism in lactating dairy cows, 1285
- Leptin expression in the ovine mammary gland: Putative sequential involvement of adipose, epithelial, and myoepithelial cells during pregnancy and lactation, 723
- Matua bromegrass hay for mares in gestation and lactation, 2960
- Measurement of blood flow through the mammary gland in lactating sows: Methodological aspects, 196
- Protein and fat utilization in lactating sows: I. Effects on milk production and body composition, 2442
- Protein and fat utilization in lactating sows: II. Challenging behavior of a model of metabolism, 2452
- Protein (lysine) restriction in primiparous lactating sows: Effects on metabolic state, somatotropic axis, and reproductive performance after weaning, 3286
- 2The effect of litter size and day of lactation on amino acid uptake by the porcine mammary glands, 2402

Lactic Acid
- Effect of liquid feeding weaned pigs on growth performance to harvest, 1725

Lactitol
- Tributyrin and lactitol synergistically enhanced the trophic status of the intestinal mucosa and reduced histamine levels in the gut of nursery pigs, 670

Lactose
- Effect of levels of starch, fiber, and lactose on digestion and growth performance of early-weaned rabbits, 1029

Lagoons
- Nutrient composition of Kansas swine lagoons and hoop barn manure, 2051

Lambs
- Alpha-tocopherol concentrations and case life of lamb muscle as influenced by concentrate or pasture finishing, 2513
- Digestibility and dry matter intake of diets containing alfalfa and kenaf , 2989
- Effects of birth weight and postnatal nutrition on neonatal sheep: III. Regulation of energy metabolism, 2850
- Effects of dietary lipid type on muscle fatty acid composition, carcass leanness, and meat toughness in lambs, 628
- Elevated rate of collagen solubilization and postmortem degradation in muscles of lambs with high growth rates: Possible relationship with activity of matrix metalloproteinases, 1871
- Feeding lambs high-oleate or high-linoleate safflower seeds differentially influences carcass fatty acid composition, 609
- Leptin concentrations in periparturient ewes and their subsequent offspring, 738
- Nuclear, cytoplasmic, and environmental effects on growth, fat, and muscle traits in Suffolk lambs from a sire referencing scheme, 57

Laminitis
- Production of amines in equine cecal contents in an in vitro model of carbohydrate overload, 2656

Large Intestine Fermentation
- Effect of a preparation of *Saccharomyces cerevisiae* on microbial profiles and fermentation patterns in the large intestine of horses fed a high fiber or a high starch diet, 2600

Large White
- Genetic linkage mapping of quantitative trait loci for behavioral and neuroendocrine stress response traits in pigs, 2276

Leadership
- Oregon State University's Steer-a-Year program: Integrating classroom learning and hands-on experience, 2764

Lean
- Prediction of swine carcass composition by total body electrical conductivity (TOBEC), 113
- The effect of lean growth rate on puberty attainment in gilts, 1299

Learning
- Can goats learn about foods through conditioned food aversions and preferences when multiple food options are simultaneously available?, 2091
- Polyethylene glycol influences selection of foraging location by sheep consuming quebracho tannin, 1846

Leptin
- Effect of body fat mass and nutritional status on 24-hour leptin profiles in ewes, 1083
- High versus low body condition in mares: Interactions with responses to somatotropin, GNRH analog, and dexamethasone, 3277
- Influence of dietary conjugated linoleic acid on growth, meat quality, lipogenesis, plasma leptin and physiological variables of lipid metabolism in rabbits, 1020
- Leptin concentrations in periparturient ewes and their subsequent offspring, 738
- Leptin expression in the ovine mammary gland: Putative sequential involvement of adipose, epithelial, and myoepithelial cells during pregnancy and lactation, 723
- Leptin in horses: Tissue localization and relationship between peripheral concentrations of leptin and body condition, 2942
- Metabolic characteristics of multiparous Angus and Brahman cows grazing in the Chihuahuan Desert, 2223
- Plasma leptin concentration in adult cattle: Effects of breed, adiposity, feeding level, and meal intake, 1317
- Relationships of metabolic hormones and serum glucose to growth and reproductive development in performance-tested Angus, Brangus, and Brahman bulls, 757
- Serum leptin and its adipose gene expression during pubertal development, the estrous cycle, and different seasons in cattle, 2158
- The effect of lean growth rate on puberty attainment in gilts, 1299
- The relationship between body condition, leptin, and reproductive and hormonal characteristics of mares during the seasonal anovulatory period, 2695

LH
- Effects of melengestrol acetate on reproductive behavior and concentrations of LH and testosterone in bulls, 1059
- Effects of N-methyl-D,L-aspartate on LH, GH, and testosterone secretion in goat bucks maintained under long or short photoperiods, 1623
- The use of a progesterone-releasing device (CIDR-B) or melengestrol acetate with GnRH, LH, or estradiol benzoate for fixed-time AI in beef heifers, 1746

LHRH
- Endocrine, growth, and carcass characteristics of bulls immunized against luteinizing hormone-releasing hormone fusion proteins, 2209

Libido
- Heritability and repeatability of sexual performance scores of rams, 1508
- Ram mating behavior after long-term selection for reproductive rate in Rambouillet ewes, 2588

Lighting
- A prolonged photoperiod improves feed intake and energy metabolism of weanling pigs, 1736

Linkage Analysis
- Linkage analysis using direct and indirect counting and relative efficiencies for codominant and dominant loci, 2528

Linoleic Acid
- Duration of feeding conjugated linoleic acid influences growth performance, carcass traits, and meat quality of finishing barrows, 637
- Effect of extruded full-fat soybeans on conjugated linoleic acid content of intramuscular, intermuscular, and subcutaneous fat in beef steers, 1135
- Effects of dietary conjugated linoleic acid on fatty acid composition, lipid oxidation, color, and water-holding capacity of pork loin, 108
- Feeding lambs high-oleate or high-linoleate safflower seeds differentially influences carcass fatty acid composition, 609
- The biohydrogenation of linoleamide in vitro and its effects on linoleic acid concentration in duodenal contents of sheep, 533
- The effects of dietary fat sources, levels, and feeding intervals on pork fatty acid composition, 1606

Lipid Metabolism
- Effects of dietary copper on the expression of lipogenic genes and metabolic hormones in steers, 1999

Lipid Peroxidation
Effects of dietary conjugated linoleic acid on fatty acid composition, lipid oxidation, color, and water-holding capacity of pork loin, 108
Lipids
Comparison of muscle fatty acid profiles and cholesterol concentrations of bison, beef cattle, elk, and chicken, 1202
Lipogenesis
Coordinate regulation of ovine adipose tissue gene expression by propionate, 2840
Effects of conjugated linoleic acids (CLA) on tissue response to homeostatic signals and plasma variables associated with lipid metabolism in lactating dairy cows, 1285
Human acylation-stimulating protein and lipid biosynthesis in bovine adipose tissue explants, 751
Influence of dietary conjugated linoleic acid on growth, meat quality, lipogenesis, plasma leptin and physiological variables of lipid metabolism in rabbits, 1020
Ontogenic development of brown adipose tissue in Angus and Brahman fetal calves, 591
Lipolysis
Manipulation of growth in pigs through treatment of the neonate with clenbuterol and somatotropin, 1852
Lipoproteins
Alterations in lipid metabolism induced by recombinant bovine tumor necrosis factor-alpha administration to dairy heifers, 2151
Liquid Chromatography
Purification of porcine β-casein, N-terminal sequence, quantification in mastitic milk, 1863
Litter Performance
Lactational performance of first-parity transgenic gilts expressing bovine α-lactalbumin in their milk, 1090
Litter Size
Correlated response to selection for litter size in pigs: I. Growth, fat deposition and feeding behavior traits, 2556
Correlated response to selection for litter size in pigs: II. Carcass, meat, and fat quality traits, 2566
Estimates of genetic parameters and genetic change for reproduction, weight, and wool characteristics of columbia sheep, 3086
Multivariate analysis of litter size for multiple parities with production traits in pigs: I. Bayesian variance component estimation, 2540
Liver
Effect of ammonium sulfate fertilization on bahiagrass quality and copper metabolism in grazing beef cattle, 2507
Quantitative analysis of β-adrenergic receptor subtypes in pig tissues, 963
Regulation of hepatic insulin-like growth factor I leader exon usage in lambs: Effect of immunization against growth hormone-releasing factor and subsequent growth hormone treatment, 1074
Livestock
Offstream water and trace mineral salt as management strategies for improved cattle distribution, 346
Localization
The use of passive injectable transponders in fattening lambs from birth to slaughter: Effects of injection position, age, and breed, 919
Loci
Linkage analysis using direct and indirect counting and relative efficiencies for codominant and dominant loci, 2528
Lolium
Effect of exogenous fibrolytic enzyme on ruminal fermentation and digestibility of alfalfa and rye-grass hay fed to lambs, 3016
Longissimus Dorsi
Effect of dietary energy supply and fat source on the fatty acid pattern of adipose and lean tissues and lipogenesis in the pig, 1564
Lotus corniculatus
Performance of steers grazing rhizomatous and nonrhizomatous birdsfoot trefoil in pure stands and in tall fescue mixtures, 1970
Lysine
Comparison of spray-dried blood meal and blood cells in diets for nursery pigs, 2879
Dietary lysine and threonine requirements of the pregnant sow estimated by nitrogen balance, 2144
Effects of increasing L-lysine HCl in corn- or sorghum-soybean meal-based diets on growth performance and carcass characteristics of growing-finishing pigs, 2420
Two on-farm data collection methods to determine dynamics of swine compositional growth and estimates of dietary lysine requirements, 1419

M

Magnesium Sulfate
The impact of longissimus glycolytic potential and short-term feeding of magnesium sulfate heptahydrate prior to slaughter on carcass characteristics and pork quality, 1586
Maintenance
Energy requirement for maintenance and growth of Nellore bulls and steers fed high-forage diets, 1671
Relationship between aging and nutritionally controlled growth rate on heat production of ewe lamb, 2759
Maize Byproducts
Utilization of Bt corn residues by grazing beef steers and Bt corn silage and grain by growing beef cattle and lactating dairy cows, 1352
Maize
Effect of corn processing on degradable intake protein requirement of finishing cattle, 242
Evaluation of Finishing Performance, Carcass Characteristics, Acid-resistant *E. coli* and Total Coliforms from Steers Fed Combinations of Wet Corn Gluten Feed and Steam-Flaked Corn, 3328
Flaking corn: Processing mechanics, quality standards, and impacts on energy availability and performance of feedlot cattle, 1145
The nutritional value of degermed, dehulled corn for pigs and its impact on the gastrointestinal tract and nutrient excretion, 2629
Utilization of Bt corn residues by grazing beef steers and Bt corn silage and grain by growing beef cattle and lactating dairy cows, 1352
Utilization of distillers grains from the fermentation of sorghum or corn in diets for finishing beef and lactating dairy cattle, 1105
Maize Gluten
Evaluation of Finishing Performance, Carcass Characteristics, Acid-resistant *E. coli* and Total Coliforms from Steers Fed Combinations of Wet Corn Gluten Feed and Steam-Flaked Corn, 3328
Maize Silage
Grass Silage Versus Maize Silage Effects on Retail Packaged Beef Quality, 1556
Utilization of Bt corn residues by grazing beef steers and Bt corn silage and grain by growing beef cattle and lactating dairy cows, 1352
Mammary Glands
Measurement of blood flow through the mammary gland in lactating sows: Methodological aspects, 196
The effect of litter size and day of lactation on amino acid uptake by the porcine mammary glands, 2402
Mammary Tissue
Arginine catabolism in lactating porcine mammary tissue, 467
Leptin expression in the ovine mammary gland: Putative sequential involvement of adipose, epithelial, and myoepithelial cells during pregnancy and lactation, 723
Use of somatic cells from goat milk for dynamic studies of gene expression in the mammary gland, 1258
Management
Decision support system for overall welfare assessment in pregnant sows A: Model structure and weighting procedure, 1819
Decision support system for overall welfare assessment in pregnant sows B: Validation by expert opinion, 1835
The effects of implant strategy on finished body weight of beef cattle, 1791
Mannans
Brewers dried yeast as a source of mannanoligosaccharides for weanling pigs, 2619
Effect of dietary mannan oligosaccharides and(or) pharmacological additions of copper sulfate on growth performance and immunocompetence of weanling and growing/finishing pigs, 2887

Manures
An in vitro study of manure composition on the biochemical origins, composition, and accumulation of odorous compounds in cattle feedlots, 2214
Effects of dietary ingredients on manure characteristics and odorous emissions from swine, 1512
Mapping
Rapid communication: Genetic linkage and physical mapping of the porcine *cholesteryl ester transfer protein* (*CETP*) gene, 1391
Rapid communication: Thirty-eight polymorphic microsatellite markers for mapping in rainbow trout, 541
Mares
Changes in follicular fluid Steroids, insulin-like growth factors (IGF) and IGF-binding protein concentration and proteolytic activity during equine follicular development, 179
Effect of time of oocyte collection and site of insemination on oocyte transfer in mares, 1275
High versus low body condition in mares: Interactions with responses to somatotropin, GNRH analog, and dexamethasone, 3277
Matua bromegrass hay for mares in gestation and lactation, 2960
Pituitary responsiveness to GnRH in mares following deslorelin acetate implantation to hasten ovulation, 2681
Responses of seasonally anovulatory mares to daily administration of thyrotropin-releasing hormone and(or) gonadotropin-releasing hormone analog, 208
Seasonal serum concentrations of melatonin in cycling and noncycling mares, 2949
The relationship between body condition, leptin, and reproductive and hormonal characteristics of mares during the seasonal anovulatory period, 2695
Markers
Binding affinity and capacities for ytterbium (3+) and hafinum (4+) by chemical entities of plant tissue fragments, 3307
Validity of specifically applied rare earth elements and compartmental models for estimating flux of undigested plant tissue residues through the gastrointestinal tract of ruminants, 2753
Market Research
Beef customer satisfaction: Factors affecting consumer evaluations of clod steaks, 401
Market Surveys
National Beef Quality Audit–2000: Survey of targeted cattle and carcass characteristics related to quality, quantity, and value of fed steers and heifers, 1212
Mastitis
Efficacy of intramuscular treatment of beef cows with oxytetracycline to reduce mastitis and to increase calf growth, 1405
Purification of porcine β-casein, N-terminal sequence, quantification in mastitic milk, 1863
Maternal Effects
Comparison of models for estimation of genetic parameters for mature weight of Hereford cattle, 583
Maternal effects on traits measured during postweaning performance test of swine from four breeds, 1470
Nuclear, cytoplasmic, and environmental effects on growth, fat, and muscle traits in Suffolk lambs from a sire referencing scheme, 57
Mating Behavior
Management of the female stimulus during semen collection and its association with libido re-establishment and semen characteristics of goats, 1520
Matrix
Factors affecting cellular outgrowth from porcine inner cell masses in vitro, 2671
Maturity
Breed comparisons of Angus, Brahman, Hereford, Pinzgauer, Sahiwal, and Tarentaise for weight, weight adjusted for condition score, height, and body condition score, 3142
Breed comparisons of Angus, Charolais, Hereford, Jersey, Limousin, Simmental and South Devon for weight, weight adjusted for body condition score, height and body condition score of cows, 3123
Comparisons of Angus-, Braunvieh-, Chianina-, Hereford-, Gelbvieh-, Maine Anjou-, and Red Poll-sired cows for weight, weight adjusted for body condition score, height, and body condition score, 3133
Maturity Stage
Genotype × environmental interaction for mature size and rate of maturing for Angus, Brahman, and reciprocal-cross cows grazing bermudagrass or endophyte infected fescue, 3073
Meal Composition
The relationship between meal composition and long-term diet choice, 3165
Meals
Plasma leptin concentration in adult cattle: Effects of breed, adiposity, feeding level, and meal intake, 1317
Meat Animals
Reflection on the history, coordination, and funding trends for U.S. public meat research: Information to enhance resource allocation, 2085
Meat
Evaluation of single-nucleotide polymorphisms in *CAPN1* for association with meat tenderness in cattle, 3077
Fiber-type composition of muscles of the beef chuck and round, 2872
Meat Grades
An evaluation of the USDA standards for feeder cattle frame size and muscle thickness, 560
Beef customer satisfaction: Factors affecting consumer evaluations of clod steaks, 401
National Beef Quality Audit–2000: Survey of targeted cattle and carcass characteristics related to quality, quantity, and value of fed steers and heifers, 1212
Meat Palatability
Effects of vascular infusion with a solution of saccharides; sodium chloride; phosphates; and vitamins C, E, or both on carcass traits, Warner-Bratzler shear force, and palatability traits of steaks and ground beef, 1904
Meat Quality
Correlated response to selection for litter size in pigs: II. Carcass, meat, and fat quality traits, 2566
Correlations among selected pork quality traits, 617
Creatine monohydrate supplementation and the quality of fresh pork in normal and halothane carrier pigs, 997
Diverse birth and rearing environment effects on pig growth and meat quality, 1707
Effect of vitamin E on improving fresh pork quality in Berkshire- and Hampshire-sired pigs, 3230
Effects of dietary lipid type on muscle fatty acid composition, carcass leanness, and meat toughness in lambs, 628
Effects of fasting and transportation on pork quality development and extent of postmortem metabolism, 3194
Effects of growth potential and growth path on tenderness of beef longissimus muscle from bulls and steers, 3211
Effects of high-protein/low-carbohydrate swine diets during the final finishing phase on pork muscle quality, 137
Effects of increasing dietary niacin on growth performance and meat quality in finishing pigs reared in two different environments, 3203
Effects of modified tall oil and vitamin E on growth performance, carcass characteristics, and meat quality of growing-finishing pigs, 1575
Impact of spontaneous exercise on performance, meat quality, and muscle fiber characteristics of growing/finishing pigs, 2833
Pork quality, processing, and sensory characteristics of dry-cured hams as influenced by Duroc crossing and sex, 988
Quantitative trait locus mapping for meat quality traits in an Iberian × Landrace F_2 pig population, 2801
Tenderness variation in beef longissimus muscle steaks with slight and small degrees of marbling, 2390
The provision of drinking water to veal calves for welfare purposes, 2362
The provision of solid feeds to veal calves: I. Growth performance, forestomach development, and carcass and meat quality, 357
Medium-Chain Triacylglycerols
Dietary medium- or long-chain triglycerides improve body condition of lean-genotype sows and increase suckling pig growth, 38
Meishan
Effect of folic acid and glycine supplementation on embryo development and folate metabolism during early pregnancy in pigs, 2134
Genetic linkage mapping of quantitative trait loci for behavioral and neuroendocrine stress response traits in pigs, 2276
Melanins
Binding of ractopamine HCl to ocular tissues of cattle and turkeys in vivo and to melanin in vitro, 2931

Melatonin
Induction of sexual activity in lactating anovulatory female goats using male goats treated only with artificially long days, 2780
Seasonal serum concentrations of melatonin in cycling and noncycling mares, 2949
Melengestrol Acetate
Effect of zeranol or melengestrol acetate (MGA) on testicular and antler development and aggression in farmed fallow bucks, 1433
Messenger RNA
Regulation of hepatic insulin-like growth factor I leader exon usage in lambs: Effect of immunization against growth hormone-releasing factor and subsequent growth hormone treatment, 1074
Use of somatic cells from goat milk for dynamic studies of gene expression in the mammary gland, 1258
Metabolism
Effects of birth weight and postnatal nutrition on neonatal sheep: III. Regulation of energy metabolism, 2850
Metabolic characteristics of multiparous Angus and Brahman cows grazing in the Chihuahuan Desert, 2223
Metabolism of propionate and 1,2-propanediol absorbed from the washed reticulorumen of lactating cows, 2168
Protein and fat utilization in lactating sows: I. Effects on milk production and body composition, 2442
Protein and fat utilization in lactating sows: II. Challenging behavior of a model of metabolism, 2452
Protein (lysine) restriction in primiparous lactating sows: Effects on metabolic state, somatotropic axis, and reproductive performance after weaning, 3286
2Volatile fatty acid metabolism by epithelial cells isolated from different areas of the ewe rumen, 270
Metabolites
Growth performance and metabolic and endocrine traits in calves pair-fed by bucket or by automate starting in the neonatal period, 1545
Metabolizable Energy
Additivity and associative effects of metabolizable energy and amino acid digestibility of corn, soybean meal, and wheat red dog for White Pekin ducks, 3222
Metalloproteinase
Elevated rate of collagen solubilization and postmortem degradation in muscles of lambs with high growth rates: Possible relationship with activity of matrix metalloproteinases, 1871
Metalloproteinases
Factors affecting cellular outgrowth from porcine inner cell masses in vitro, 2671
Methionine
Methionine as a methyl group donor in growing cattle, 2197
Nitrogen metabolism of beef steers fed endophyte-free tall fescue hay: Effects of ruminally protected methionine supplementation, 1344
Methodology
Technical note: Sampling methodology for relating sarcomere length, collagen concentration, and the extent of postmortem proteolysis to beef and pork longissimus tenderness, 982
Tissue residues of ractopamine and urinary excretion of ractopamine and metabolites in animals treated for 7 days with dietary ractopamine, 1240
Microbial Flora
Effects of bacterial direct-fed microbials on ruminal fermentation, blood variables, and the microbial populations of feedlot cattle, 1977
Microbiology
Fermented wheat in liquid diets: Effects on gastrointestinal characteristics in weanling piglets, 1179
Microorganisms
A comparison of enzymatic and molecular approaches to characterize the cellulolytic microbial ecosystems of the rumen and the cecum, 790
Microsatellites
Amplification and linkage mapping of the ovine microsatellite *DYMS1* in German Angus cattle, 1383
Rapid communication: Thirty-eight polymorphic microsatellite markers for mapping in rainbow trout, 541
Milk
Appearance and disappearance of swainsonine in serum and milk of lactating ruminants with nursing young following a single dose exposure to swainsonine (locoweed; *Oxytropis sericea*), 2476
Leptin concentrations in periparturient ewes and their subsequent offspring, 738
Restricted suckling of tropical dairy cows by their own calf or other cows' calves, 1663
Milk Composition
Lactational performance of first-parity transgenic gilts expressing bovine α-lactalbumin in their milk, 1090
Milk Fat
Effects of conjugated linoleic acids (CLA) on tissue response to homeostatic signals and plasma variables associated with lipid metabolism in lactating dairy cows, 1285
Milk Production
Lactational performance of first-parity transgenic gilts expressing bovine α-lactalbumin in their milk, 1090
Lactation curves of commercial ewes rearing lambs, 23
Relation of growth hormone response to growth hormone-releasing hormone to estimation of milk production via deuterium oxide dilution in beef cattle, 1270
Milk Substitutes
The effect of birth weight and feeding of supplemental milk replacer to piglets during lactation on preweaning and postweaning growth performance and carcass characteristics, 301
Milk Yield
Effects of ventilation regimen on the welfare and performance of lactating ewes in summer, 2349
Minerals
Effects of residual and reapplied biosolids on performance and mineral status of grazing beef steers, 260
Impact of vitamin and mineral supplement withdrawal and wheat middling inclusion on finishing pig growth performance, fecal mineral concentration, carcass characteristics, and the nutrient content and oxidative stability of pork, 2920
Mixing
Effect of removal and remixing of lightweight pigs on performance to slaughter weights, 1166
Modeling
Two on-farm data collection methods to determine dynamics of swine compositional growth and estimates of dietary lysine requirements, 1419
Models
A dynamic model of N metabolism in the lactating dairy cow and an assessment of impact of N excretion on the environment, 248
Genetic parameters for various random regression models to describe the weight data of pigs, 575
Validity of specifically applied rare earth elements and compartmental models for estimating flux of undigested plant tissue residues through the gastrointestinal tract of ruminants, 2753
Mohair
Effects of small peptides or amino acids infused to a perfused area of the skin of Angora goats on mohair growth, 1097
Molasses
Effect of corn- molasses-based supplements on trace mineral status in beef heifers, 2787
Molecular Genetics
Genetic linkage mapping of quantitative trait loci for behavioral and neuroendocrine stress response traits in pigs, 2276
Monte Carlo Method
Scaling to account for heterogeneous variances in a Bayesian analysis of broiler quantitative trait loci, 45
Motility
Effect of pyruvate on the function of stallion spermatozoa stored for up to 48 hours, 12
Mountain Pastures
Factors affecting animal performance during the grazing season in a mountain cattle production system, 1638
Muscle
Quantitative analysis of β-adrenergic receptor subtypes in pig tissues, 963
Muscle Fibers
Paylean alters myosin heavy chain isoform content in pig muscle, 1388
Muscles
Effects of high-protein/low-carbohydrate swine diets during the final finishing phase on pork muscle quality, 137
Gene expression in sexually dimorphic muscles in sheep, 1879
Mapping intramuscular tenderness variation in four major muscles of the beef round, 2594

Muscle Tissue
Effects of dietary lipid type on muscle fatty acid composition, carcass leanness, and meat toughness in lambs, 628
Muscle Weight
An evaluation of the USDA standards for feeder cattle frame size and muscle thickness, 560
Muscular Hypertrophy
Pleiotropic effects in Hereford, Limousin, and Piedmontese F_2 crossbred calves of genes controlling muscularity including the Piedmontese myostatin allele, 1
Mycoplasma
Growth performance and whole-body composition of pigs experimentally infected with *Mycoplasma hyopneumoniae*, 384
Myosins
Paylean alters myosin heavy chain isoform content in pig muscle, 1888

N

Natural Killer Cells
Rapid communication: Linkage mapping of the porcine immunoreceptor *DAP10* and *NKG2D* genes, 1378
Nellore
Energy requirement for maintenance and growth of Nellore bulls and steers fed high-forage diets, 1671
Net Energy Requirement
Energy requirement for maintenance and growth of Nellore bulls and steers fed high-forage diets, 1671
Neurochemistry
Effects of feeding a blend of grains naturally contaminated with *Fusarium* mycotoxins on swine performance, brain regional neurochemistry, and serum chemistry and the efficacy of a polymeric glucomannan mycotoxin adsorbent, 3257
Newborn Animals
Efficacy of partially hydrolyzed corn syrup solids as a replacement for lactose in manufactured liquid diets for neonatal pigs, 143
Growth performance and metabolic and endocrine traits in calves pair-fed by bucket or by automate starting in the neonatal period, 1545
Manipulation of growth in pigs through treatment of the neonate with clenbuterol and somatotropin, 1852
Nicotinic Acid
Effects of increasing dietary niacin on growth performance and meat quality in finishing pigs reared in two different environments, 3203
Nitric Oxide
Arginine catabolism in lactating porcine mammary tissue, 467
Nitrogen Balance
Nitrogen metabolism and growth performance of gilts fed standard corn-soybean meal diets or low-crude protein, amino acid-supplemented diets, 2911
Nitrogen
A dynamic model of N metabolism in the lactating dairy cow and an assessment of impact of N excretion on the environment, 248
Apparent ruminal degradation and rumen escape of soluble nitrogen fractions in grass and grass silage administered intraruminally to lactating dairy cows, 2704
Effect of calf age and dam breed on intake, energy expenditure, and excretion of nitrogen, phosphorus, and methane of beef cows with calves, 1124
Effects of dietary protein and fermentable fiber on nitrogen excretion patterns and plasma urea in grower pigs, 3247
Effects of dietary protein and oathull fiber on nitrogen excretion patterns and postprandial plasma urea profiles in grower pigs, 3238
Influence of rumen protein degradability and supplementation frequency on performance and nitrogen use in ruminants consuming low-quality forage: Cow performance and efficiency of nitrogen use in wethers, 1629
Nitrogen Metabolism
Carbohydrate fermentation and nitrogen metabolism of a finishing beef diet by ruminal microbes in continuous cultures as affected by ethoxyquin and(or) supplementation of monensin and tylosin, 1117
Net absorption and utilization of nitrogenous compounds across ruminal, intestinal, and hepatic tissues of growing beef steers fed dry-rolled or steam-flaked sorghum grain, 525
Nitrogen metabolism of beef steers fed endophyte-free tall fescue hay: Effects of ruminally protected methionine supplementation, 1344
Nitrogen Retention
Dietary lysine and threonine requirements of the pregnant sow estimated by nitrogen balance, 2144
Effects of oscillating dietary protein on nutrient digestibility, nitrogen metabolism, and gastrointestinal organ mass in sheep, 3021
Nose
Technical note: Fourier transform infrared (FTIR) spectroscopy as an optical nose for predicting odor sensation, 1524
Nurseries
Comparison of spray-dried blood meal and blood cells in diets for nursery pigs, 2879
Nursing
Effects of supplementation on intake and growth of nursing calves grazing native range in southeastern North Dakota, 2717
Nutrient Absorption
Effects of nutrient supply and dietary bulk on O_2 uptake and nutrient net fluxes across rumen, mesenteric- and portal-drained viscera in ewes, 1362
Nutrient Content
Impact of vitamin and mineral supplement withdrawal and wheat middling inclusion on finishing pig growth performance, fecal mineral concentration, carcass characteristics, and the nutrient content and oxidative stability of pork, 2920
Nutrient Physiology
Efficacy of partially hydrolyzed corn syrup solids as a replacement for lactose in manufactured liquid diets for neonatal pigs, 143
Nutrients
Effects of β-mannanase addition to corn-soybean meal diets on growth performance, carcass traits, and nutrient digestibility of weanling and growing-finishing pigs, 1012
NutriDense and waxy corn hybrids: Effects on site and extent of disappearance of nutrients in sheep, 1335
Nutrient database for distiller's dried grains with solubles produced from new ethanol plants in Minnesota and South Dakota, 2639
The nutritional value of degermed, dehulled corn for pigs and its impact on the gastrointestinal tract and nutrient excretion, 2629
Nutritional Requirements
Phosphorus requirement of finishing feedlot calves, 1690
Nutrition
Effect of nutrient intake on the development of the somatotropic axis and its responsiveness to GH in Holstein bull calves, 1528
Effects of birth weight and postnatal nutrition on neonatal sheep: III. Regulation of energy metabolism, 2850
Genetic and nutritional effects on swine excreta, 2809
Influence of dietary conjugated linoleic acid on growth, meat quality, lipogenesis, plasma leptin and physiological variables of lipid metabolism in rabbits, 1020
Influence of exogenous gonadotropin-releasing hormone on ovarian function in beef cows after short- and long-term nutritionally induced anovulation, 3268

O

Obesity
The impact of a transgene for ovine growth hormone on the performance of two breeds of sheep, 2325
Uncoupling proteins and energy expenditure in mice divergently selected for heat loss, 602
Odors
An in vitro study of manure composition on the biochemical origins, composition, and accumulation of odorous compounds in cattle feedlots, 2214
Effects of dietary ingredients on manure characteristics and odorous emissions from swine, 1512
Technical note: Fourier transform infrared (FTIR) spectroscopy as an optical nose for predicting odor sensation, 1524
Oligonucleotides
A comparison of enzymatic and molecular approaches to characterize the cellulolytic microbial ecosystems of the rumen and the cecum, 790

Oligosaccharides
The influence of soy oligosaccharides on apparent and true ileal amino acid digestibilities and fecal consistency in growing pigs, 2433
Ontogeny
Effect of nutrient intake on the development of the somatotropic axis and its responsiveness to GH in Holstein bull calves, 1528
Organic Acids
Fermented wheat in liquid diets: Effects on gastrointestinal characteristics in weanling piglets, 1179
Oscillation
Effects of oscillating dietary protein on nutrient digestibility, nitrogen metabolism, and gastrointestinal organ mass in sheep, 3021
Oviducts
Effect of time of oocyte collection and site of insemination on oocyte transfer in mares, 1275
Ovulation
Effect of frequency of boar exposure and adjusted mating times on measures of reproductive performance in weaned sows, 892
Pituitary responsiveness to GnRH in mares following deslorelin acetate implantation to hasten ovulation, 2681
Seasonal effects on estrous behavior and time of ovulation in nonlactating beef cows, 3053
Ovulation rate
Influences of parity and level of feed intake on reproductive response to insulin administration after weaning in sows, 1038
Ovulation Rate
Rapid communication: Physical and linkage mapping of the porcine *connexin 37* (*CX37*) gene, 1376
Oxygen Consumption
Effects of nutrient supply and dietary bulk on O_2 uptake and nutrient net fluxes across rumen, mesenteric- and portal-drained viscera in ewes, 1362
Oxytetracycline
Efficacy of intramuscular treatment of beef cows with oxytetracycline to reduce mastitis and to increase calf growth, 1405
Oxytropis
Appearance and disappearance of swainsonine in serum and milk of lactating ruminants with nursing young following a single dose exposure to swainsonine (locoweed; *Oxytropis sericea*), 2476

P

Palatability
Relationships among glycolytic potential, dark cutting (dark, firm, and dry) beef, and cooked beef palatability, 1895
Pancreatic Juice
Influence of abomasal infusion of glucose or partially hydrolyzed starch on pancreatic exocrine secretion in beef steers, 1112
Parainfluenza 3 Virus
Serum α-tocopherol and immune function in yearling ewes supplemented with zinc and vitamin E, 1329
Parity
Multivariate analysis of litter size for multiple parities with production traits in pigs: I. Bayesian variance component estimation, 2540
Parous Rates
Effect of folic acid and glycine supplementation on embryo development and folate metabolism during early pregnancy in pigs, 2134
Particle Size Reduction
Digestive processes of dairy cows fed silages harvested at four stages of grass maturity, 1986
Paspalum notation
Effect of ammonium sulfate fertilization on bahiagrass quality and copper metabolism in grazing beef cattle, 2507
Pastures
Alpha-tocopherol concentrations and case life of lamb muscle as influenced by concentrate or pasture finishing, 2513
Effects of residual and reapplied biosolids on performance and mineral status of grazing beef steers, 260
Pathology
Daily treatment of growing foals with equine somatotropin: Pathologic and endocrinologic assessments at necropsy and residual effects in live animals, 392
Performance
Effects of dietary copper on the expression of lipogenic genes and metabolic hormones in steers, 1999
Effects of increasing dietary niacin on growth performance and meat quality in finishing pigs reared in two different environments, 3203
Effects of restricted versus conventional dietary adaptation on feedlot performance, carcass characteristics, site and extent of digestion, digesta kinetics and ruminal metabolism, 2726
Performance of steers grazing rhizomatous and nonrhizomatous birdsfoot trefoil in pure stands and in tall fescue mixtures, 1970
Preweaning growth of F_1 tropically adapted beef cattle breeds × Angus and reproductive performance of their Angus dams in arid rangeland, 911
Shade effects on performance, carcass traits, physiology, and behavior of heat-stressed feedlot heifers, 2043
Supplemental betaine and peroxide-treated feather meal for finishing cattle, 2234
Performance Testing
Evaluations of genotype×environment interactions of beef bulls performance-tested in feedlot or pasture, 1716
Performance Traits
Maternal effects on traits measured during postweaning performance test of swine from four breeds, 1470
Perinatal Mortality
Fetal development in the pig in relation to genetic merit for piglet survival, 1759
pH
Changes in oxygen content and acid-base balance in arterial and portal blood in response to the dietary electrolyte balance in pigs during a 9-h period after a meal, 1233
Correlations among selected pork quality traits, 617
Effects of fasting and transportation on pork quality development and extent of postmortem metabolism, 3194
Phaseolus vulgaris
Nutritional quality of extruded kidney bean (*Phaseolus vulgaris* L. var. Pinto) and its effects on growth and skeletal muscle nitrogen fractions in rats, 875
Phenethylamine
Tissue residues of ractopamine and urinary excretion of ractopamine and metabolites in animals treated for 7 days with dietary ractopamine, 1240
Pheromones
Synthetic maternal pheromone stimulates feeding behavior and weight gain in weaned pigs, 3179
Phosphorus
Effect of calf age and dam breed on intake, energy expenditure, and excretion of nitrogen, phosphorus, and methane of beef cows with calves, 1124
Low-phytic acid barley improves calcium and phosphorus utilization and growth performance in growing pigs, 2663
Phosphorus requirement of finishing feedlot calves, 1690
Photoperiod
Effects of N-methyl-D,L-aspartate on LH, GH, and testosterone secretion in goat bucks maintained under long or short photoperiods, 1623
Induction of sexual activity in lactating anovulatory female goats using male goats treated only with artificially long days, 2780
Seasonal serum concentrations of melatonin in cycling and noncycling mares, 2949
Physiology
Shade effects on performance, carcass traits, physiology, and behavior of heat-stressed feedlot heifers, 2043
Phytic Acid
Low-phytic acid barley improves calcium and phosphorus utilization and growth performance in growing pigs, 2663
Piglets
Conjugated linoleic acid depresses the Δ^9 desaturase index and stearoyl coenzyme A desaturase enzyme activity in porcine subcutaneous adipose tissue, 2110
Effect of feeding organic and inorganic sources of additional zinc on growth performance and zinc balance in nursery pigs, 1917
Effects of a *Quillaja saponaria* extract on growth performance and immune function of weanling pigs challenged with *Salmonella typhimurium*, 1939
Effects of Providing a Water-Soluble Globulin in Drinking Water and Diet Complexity on Growth Performance of Weanling Pigs, 3065

Fermented wheat in liquid diets: Effects on gastrointestinal characteristics in weanling piglets, 1179
Pigmentation
Subjective and objective evaluation of veal lean color, 1911
Pigs
Administration of estradiol-17β increases anterior pituitary IGF-I and relative amounts of serum and anterior pituitary IGF-binding proteins in barrows, 214
Alternative housing systems for pigs: influences on growth, composition, and pork quality, 1781
A prolonged photoperiod improves feed intake and energy metabolism of weanling pigs, 1736
Assessment of chromium tripicolinate supplementation and dietary energy level and source on growth, carcass, and blood criteria in growing pigs, 483
Assessment of chromium tripicolinate supplementation and dietary protein level on growth, carcass, and blood criteria in growing pigs, 2412
Body composition and tissue accretion rates of barrows fed corn-soybean meal diets or low-protein, amino acid-supplemented diets at different feeding levels, 654
Brewers dried yeast as a source of mannanoligosaccharides for weanling pigs, 2619
Changes in oxygen content and acid-base balance in arterial and portal blood in response to the dietary electrolyte balance in pigs during a 9-h period after a meal, 1233
Changes in performance, blood parameters, humoral and cellular immune responses in weanling piglets exposed to low doses of aflatoxin, 1250
Characterization of microbial populations and volatile fatty acid concentrations in the jejunum, ileum, and cecum of pigs weaned at 17 vs 24 days of age, 2904
Circulating cortisol, tumor necrosis factor-α interleukin-1β, and interferon-γ in pigs infected with *Actinobacillus pleuropneumoniae*, 202
Conceptus competition for uterine space: Different strategies exhibited by the Meishan and Yorkshire pig, 1311
Correlated response to selection for litter size in pigs: I. Growth, fat deposition and feeding behavior traits, 2556
Correlated response to selection for litter size in pigs: II. Carcass, meat, and fat quality traits, 2566
Creatine monohydrate supplementation and the quality of fresh pork in normal and halothane carrier pigs, 997
Decision support system for overall welfare assessment in pregnant sows A: Model structure and weighting procedure, 1819
Decision support system for overall welfare assessment in pregnant sows B: Validation by expert opinion, 1835
Degree of amino acid restrictions during the grower phase and compensatory growth in pigs selected for lean growth efficiency, 2610
Degree of competition at feeding differentially affects behavior and performance of group-housed growing-finishing pigs of different relative weights, 376
Determination of true ileal amino acid digestibility and the endogenous amino acid outputs associated with barley samples for growing-finishing pigs by the regression analysis technique, 1593
Dietary medium- or long-chain triglycerides improve body condition of lean-genotype sows and increase suckling pig growth, 38
Diverse birth and rearing environment effects on pig growth and meat quality, 1707
Duration of feeding conjugated linoleic acid influences growth performance, carcass traits, and meat quality of finishing barrows, 637
Effect of chromium tripicolinate supplementation on porcine immune response during the periparturient and neonatal period, 456
Effect of chromium tripicolinate supplementation on porcine immune response during the postweaning period, 449
Effect of creep feed consumption on individual feed intake characteristics and performance of group-housed weanling pigs, 1413
Effect of dietary betaine on nutrient utilization and partitioning in the young growing feed-restricted pig, 421
Effect of dietary energy supply and fat source on the fatty acid pattern of adipose and lean tissues and lipogenesis in the pig, 1564
Effect of dietary levels of vitamin E (all-*rac*-tocopheryl acetate) with or without added fat on weanling pig performance and tissue α-tocopherol concentration, 663
Effect of dietary mannan oligosaccharides and(or) pharmacological additions of copper sulfate on growth performance and immunocompetence of weanling and growing/finishing pigs, 2887
Effect of group size and feeder type on growth performance and feeding patterns in finishing pigs, 568
Effect of high temperature and low-protein diets on the performance of growing-finishing pigs, 691
Effect of liquid feeding weaned pigs on growth performance to harvest, 1725
Effect of removal and remixing of lightweight pigs on performance to slaughter weights, 1166
Effect of spray-dried plasma and lipopolysaccharide exposure on weaned pigs: I. Effects on the immune axis of weaned pigs, 494
Effect of spray-dried plasma and lipopolysaccharide exposure on weaned pigs: II. Effects on the hypothalamic-pituitary-adrenal axis of weaned pigs, 502
Effect of vitamin E on improving fresh pork quality in Berkshire- and Hampshire-sired pigs, 3230
Effect of wean-to-finish management on pig performance, 309
Effects of β-mannanase addition to corn-soybean meal diets on growth performance, carcass traits, and nutrient digestibility of weanling and growing-finishing pigs, 1012
Effects of *Ascophyllum nodosum* extract on growth performance and immune function of young pigs challenged with *Salmonella typhimurium*, 1947
Effects of dietary ingredients on manure characteristics and odorous emissions from swine, 1512
Effects of dietary protein and fermentable fiber on nitrogen excretion patterns and plasma urea in grower pigs, 3247
Effects of dietary protein and oathull fiber on nitrogen excretion patterns and postprandial plasma urea profiles in grower pigs, 3238
Effects of double stocking and weighing frequency on pig performance in wean-to-finish production systems, 1442
Effects of feeder-trough space and variation in body weight within a pen of pigs on performance in a wean-to-finish production system, 2241
Effects of feeding a blend of grains naturally contaminated with *Fusarium* mycotoxins on swine performance, brain regional neurochemistry, and serum chemistry and the efficacy of a polymeric glucomannan mycotoxin adsorbent, 3257
Effects of increasing dietary niacin on growth performance and meat quality in finishing pigs reared in two different environments, 3203
Effects of increasing L-lysine HCl in corn- or sorghum-soybean meal-based diets on growth performance and carcass characteristics of growing-finishing pigs, 2420
Effects of modified tall oil and vitamin E on growth performance, carcass characteristics, and meat quality of growing-finishing pigs, 1575
Effects of restricted feeding, low-energy diet, and implantation of trenbolone acetate plus estradiol on growth, carcass traits, and circulating concentrations of insulin-like growth factor (IGF)-I and IGF-binding protein-3 in finishing barrows, 84
Effects of stocking rate and crude protein intake during gestation on ground cover, soil-nitrate concentration, and sow and litter performance in an outdoor swine production system, 1451
Efficacy of partially hydrolyzed corn syrup solids as a replacement for lactose in manufactured liquid diets for neonatal pigs, 143
Evaluating the antioxidant status of weanling pigs fed dietary vitamins A and E, 2396
Evaluation of mobile nylon bag technique for determining apparent ileal digestibilities of protein and amino acids in growing pigs, 409
Evaluation of the homoarginine technique for measuring true ileal amino acid digestibilities in pigs fed a barley-canola meal-based diet, 440
Examination of the relationship between the estrogen receptor gene and reproductive traits in swine, 2334
Factors affecting cellular outgrowth from porcine inner cell masses in vitro, 2671
Fetal development in the pig in relation to genetic merit for piglet survival, 1759
Heterosis and recombination effects on pig growth and carcass traits, 2286
Genetic and nutritional effects on swine excreta, 2809
Genetic parameters and trends for lean growth rate and its components in U.S. Yorkshire, Duroc, Hampshire, and Landrace pigs, 2062

Genetic parameters for pork carcass components, 3099
Genetic parameters for various random regression models to describe the weight data of pigs, 575
Growth performance and whole-body composition of pigs experimentally infected with *Mycoplasma hyopneumoniae*, 384
Growth performance, carcass characteristics, nutrient digestibility and fecal odorous compounds in growing-finishing pigs fed diets containing hydrolyzed feather meal, 171
Growth performance, diet apparent digestibility, and plasma metabolite concentrations of barrows fed corn-soybean meal diets or low-protein, amino acid-supplemented diets at different feeding levels, 644
Heterosis and recombination effects on pig reproductive traits, 2303
Impact of betaine on pig finishing performance and carcass composition, 475
Impact of spontaneous exercise on performance, meat quality, and muscle fiber characteristics of growing/finishing pigs, 2833
Impact of vitamin and mineral supplement withdrawal and wheat middling inclusion on finishing pig growth performance, fecal mineral concentration, carcass characteristics, and the nutrient content and oxidative stability of pork, 2920
Inability of heterologous growth hormone (GH) to regulate GH binding protein in GH-transgenic swine, 1962
Inbreeding effects on the parameters of the growth function in three strains of Iberian pigs, 2267
Joint evaluation of purebreds and crossbreds in swine, 2263
Long-term effects of boron supplementation on reproductive characteristics and bone mechanical properties in gilts, 154
Low-phytic acid barley improves calcium and phosphorus utilization and growth performance in growing pigs, 2663
Manipulation of growth in pigs through treatment of the neonate with clenbuterol and somatotropin, 1852
Maternal effects on traits measured during postweaning performance test of swine from four breeds, 1470
Multivariate analysis of litter size for multiple parities with production traits in pigs: I. Bayesian variance component estimation, 2540
Multivariate analysis of litter size for multiple parities with production traits in pigs: II. Response to selection for litter size and correlated response to production traits, 2548
Nitrogen metabolism and growth performance of gilts fed standard corn-soybean meal diets or low-crude protein, amino acid-supplemented diets, 2911
Nutrient composition of Kansas swine lagoons and hoop barn manure, 2051
Performance of male pigs immunized against GnRH is related to the time of onset of biological response, 2953
Prediction of intramuscular fat percentage in live swine using real-time ultrasound, 3046
Purification of porcine β-casein, N-terminal sequence, quantification in mastitic milk, 1863
Quantitative analysis of β-adrenergic receptor subtypes in pig tissues, 963
Quantitative trait locus mapping for meat quality traits in an Iberian × Landrace F_2 pig population, 2801
Rapid communication: Genetic linkage and physical mapping of the porcine *cholesteryl ester transfer protein* (*CETP*) gene, 1391
Rapid communication: Linkage mapping of the porcine immunoreceptor *DAP10* and *NKG2D* genes, 1378
Rapid communication: Mapping of the *beta Tropomyosin* (*TPM2*) gene to pig chromosome 1, 1380
Rapid communication: Mapping of the *Ca^{2+} ATPase of fast twitch 1 skeletal , 1387*
Rapid communication: Nucleotide sequence and physical mapping of the porcine cyclin-dependent kinase inhibitor 3 (*CDKN3*) gene, 1699
Rapid communication: Physical and linkage mapping of the porcine calcitonin (*CALC*) gene, 1701
Rapid communication: Physical and linkage mapping of the porcine *connexin 37* (*CX37*) gene, 1376
Rapid communication: Sequencing of the porcine agouti-related protein (*AGRP*) gene, 1389
Regional and processor variation in the ileal digestible amino acid content of soybean meals measured in growing swine, 429
Relative bioactivity of Dietary *RRR*- and *all-rac*-alpha-tocopheryl acetates in swine assessed with deuterium-labeled vitamin E, 702
Response of early-weaned pigs to spray-dried porcine or animal plasma-based diets supplemented with egg-yolk antibodies against enterotoxigenic *Escherichia coli*, 2895
Retinol and Estradiol Regulation of Retinol Binding Protein and Prostaglandin Production by Porcine Uterine Epithelial Cells in vitro, 2688
Soybean meal from Roundup Ready or conventional soybeans in diets for growing-finishing swine, 708
Synthetic maternal pheromone stimulates feeding behavior and weight gain in weaned pigs, 3179
Technical note: Adipose tissue blood flow in miniature swine (*Sus scrofa*) using the ^{133}xenon washout technique, 1294
Technical note: Fourier transform infrared (FTIR) spectroscopy as an optical nose for predicting odor sensation, 1524
Technical note: Time-resolved fluoro-immunometric assay for intact insulin in livestock species, 191
The effect of birth weight and feeding of supplemental milk replacer to piglets during lactation on preweaning and postweaning growth performance and carcass characteristics, 301
The effects of dietary fat sources, levels, and feeding intervals on pork fatty acid composition, 1606
The effects of potassium diformate and its molecular constituents on the apparent ileal and fecal digestibility and retention of nutrients in growing-finishing pigs, 681
The effects of split marketing on the physiology, behavior, and performance of finishing swine, 338
The influence of soy oligosaccharides on apparent and true ileal amino acid digestibilities and fecal consistency in growing pigs, 2433
The nutritional value of degermed, dehulled corn for pigs and its impact on the gastrointestinal tract and nutrient excretion, 2629
The tryptophan requirement of nursery pigs, 2646
Tributyrin and lactitol synergistically enhanced the trophic status of the intestinal mucosa and reduced histamine levels in the gut of nursery pigs, 670
Two on-farm data collection methods to determine dynamics of swine compositional growth and estimates of dietary lysine requirements, 1419

Pituitary
Daily treatment of growing foals with equine somatotropin: Pathologic and endocrinologic assessments at necropsy and residual effects in live animals, 392

Placenta
Components of litter size in commercial swine, 553
Fetal development in the pig in relation to genetic merit for piglet survival, 1759
Interrelationships among conceptus size, uterine protein secretion, fetal erythropoiesis, and uterine capacity, 729

Placental Growth
Conceptus competition for uterine space: Different strategies exhibited by the Meishan and Yorkshire pig, 1311

Plant Tissues
Binding affinity and capacities for ytterbium (3+) and hafinum (4+) by chemical entities of plant tissue fragments, 3307

Plasma
Effect of feeding organic and inorganic sources of additional zinc on growth performance and zinc balance in nursery pigs, 1917
Response of early-weaned pigs to spray-dried porcine or animal plasma-based diets supplemented with egg-yolk antibodies against enterotoxigenic *Escherichia coli*, 2895

Pleiotropy
Pleiotropic effects in Hereford, Limousin, and Piedmontese F_2 crossbred calves of genes controlling muscularity including the Piedmontese myostatin allele, 1

Poisonous Plants
Conditioning taste aversions to locowood (*Oxytropis sericea*) in horses, 79

Pollution
A dynamic model of N metabolism in the lactating dairy cow and an assessment of impact of N excretion on the environment, 248

Polyamines
Arginine catabolism in lactating porcine mammary tissue, 467

Polyenoic Fatty Acids
Grass Silage Versus Maize Silage Effects on Retail Packaged Beef Quality, 1556

Polyethylene Glycol
Influence of macronutrients and polyethylene glycol on intake of a quebracho tannin diet by sheep and goats, 3154

Polyethylene glycol influences selection of foraging location by sheep consuming quebracho tannin, 1846
Polymorphism
Rapid communication: Genetic linkage and physical mapping of the porcine *cholesteryl ester transfer protein* (*CETP*) gene, 1391
Rapid communication: Mapping of the *beta Tropomyosin* (*TPM2*) gene to pig chromosome 1, 1380
Rapid communication: Mapping of the *Ca^{2+} ATPase of fast twitch 1 skeletal muscle sarcoplasmic reticulum* (*ATP2A1*) gene to porcine chromosome 3, 1387
Pork
Correlations among selected pork quality traits, 617
Dietary-induced changes of muscle growth rate in pigs: Effects on in vivo and postmortem muscle proteolysis and meat quality, 2862
Diverse birth and rearing environment effects on pig growth and meat quality, 1707
Duration of feeding conjugated linoleic acid influences growth performance, carcass traits, and meat quality of finishing barrows, 637
Effects of high-protein/low-carbohydrate swine diets during the final finishing phase on pork muscle quality, 137
Pork quality, processing, and sensory characteristics of dry-cured hams as influenced by Duroc crossing and sex, 988
Prediction of swine carcass composition by total body electrical conductivity (TOBEC), 113
Short-term feeding of vitamin D_3 improves color but does not change tenderness of pork-loin chops, 2116
Technical note: Sampling methodology for relating sarcomere length, collagen concentration, and the extent of postmortem proteolysis to beef and pork longissimus tenderness, 982
The impact of longissimus glycolytic potential and short-term feeding of magnesium sulfate heptahydrate prior to slaughter on carcass characteristics and pork quality, 1586
Pork Meat Quality
Effects of dietary conjugated linoleic acid on fatty acid composition, lipid oxidation, color, and water-holding capacity of pork loin, 108
Pork Quality
Alternative housing systems for pigs: influences on growth, composition, and pork quality, 1781
Postweaning Interval
Effect of liquid feeding weaned pigs on growth performance to harvest, 1725
Potatoes
Kinetics of ruminal degradation of wheat and potato starches in total mixed rations, 235
Prediction
Technical note: Sampling methodology for relating sarcomere length, collagen concentration, and the extent of postmortem proteolysis to beef and pork longissimus tenderness, 982
Predisposition
Relationship between postpartum changes in 13, 14-dihydro-15-keto-$PGF_{2\alpha}$ concentrations in Holstein cows and their susceptibility to endometritis, 1068
Pregnancy
Dietary lysine and threonine requirements of the pregnant sow estimated by nitrogen balance, 2144
Genetic evaluation of the probability of pregnancy at 14 months for Nellore heifers, 951
Interrelationships among conceptus size, uterine protein secretion, fetal erythropoiesis, and uterine capacity, 729
Leptin expression in the ovine mammary gland: Putative sequential involvement of adipose, epithelial, and myoepithelial cells during pregnancy and lactation, 723
Matua bromegrass hay for mares in gestation and lactation, 2960
Prenatal Period
Development of the chicken as a model for prenatal stress, 1954
Preslaughter Holding
Simulated preslaughter holding and isolation effects on stress responses and live weight shrinkage in meat goats, 1771
Probiotics
Effects of bacterial direct-fed microbials on ruminal fermentation, blood variables, and the microbial populations of feedlot cattle, 1977
Processing
Effect of corn processing on degradable intake protein requirement of finishing cattle, 242
Flaking corn: Processing mechanics, quality standards, and impacts on energy availability and performance of feedlot cattle, 1145
Net absorption and utilization of nitrogenous compounds across ruminal, intestinal, and hepatic tissues of growing beef steers fed dry-rolled or steam-flaked sorghum grain, 525
Production
Digestibility and dry matter intake of diets containing alfalfa and kenaf , 2989
Using genetic markers for disease resistance to improve production under constant infection pressure, 322
Productivity
The effects of cognitive behavioral intervention on the attitude and behavior of stockpersons and the behavior and productivity of commercial dairy cows, 68
Profits
Effects of breeding date, weaning date, and grazing season length on profitability of cow-calf production systems in southeastern Montana, 1462
Progesterone
Characteristics of estrus before and after first insemination and fertility of heifers after synchronized estrus using GnRH, $PGF_{2\alpha}$, and progesterone, 2792
Relationship of fertility to ovarian follicular waves before breeding in dairy cows, 1053
Progestins
The use of a progesterone-releasing device (CIDR-B) or melengestrol acetate with GnRH, LH, or estradiol benzoate for fixed-time AI in beef heifers, 1746
Progestogens
Effect of an orally active progestin on follicular dynamics in cycling and anestrous postpartum beef cows, 1932
Effects of melengestrol acetate on reproductive behavior and concentrations of LH and testosterone in bulls, 1059
Prolactin
Rapid communication: Complete nucleotide sequence of the chicken *prolactin* gene, 1381
Responses of seasonally anovulatory mares to daily administration of thyrotropin-releasing hormone and(or) gonadotropin-releasing hormone analog, 208
Prolificacy
Estimates of genetic parameters and genetic change for reproduction, weight, and wool characteristics of columbia sheep, 3086
Multivariate analysis of litter size for multiple parities with production traits in pigs: II. Response to selection for litter size and correlated response to production traits, 2548
Proline
Arginine catabolism in lactating porcine mammary tissue, 467
Propionate
Coordinate regulation of ovine adipose tissue gene expression by propionate, 2840
Propionic Acid
Metabolism of propionate and 1,2-propanediol absorbed from the washed reticulorumen of lactating cows, 2168
Propionibacterium
Effects of bacterial direct-fed microbials on ruminal fermentation, blood variables, and the microbial populations of feedlot cattle, 1977
Propylene Glycol
Metabolism of propionate and 1,2-propanediol absorbed from the washed reticulorumen of lactating cows, 2168
Prostaglandins
Relationship between postpartum changes in 13, 14-dihydro-15-keto-$PGF_{2\alpha}$ concentrations in Holstein cows and their susceptibility to endometritis, 1068
Retinol and Estradiol Regulation of Retinol Binding Protein and Prostaglandin Production by Porcine Uterine Epithelial Cells in vitro, 2688
Protein
Assessment of chromium tripicolinate supplementation and dietary protein level on growth, carcass, and blood criteria in growing pigs, 2412
Effect of increasing proportion of supplemental N from urea in prepartum supplements on range beef cow performance and on forage intake and digestibility by steers fed low-quality forage, 1652
Effects of dietary protein and fermentable fiber on nitrogen excretion patterns and plasma urea in grower pigs, 3247

Effects of dietary protein and oathull fiber on nitrogen excretion patterns and postprandial plasma urea profiles in grower pigs, 3238
Effects of oscillating dietary protein on nutrient digestibility, nitrogen metabolism, and gastrointestinal organ mass in sheep, 3021
Effects of oscillating dietary protein on ruminal fermentation and site and extent of nutrient digestion in sheep, 3336
Effects of supplementation on intake and growth of nursing calves grazing native range in southeastern North Dakota, 2717
Effects of virginiamycin and monensin plus tylosin on ruminal protein metabolism in steers fed corn-based finishing diets with or without wet corn gluten feed, 3005
Flaking corn: Processing mechanics, quality standards, and impacts on energy availability and performance of feedlot cattle, 1145
Growth performance and whole-body composition of pigs experimentally infected with *Mycoplasma hyopneumoniae*, 384
Influence of rumen protein degradability and supplementation frequency on performance and nitrogen use in ruminants consuming low-quality forage: Cow performance and efficiency of nitrogen use in wethers, 1629
Influence of rumen protein degradability and supplementation frequency on steers consuming low-quality forage: II. Ruminal fermentation characteristics, 2978
Influence of rumen protein degradability and supplementation frequency on steers consuming low-quality forage: I. Site of digestion and microbial efficiency, 2967
The relationship between meal composition and long-term diet choice, 3165
Protein Degradation
Apparent ruminal degradation and rumen escape of soluble nitrogen fractions in grass and grass silage administered intraruminally to lactating dairy cows, 2704
Protein Digestion
Evaluation of the homoarginine technique for measuring true ileal amino acid digestibilities in pigs fed a barley-canola meal-based diet, 440
Intestinal starch disappearance increased in steers abomasally infused with starch and protein, 3361
Protein Intake
Protein (lysine) restriction in primiparous lactating sows: Effects on metabolic state, somatotropic axis, and reproductive performance after weaning, 3286
Protein Requirement
Two on-farm data collection methods to determine dynamics of swine compositional growth and estimates of dietary lysine requirements, 1419
Proteins
Factors affecting cellular outgrowth from porcine inner cell masses in vitro, 2671
Protein Synthesis
Rapid communication: Nucleotide sequence of the bovine elongation factor 1 alpha cDNA, 1696
Proteolysis
Dietary-induced changes of muscle growth rate in pigs: Effects on in vivo and postmortem muscle proteolysis and meat quality, 2862
Protozoa
Effects of virginiamycin and monensin plus tylosin on ruminal protein metabolism in steers fed corn-based finishing diets with or without wet corn gluten feed, 3005
Puberty
Effect of chlortetracycline in a trace mineral salt mix on fertility traits in beef cattle females in Florida, 880
Serum leptin and its adipose gene expression during pubertal development, the estrous cycle, and different seasons in cattle, 2158
The effect of lean growth rate on puberty attainment in gilts, 1299
Purebreds
Joint evaluation of purebreds and crossbreds in swine, 2263
Pyruvic Acid
Effect of pyruvate on the function of stallion spermatozoa stored for up to 48 hours, 12

Q

Quality
Duration of feeding conjugated linoleic acid influences growth performance, carcass traits, and meat quality of finishing barrows, 637
Performance of steers grazing rhizomatous and nonrhizomatous birdsfoot trefoil in pure stands and in tall fescue mixtures, 1970
Technical note: Sampling methodology for relating sarcomere length, collagen concentration, and the extent of postmortem proteolysis to beef and pork longissimus tenderness, 982
The efficacy of three objective systems for identifying beef cuts that can be guaranteed tender, 3315
The impact of longissimus glycolytic potential and short-term feeding of magnesium sulfate heptahydrate prior to slaughter on carcass characteristics and pork quality, 1586
Quality Grades
Online evaluation of a commercial video image analysis system (Computer Vision System) to predict beef carcass red meat yield and for augmenting the assignment of USDA yield grades, 1195
Quantitative Trait Loci
Evaluation of single-nucleotide polymorphisms in *CAPN1* for association with meat tenderness in cattle, 3077
Genome-wide scans for QTL affecting carcass traits in Hereford × composite double backcross populations, 2316
Quantitative trait locus mapping for meat quality traits in an Iberian × Landrace F_2 pig population, 2801
Scaling to account for heterogeneous variances in a Bayesian analysis of broiler quantitative trait loci, 45
Using genetic markers for disease resistance to improve production under constant infection pressure, 322
Quantitative Traits
Heterozygosity for genes influencing a quantitative trait, 1478
The identification of common haplotypes in bovine chromosome 5 within commercial lines of *Bos taurus* and their associations with growth traits, 1187
Quillaja
Effects of a *Quillaja saponaria* extract on growth performance and immune function of weanling pigs challenged with *Salmonella typhimurium*, 1939

R

Rabbits
Effect of inclusion of defatted grape seed meal in the diet on digestion and performance of growing rabbits, 162
Effect of levels of starch, fiber, and lactose on digestion and growth performance of early-weaned rabbits, 1029
Influence of dietary conjugated linoleic acid on growth, meat quality, lipogenesis, plasma leptin and physiological variables of lipid metabolism in rabbits, 1020
Relationships between body weight at first mating and subsequent body development, feed intake, and reproductive performance of rabbit does, 2036
Ractopamine
Binding of ractopamine HCl to ocular tissues of cattle and turkeys in vivo and to melanin in vitro, 2931
Rainbow Trout
Rapid communication: Thirty-eight polymorphic microsatellite markers for mapping in rainbow trout, 541
Rancidity
Grass Silage Versus Maize Silage Effects on Retail Packaged Beef Quality, 1556
Random Regressions
Two-step and random regression analyses of weight gain of station-tested beef bulls, 1497
Rangelands
Comparison of muscle fatty acid profiles and cholesterol concentrations of bison, beef cattle, elk, and chicken, 1202
Rapeseed Oilmeal
Evaluation of the homoarginine technique for measuring true ileal amino acid digestibilities in pigs fed a barley-canola meal-based diet, 440
Rats
Effects of clenbuterol on body stores of polychlorinated dibenzofurans (PCDF) and dibenzo-*p*-dioxins (PCDD) in rats, 2461
Nutritional quality of extruded kidney bean (*Phaseolus vulgaris* L. var. Pinto) and its effects on growth and skeletal muscle nitrogen fractions in rats, 875
Rearing Techniques
Relationships between body weight at first mating and subsequent body development, feed intake, and reproductive performance of rabbit does, 2036

Receptors
Rapid communication: Linkage mapping of the porcine immunoreceptor *DAP10* and *NKG2D* genes, 1378
Recombination
Heterosis and recombination effects on pig growth and carcass traits, 2286
Heterosis and recombination effects on pig reproductive traits, 2303
Heterozygosity for genes influencing a quantitative trait, 1478
Reflectance
Reflectance spectrum of adipose tissue to trace grass feeding in sheep: Influence of measurement site and shrinkage time after slaughter, 886
Regression
Genetic parameters for various random regression models to describe the weight data of pigs, 575
Reliability
Joint evaluation of purebreds and crossbreds in swine, 2263
Reproduction
Effect of chlortetracycline in a trace mineral salt mix on fertility traits in beef cattle females in Florida, 880
Effect of frequency of boar exposure and adjusted mating times on measures of reproductive performance in weaned sows, 892
Effects of supplementation with high linoleic or oleic cracked safflower seeds on postpartum reproduction and calf performance of primiparous beef heifers, 2023
Heterosis and recombination effects on pig reproductive traits, 2303
Long-term effects of boron supplementation on reproductive characteristics and bone mechanical properties in gilts, 154
Protein (lysine) restriction in primiparous lactating sows: Effects on metabolic state, somatotropic axis, and reproductive performance after weaning, 3286
Ram mating behavior after long-term selection for reproductive rate in Rambouillet ewes, 2588
Relationships between body weight at first mating and subsequent body development, feed intake, and reproductive performance of rabbit does, 2036
Relationships of metabolic hormones and serum glucose to growth and reproductive development in performance-tested Angus, Brangus, and Brahman bulls, 757
Restricted suckling of tropical dairy cows by their own calf or other cows' calves, 1663
The relationship between body condition, leptin, and reproductive and hormonal characteristics of mares during the seasonal anovulatory period, 2695
Reproductive Efficiency
Dietary medium- or long-chain triglycerides improve body condition of lean-genotype sows and increase suckling pig growth, 38
Reproductive Traits
Examination of the relationship between the estrogen receptor gene and reproductive traits in swine, 2334
Requirements
The tryptophan requirement of nursery pigs, 2646
Research
Reflection on the history, coordination, and funding trends for U.S. public meat research: Information to enhance resource allocation, 2085
Residues
Binding of ractopamine HCl to ocular tissues of cattle and turkeys in vivo and to melanin in vitro, 2931
Effect of Vitamin D_3 supplementation level on the postmortem tenderization of beef from steers, 971
Tissue residues of ractopamine and urinary excretion of ractopamine and metabolites in animals treated for 7 days with dietary ractopamine, 1240
Resource Allocation
Reflection on the history, coordination, and funding trends for U.S. public meat research: Information to enhance resource allocation, 2085
Restricted Feeding
Effects of restricted feeding, low-energy diet, and implantation of trenbolone acetate plus estradiol on growth, carcass traits, and circulating concentrations of insulin-like growth factor (IGF)-I and IGF-binding protein-3 in finishing barrows, 84
Effects of restricted versus conventional dietary adaptation on feedlot performance, carcass characteristics, site and extent of digestion, digesta kinetics and ruminal metabolism, 2726
Retention
The effects of potassium diformate and its molecular constituents on the apparent ileal and fecal digestibility and retention of nutrients in growing-finishing pigs, 681
Retinol Binding Protein
Retinol and Estradiol Regulation of Retinol Binding Protein and Prostaglandin Production by Porcine Uterine Epithelial Cells in vitro, 2688
Retinol
Alterations in lipid metabolism induced by recombinant bovine tumor necrosis factor-alpha administration to dairy heifers, 2151
Ribs
Evaluating the point of separation, during carcass fabrication, between the beef wholesale rib and the beef wholesale chuck[1], 101
Rice Straw
In vitro gas production measurements to evaluate interactions between untreated and chemically treated rice straws, grass hay, and mulberry leaves, 517
Riparian Grassland
Offstream water and trace mineral salt as management strategies for improved cattle distribution, 346
RNA
Dietary-induced changes of muscle growth rate in pigs: Effects on in vivo and postmortem muscle proteolysis and meat quality, 2862
Roughage
Effects of roughage source and concentration on intake and performance by finishing heifers, 1395
The provision of solid feeds to veal calves: I. Growth performance, forestomach development, and carcass and meat quality, 357
Rumen
A comparison of enzymatic and molecular approaches to characterize the cellulolytic microbial ecosystems of the rumen and the cecum, 790
Developmental changes in ketogenic enzyme gene expression during sheep rumen development, 1538
Digestive processes of dairy cows fed silages harvested at four stages of grass maturity, 1986
Effect of inoculants on whole-crop barley silage fermentation and dry matter disappearance in situ, 510
Effects of ruminal and postruminal infusion of starch hydrolysate or glucose on the microbial ecology of the gastrointestinal tract in growing steers, 3027
Factors affecting conjugated linoleic acid and *trans*-vaccenic acid production by mixed ruminal bacteria, 3347
In vitro gas production measurements to evaluate interactions between untreated and chemically treated rice straws, grass hay, and mulberry leaves, 517
Kinetics of ruminal degradation of wheat and potato starches in total mixed rations, 235
The biohydrogenation of linoleamide in vitro and its effects on linoleic acid concentration in duodenal contents of sheep, 533
Volatile fatty acid metabolism by epithelial cells isolated from different areas of the ewe rumen, 270
Rumen Bacteria
Supplementing barley or rapeseed meal to dairy cows fed grass-red clover silage: II. Amino acid profile of microbial fractions, 2188
Supplementing barley or rapeseed meal to dairy cows fed grass-red clover silage: I. Rumen degradability and microbial flow, 2176
Rumen Digestion
Apparent ruminal degradation and rumen escape of soluble nitrogen fractions in grass and grass silage administered intraruminally to lactating dairy cows, 2704
Rumen Metabolism
Supplementing barley or rapeseed meal to dairy cows fed grass-red clover silage: I. Rumen degradability and microbial flow, 2176
Rumen Protozoa
Supplementing barley or rapeseed meal to dairy cows fed grass-red clover silage: II. Amino acid profile of microbial fractions, 2188
Supplementing barley or rapeseed meal to dairy cows fed grass-red clover silage: I. Rumen degradability and microbial flow, 2176
Ruminants
Effect of exogenous fibrolytic enzyme on ruminal fermentation and digestibility of alfalfa and rye-grass hay fed to lambs, 3016
Influence of rumen protein degradability and supplementation frequency on performance and nitrogen use in ruminants consuming low-quality forage: Cow performance and efficiency of nitrogen use in wethers, 1629

Intestinal starch disappearance increased in steers abomasally infused with starch and protein, 3361
Metabolism of propionate and 1,2-propanediol absorbed from the washed reticulorumen of lactating cows, 2168
Rye
Xylanase and β-glucanase supplementation improve conjugated bile acid fraction in intestinal contents and increase villus size of small intestine wall in broiler chickens fed a rye-based diet, 2773

S

Saccharomyces cerevisiae
Effect of a preparation of *Saccharomyces cerevisiae* on microbial profiles and fermentation patterns in the large intestine of horses fed a high fiber or a high starch diet, 2600
Salmonella
Effects of a *Quillaja saponaria* extract on growth performance and immune function of weanling pigs challenged with *Salmonella typhimurium*, 1939
Effects of *Ascophyllum nodosum* extract on growth performance and immune function of young pigs challenged with *Salmonella typhimurium*, 1947
Safflower
Effects of supplementation with high linoleic or oleic cracked safflower seeds on postpartum reproduction and calf performance of primiparous beef heifers, 2023
Sarcomeres
Increasing tenderness of beef round and sirloin muscles through prerigor skeletal separations, 123
Seasonal Cycle
Responses of seasonally anovulatory mares to daily administration of thyrotropin-releasing hormone and(or) gonadotropin-releasing hormone analog, 208
Seasons
Serum leptin and its adipose gene expression during pubertal development, the estrous cycle, and different seasons in cattle, 2158
Seaweeds
Effects of *Ascophyllum nodosum* extract on growth performance and immune function of young pigs challenged with *Salmonella typhimurium*, 1947
Secretion
Influence of abomasal infusion of glucose or partially hydrolyzed starch on pancreatic exocrine secretion in beef steers, 1112
Selection
Correlated response to selection for litter size in pigs: II. Carcass, meat, and fat quality traits, 2566
Degree of amino acid restrictions during the grower phase and compensatory growth in pigs selected for lean growth efficiency, 2610
Effect of duration of performance test on variance component estimates for lamb growth rate, 2078
Effects of selection for ultrasound intramuscular fat percentage in Angus bulls on carcass traits of progeny, 2017
Joint evaluation of purebreds and crossbreds in swine, 2263
Ram mating behavior after long-term selection for reproductive rate in Rambouillet ewes, 2588
Using genetic markers for disease resistance to improve production under constant infection pressure, 322
Selection Responses
Multivariate analysis of litter size for multiple parities with production traits in pigs: II. Response to selection for litter size and correlated response to production traits, 2548
Semen
Management of the female stimulus during semen collection and its association with libido re-establishment and semen characteristics of goats, 1520
Sequences
Rapid communication: Sequencing of the porcine agouti-related protein (*AGRP*) gene, 1389
Sex
Pork quality, processing, and sensory characteristics of dry-cured hams as influenced by Duroc crossing and sex, 988
Sexual Behavior
Heritability and repeatability of sexual performance scores of rams, 1508
Induction of sexual activity in lactating anovulatory female goats using male goats treated only with artificially long days, 2780
Management of the female stimulus during semen collection and its association with libido re-establishment and semen characteristics of goats, 1520
Shade
Shade effects on performance, carcass traits, physiology, and behavior of heat-stressed feedlot heifers, 2043
Sheep
Coordinate regulation of ovine adipose tissue gene expression by propionate, 2840
Developmental changes in ketogenic enzyme gene expression during sheep rumen development, 1538
Effect of body fat mass and nutritional status on 24-hour leptin profiles in ewes, 1083
Effect of duration of performance test on variance component estimates for lamb growth rate, 2078
Effects of four mono- and sesquiterpenes on the consumption of alfalfa pellets by sheep, 3301
Effects of oscillating dietary protein on nutrient digestibility, nitrogen metabolism, and gastrointestinal organ mass in sheep, 3021
Effects of oscillating dietary protein on ruminal fermentation and site and extent of nutrient digestion in sheep, 3336
Effects of ventilation regimen on the welfare and performance of lactating ewes in summer, 2349
Gene expression in sexually dimorphic muscles in sheep, 1879
Heritability and repeatability of sexual performance scores of rams, 1508
Influence of food deprivation on the transport of 3-O-methyl-α-D-glucose across the isolated ruminal epithelium of sheep, 2740
Influence of macronutrients and activated charcoal on intake of sagebrush by sheep and goats, 2099
Influence of macronutrients and polyethylene glycol on intake of a quebracho tannin diet by sheep and goats, 3154
Leptin expression in the ovine mammary gland: Putative sequential involvement of adipose, epithelial, and myoepithelial cells during pregnancy and lactation, 723
NutriDense and waxy corn hybrids: Effects on site and extent of disappearance of nutrients in sheep, 1335
Polyethylene glycol influences selection of foraging location by sheep consuming quebracho tannin, 1846
Ram mating behavior after long-term selection for reproductive rate in Rambouillet ewes, 2588
Reflectance spectrum of adipose tissue to trace grass feeding in sheep: Influence of measurement site and shrinkage time after slaughter, 886
Regulation of hepatic insulin-like growth factor I leader exon usage in lambs: Effect of immunization against growth hormone-releasing factor and subsequent growth hormone treatment, 1074
Relationship between aging and nutritionally controlled growth rate on heat production of ewe lambs, 2759
Serum α-tocopherol and immune function in yearling ewes supplemented with zinc and vitamin E, 1329
The biohydrogenation of linoleamide in vitro and its effects on linoleic acid concentration in duodenal contents of sheep, 533
The impact of a transgene for ovine growth hormone on the performance of two breeds of sheep, 2325
The use of passive injectable transponders in fattening lambs from birth to slaughter: Effects of injection position, age, and breed, 919
Tissue residues of ractopamine and urinary excretion of ractopamine and metabolites in animals treated for 7 days with dietary ractopamine, 1240
Volatile fatty acid metabolism by epithelial cells isolated from different areas of the ewe rumen, 270
Sheep Lactation
Lactation curves of commercial ewes rearing lambs, 23
Simulation Models
Protein and fat utilization in lactating sows: I. Effects on milk production and body composition, 2442
Protein and fat utilization in lactating sows: II. Challenging behavior of a model of metabolism, 2452
Skeletal Muscle
Fiber-type composition of muscles of the beef chuck and round, 2872
Nutritional quality of extruded kidney bean (*Phaseolus vulgaris* L. var. Pinto) and its effects on growth and skeletal muscle nitrogen fractions in rats, 875

Slaughter Weight
Influence of slaughter weight and sex on yield and quality grades of Hanwoo (Korean native cattle) carcasses, 129
Small Intestine
Efficacy of partially hydrolyzed corn syrup solids as a replacement for lactose in manufactured liquid diets for neonatal pigs, 143
Somatic Cell Count
Efficacy of intramuscular treatment of beef cows with oxytetracycline to reduce mastitis and to increase calf growth, 1405
Somatoliberin
Relation of growth hormone response to growth hormone-releasing hormone to estimation of milk production via deuterium oxide dilution in beef cattle, 1270
Somatotropin
Daily treatment of growing foals with equine somatotropin: Pathologic and endocrinologic assessments at necropsy and residual effects in live animals, 392
Effect of nutrient intake on the development of the somatotropic axis and its responsiveness to GH in Holstein bull calves, 1528
Growth hormone response to a novel growth hormone-releasing tripeptide in horses: Interaction with gonadotropin-releasing hormone, thyrotropin-releasing hormone, and sulpiride, 744
High versus low body condition in mares: Interactions with responses to somatotropin, GNRH analog, and dexamethasone, 3277
Inability of heterologous growth hormone (GH) to regulate GH binding protein in GH-transgenic swine, 1962
Manipulation of growth in pigs through treatment of the neonate with clenbuterol and somatotropin, 1852
Regulation of hepatic insulin-like growth factor I leader exon usage in lambs: Effect of immunization against growth hormone-releasing factor and subsequent growth hormone treatment, 1074
The impact of a transgene for ovine growth hormone on the performance of two breeds of sheep, 2325
The influence of level of feeding on growth and serum insulin-like growth factor I and insulin-like growth factor-binding proteins in growing beef cattle supplemented with somatotropin, 94
Use of somatic cells from goat milk for dynamic studies of gene expression in the mammary gland, 1258
Sorghum
Utilization of distillers grains from the fermentation of sorghum or corn in diets for finishing beef and lactating dairy cattle, 1105
Sources
Effects of roughage source and concentration on intake and performance by finishing heifers, 1395
Sow
Influences of parity and level of feed intake on reproductive response to insulin administration after weaning in sows, 1038
Protein and fat utilization in lactating sows: II. Challenging behavior of a model of metabolism, 2452
Sows
Arginine catabolism in lactating porcine mammary tissue, 467
Dietary lysine and threonine requirements of the pregnant sow estimated by nitrogen balance, 2144
Effect of frequency of boar exposure and adjusted mating times on measures of reproductive performance in weaned sows, 892
Measurement of blood flow through the mammary gland in lactating sows: Methodological aspects, 196
Protein and fat utilization in lactating sows: I. Effects on milk production and body composition, 2442
Protein (lysine) restriction in primiparous lactating sows: Effects on metabolic state, somatotropic axis, and reproductive performance after weaning, 3286
The effect of litter size and day of lactation on amino acid uptake by the porcine mammary glands, 2402
Soyabean Oil
Effect of dietary energy supply and fat source on the fatty acid pattern of adipose and lean tissues and lipogenesis in the pig, 1564
Soyabean Oilmeal
Additivity and associative effects of metabolizable energy and amino acid digestibility of corn, soybean meal, and wheat red dog for White Pekin ducks, 3222
Soyabeans
Regional and processor variation in the ileal digestible amino acid content of soybean meals measured in growing swine, 429
Soybean Husks
By-product feeds for meat goats: Effects on digestibility, ruminal environment, and carcass characteristics, 1752
Soybean Meal
Regional and processor variation in the ileal digestible amino acid content of soybean meals measured in growing swine, 429
Soybeans
Effects of high-protein/low-carbohydrate swine diets during the final finishing phase on pork muscle quality, 137
Soybean meal from Roundup Ready or conventional soybeans in diets for growing-finishing swine, 708
The effects of dry extrusion temperature of whole soybeans on digestion of protein and amino acids by steers, 2493
Spacing
Impact of spontaneous exercise on performance, meat quality, and muscle fiber characteristics of growing/finishing pigs, 2833
Spermatogonia
Transplantation of bovine germinal cells into mouse testes, 1925
Spermatozoa
Effect of pyruvate on the function of stallion spermatozoa stored for up to 48 hours, 12
Splayleg
Rapid communication: Nucleotide sequence and physical mapping of the porcine *cyclin-dependent kinase inhibitor 3* (*CDKN3*) gene, 1699
Stable Isotopes
Relative bioactivity of Dietary *RRR*- and *all-rac*-alpha-tocopheryl acetates in swine assessed with deuterium-labeled vitamin E, 702
Starch
Effect of levels of starch, fiber, and lactose on digestion and growth performance of early-weaned rabbits, 1029
Influence of abomasal infusion of glucose or partially hydrolyzed starch on pancreatic exocrine secretion in beef steers, 1112
Kinetics of ruminal degradation of wheat and potato starches in total mixed rations, 235
Starch Digestion
Effect of a preparation of *Saccharomyces cerevisiae* on microbial profiles and fermentation patterns in the large intestine of horses fed a high fiber or a high starch diet, 2600
Intestinal starch disappearance increased in steers abomasally infused with starch and protein, 3361
Steers
Effect of zinc source (zinc oxide vs zinc proteinate) and level on performance, carcass characteristics, and immune response of growing and finishing steers, 2747
Effects of dietary copper on the expression of lipogenic genes and metabolic hormones in steers, 1999
Genetic effects on fatty acid composition of carcass fat of Japanese Black Wagyu steers, 1005
Intestinal starch disappearance increased in steers abomasally infused with starch and protein, 3361
Methionine as a methyl group donor in growing cattle, 2197
Performance of steers grazing rhizomatous and nonrhizomatous birdsfoot trefoil in pure stands and in tall fescue mixtures, 1970
The effects of dry extrusion temperature of whole soybeans on digestion of protein and amino acids by steers, 2493
Stochastic Models
Using genetic markers for disease resistance to improve production under constant infection pressure, 322
Stocking Density
Effects of stocking rate and crude protein intake during gestation on ground cover, soil-nitrate concentration, and sow and litter performance in an outdoor swine production system, 1451
Stocking Rate
Effects of double stocking and weighing frequency on pig performance in wean-to-finish production systems, 1442
Stockpiling
Effects of supplementation on intake, digestion, and performance of beef cattle consuming fertilized, stockpiled bermudagrass forage, 780
Stomach
The provision of solid feeds to veal calves: I. Growth performance, forestomach development, and carcass and meat quality, 357
Stress
Development of the chicken as a model for prenatal stress, 1954
Does nutritive and non-nutritive sucking reduce other oral behaviors and stimulate rest in calves?, 2574

Effect of spray-dried plasma and lipopolysaccharide exposure on weaned pigs: II. Effects on the hypothalamic-pituitary-adrenal axis of weaned pigs, 502
Genetic linkage mapping of quantitative trait loci for behavioral and neuroendocrine stress response traits in pigs, 2276
Simulated preslaughter holding and isolation effects on stress responses and live weight shrinkage in meat goats, 1771
The effects of split marketing on the physiology, behavior, and performance of finishing swine, 338
Students
Oregon State University's Steer-a-Year program: Integrating classroom learning and hands-on experience, 2764
Sucking
Does nutritive and non-nutritive sucking reduce other oral behaviors and stimulate rest in calves?, 2574
Suckling
Lactation curves of commercial ewes rearing lambs, 23
Restricted suckling of tropical dairy cows by their own calf or other cows' calves, 1663
Sulfur
Effect of ammonium sulfate fertilization on bahiagrass quality and copper metabolism in grazing beef cattle, 2507
Effect of corn- molasses-based supplements on trace mineral status in beef heifers, 2787
Supplemental Fat
The effects of dietary fat sources, levels, and feeding intervals on pork fatty acid composition, 1606
Supplemental Feeding Programs
Winter-annual pasture as a supplement for beef cows, 1157
Supplementary Feeding
Effects of supplementation on intake, digestion, and performance of beef cattle consuming fertilized, stockpiled bermudagrass forage, 780
Supplementation
Influence of rumen protein degradability and supplementation frequency on performance and nitrogen use in ruminants consuming low-quality forage: Cow performance and efficiency of nitrogen use in wethers, 1629
Supplements
Effect of increasing proportion of supplemental N from urea in prepartum supplements on range beef cow performance and on forage intake and digestibility by steers fed low-quality forage, 1652
Effects of supplementation on intake and growth of nursing calves grazing native range in southeastern North Dakota, 2717
Feeding lambs high-oleate or high-linoleate safflower seeds differentially influences carcass fatty acid composition, 609
Influence of macronutrients and activated charcoal on intake of sagebrush by sheep and goats, 2099
Influence of macronutrients and polyethylene glycol on intake of a quebracho tannin diet by sheep and goats, 3154
Influence of rumen protein degradability and supplementation frequency on steers consuming low-quality forage: II. Ruminal fermentation characteristics, 2978
Sustainability
Effects of stocking rate and crude protein intake during gestation on ground cover, soil-nitrate concentration, and sow and litter performance in an outdoor swine production system, 1451
Swainsona
Appearance and disappearance of swainsonine in serum and milk of lactating ruminants with nursing young following a single dose exposure to swainsonine (locoweed; *Oxytropis sericea*), 2476
Synchronization
Comparison of three approaches for synchronization of ovulation for timed artificial insemination in *Bos indicus*-influenced cattle managed on the Texas gulf coast, 1173
Evaluation of a fixed-time artificial insemination protocol for postpartum suckled beef cows, 3060
Melengestrol acetate blocks the preovulatory surge of luteinizing hormone, the expression of behavioral estrus, and ovulation in beef heifers, 1280
The relationship between meal composition and long-term diet choice, 3165
The use of a progesterone-releasing device (CIDR-B) or melengestrol acetate with GnRH, LH, or estradiol benzoate for fixed-time AI in beef heifers, 1746
Systems
Effects of breeding date, weaning date, and grazing season length on profitability of cow-calf production systems in southeastern Montana, 1462

T

Tallow
Effect of dietary energy supply and fat source on the fatty acid pattern of adipose and lean tissues and lipogenesis in the pig, 1564
Effect of extruded full-fat soybeans on conjugated linoleic acid content of intramuscular, intermuscular, and subcutaneous fat in beef steers, 1135
Tannins
Influence of macronutrients and polyethylene glycol on intake of a quebracho tannin diet by sheep and goats, 3154
Polyethylene glycol influences selection of foraging location by sheep consuming quebracho tannin, 1846
Tenderness
Correlations among selected pork quality traits, 617
Dietary-induced changes of muscle growth rate in pigs: Effects on in vivo and postmortem muscle proteolysis and meat quality, 2862
Effect of Vitamin D_3 supplementation level on the postmortem tenderization of beef from steers, 971
Effects of growth potential and growth path on tenderness of beef longissimus muscle from bulls and steers, 3211
Evaluating the point of separation, during carcass fabrication, between the beef wholesale rib and the beef wholesale chuck[1], 101
Increasing tenderness of beef round and sirloin muscles through prerigor skeletal separations, 123
Influence of Brahman-derivative breeds and Angus on carcass traits, physical composition, and palatability, 2126
Influence of packaging method and storage time on shear value and mechanical strength of intramuscular connective tissue of chevon, 2383
Mapping intramuscular tenderness variation in four major muscles of the beef round, 2594
Relationships among glycolytic potential, dark cutting (dark, firm, and dry) beef, and cooked beef palatability, 1895
Short-term feeding of vitamin D_3 improves color but does not change tenderness of pork-loin chops, 2116
Technical note: Sampling methodology for relating sarcomere length, collagen concentration, and the extent of postmortem proteolysis to beef and pork longissimus tenderness, 982
Technical note: The effect of freezing on Warner-Bratzler shear force values of beef longissimus steaks across several postmortem aging periods, 2122
Tenderness variation in beef longissimus muscle steaks with slight and small degrees of marbling, 2390
The efficacy of three objective systems for identifying beef cuts that can be guaranteed tender, 3315
Terpenoids
Effects of four mono- and sesquiterpenes on the consumption of alfalfa pellets by sheep, 3301
Testes
Performance of male pigs immunized against GnRH is related to the time of onset of biological response, 2953
Testosterone
Effect of zeranol or melengestrol acetate (MGA) on testicular and antler development and aggression in farmed fallow bucks, 1433
Effects of melengestrol acetate on reproductive behavior and concentrations of LH and testosterone in bulls, 1059
Effects of N-methyl-D,L-aspartate on LH, GH, and testosterone secretion in goat bucks maintained under long or short photoperiods, 1623
Test Station
Two-step and random regression analyses of weight gain of station-tested beef bulls, 1497
Threonine
Dietary lysine and threonine requirements of the pregnant sow estimated by nitrogen balance, 2144
Thyrotropin-Releasing Hormone
Growth hormone response to a novel growth hormone-releasing tripeptide in horses: Interaction with gonadotropin-releasing hormone, thyrotropin-releasing hormone, and sulpiride, 744

Responses of seasonally anovulatory mares to daily administration of thyrotropin-releasing hormone and(or) gonadotropin-releasing hormone analog, 208
Tocopherol
Effect of dietary levels of vitamin E (all-*rac*-tocopheryl acetate) with or without added fat on weanling pig performance and tissue α-tocopherol concentration, 663
Tocopherols
Alpha-tocopherol concentrations and case life of lamb muscle as influenced by concentrate or pasture finishing, 2513
Toxicology
Technical note: Epimerization of ergopeptine alkaloids in organic and aqueous solvents, 1616
Trace Elements
Effect of corn- molasses-based supplements on trace mineral status in beef heifers, 2787
Transgenic Animals
Lactational performance of first-parity transgenic gilts expressing bovine α-lactalbumin in their milk, 1090
Transplantation
Transplantation of bovine germinal cells into mouse testes, 1925
Transponders
The use of passive injectable transponders in fattening lambs from birth to slaughter: Effects of injection position, age, and breed, 919
Transport
Effects of fasting and transportation on pork quality development and extent of postmortem metabolism, 3194
Tropics
Relationship between serum insulin-like growth factor-I and genotype during the postpartum interval in beef cows, 716
Restricted suckling of tropical dairy cows by their own calf or other cows' calves, 1663
Tropomyosins
Rapid communication: Mapping of the *beta Tropomyosin* (*TPM2*) gene to pig chromosome 1, 1380
Tryptophan
The tryptophan requirement of nursery pigs, 2646
Tumor Necrosis Factor
Alterations in lipid metabolism induced by recombinant bovine tumor necrosis factor-alpha administration to dairy heifers, 2151
Circulating cortisol, tumor necrosis factor-α interleukin-1β, and interferon-γ in pigs infected with *Actinobacillus pleuropneumoniae*, 202
Turkeys
Binding of ractopamine HCl to ocular tissues of cattle and turkeys in vivo and to melanin in vitro, 2931

U

UCP1
Uncoupling proteins and energy expenditure in mice divergently selected for heat loss, 602
UCP2
Uncoupling proteins and energy expenditure in mice divergently selected for heat loss, 602
Ultrasound
Early-weaning and postweaning nutritional management affect feedlot performance, carcass merit, and the relationship of 12th-rib fat, marbling score, and feed efficiency among Angus and Wagyu heifers, 28
Effects of selection for ultrasound intramuscular fat percentage in Angus bulls on carcass traits of progeny, 2017
Genetic and environmental parameters for steer ultrasound and carcass traits, 1489
Genetic evaluation of carcass yield using ultrasound measures on young replacement beef cattle, 1809
Genetic parameter estimates of yearling live animal ultrasonic measurements in Brangus cattle, 3150
Prediction of intramuscular fat percentage in live swine using real-time ultrasound, 3046
Prediction of swine carcass composition by total body electrical conductivity (TOBEC), 113
Weaning, yearling, and preharvest ultrasound measures of fat and muscle area in steers, bulls, and heifers, 2817
Undernutrition
Degree of amino acid restrictions during the grower phase and compensatory growth in pigs selected for lean growth efficiency, 2610
Uptake
The effect of litter size and day of lactation on amino acid uptake by the porcine mammary glands, 2402
Urea
Effect of increasing proportion of supplemental N from urea in prepartum supplements on range beef cow performance and on forage intake and digestibility by steers fed low-quality forage, 1652
Effects of dietary protein and fermentable fiber on nitrogen excretion patterns and plasma urea in grower pigs, 3247
Effects of dietary protein and oathull fiber on nitrogen excretion patterns and postprandial plasma urea profiles in grower pigs, 3238

V

Variance Component
Genetic antagonism between body weight and milk production in beef cattle, 316
Variance Components
Heterosis and recombination effects on pig growth and carcass traits, 2286
Heterosis and recombination effects on pig reproductive traits, 2303
Vascular Infusion
Effects of vascular infusion with a solution of saccharides; sodium chloride; phosphates; and vitamins C, E, or both on carcass traits, Warner-Bratzler shear force, and palatability traits of steaks and ground beef, 1904
Veal Calves
The provision of drinking water to veal calves for welfare purposes, 2362
Veal
Subjective and objective evaluation of veal lean color, 1911
The provision of solid feeds to veal calves: I. Growth performance, forestomach development, and carcass and meat quality, 357
The provision of solid feeds to veal calves: II. Behavior, physiology, and abomasal damage, 367
Ventilation
Effects of ventilation regimen on the welfare and performance of lactating ewes in summer, 2349
Villi
Fermented wheat in liquid diets: Effects on gastrointestinal characteristics in weanling piglets, 1179
Xylanase and β-glucanase supplementation improve conjugated bile acid fraction in intestinal contents and increase villus size of small intestine wall in broiler chickens fed a rye-based diet, 2773
Visual Grading
Subjective and objective evaluation of veal lean color, 1911
Vitamin A
Evaluating the antioxidant status of weanling pigs fed dietary vitamins A and E, 2396
Vitamin D
Effect of Vitamin D_3 supplementation level on the postmortem tenderization of beef from steers, 971
Vitamin E Acetate
Alterations in lipid metabolism induced by recombinant bovine tumor necrosis factor-alpha administration to dairy heifers, 2151
Vitamin E
Alpha-tocopherol concentrations and case life of lamb muscle as influenced by concentrate or pasture finishing, 2513
Effect of dietary levels of vitamin E (all-*rac*-tocopheryl acetate) with or without added fat on weanling pig performance and tissue α-tocopherol concentration, 663
Effect of vitamin E on improving fresh pork quality in Berkshire- and Hampshire-sired pigs, 3230
Effects of gossypol from cottonseed meal and dietary vitamin E on the reproductive characteristics of superovulated beef heifers, 2485
Effects of modified tall oil and vitamin E on growth performance, carcass characteristics, and meat quality of growing-finishing pigs, 1575

Effects of supplemental vitamin E on performance, health, and humoral immune response of beef cattle, 933
Evaluating the antioxidant status of weanling pigs fed dietary vitamins A and E, 2396
Grass Silage Versus Maize Silage Effects on Retail Packaged Beef Quality, 1556
Relative bioactivity of Dietary *RRR*- and *all-rac*-alpha-tocopheryl acetates in swine assessed with deuterium-labeled vitamin E, 702
Serum α-tocopherol and immune function in yearling ewes supplemented with zinc and vitamin E, 1329
Vitamins
Impact of vitamin and mineral supplement withdrawal and wheat middling inclusion on finishing pig growth performance, fecal mineral concentration, carcass characteristics, and the nutrient content and oxidative stability of pork, 2920
Volatile Fatty Acids
Developmental changes in ketogenic enzyme gene expression during sheep rumen development, 1538
Volatile fatty acid metabolism by epithelial cells isolated from different areas of the ewe rumen, 270
Vomitoxin
Effects of feeding a blend of grains naturally contaminated with *Fusarium* mycotoxins on swine performance, brain regional neurochemistry, and serum chemistry and the efficacy of a polymeric glucomannan mycotoxin adsorbent, 3257

W

Waste Management
Nutrient composition of Kansas swine lagoons and hoop barn manure, 2051
Water
Offstream water and trace mineral salt as management strategies for improved cattle distribution, 346
Water Holding Capacity
Correlations among selected pork quality traits, 617
Waxy Corn
NutriDense and waxy corn hybrids: Effects on site and extent of disappearance of nutrients in sheep, 1335
Weaning
A prolonged photoperiod improves feed intake and energy metabolism of weanling pigs, 1736
Characterization of microbial populations and volatile fatty acid concentrations in the jejunum, ileum, and cecum of pigs weaned at 17 vs 24 days of age, 2904
Effect of creep feed consumption on individual feed intake characteristics and performance of group-housed weanling pigs, 1413
Effect of dietary levels of vitamin E (all-*rac*-tocopheryl acetate) with or without added fat on weanling pig performance and tissue α-tocopherol concentration, 663
Effect of wean-to-finish management on pig performance, 309
Effects of breeding date, weaning date, and grazing season length on profitability of cow-calf production systems in southeastern Montana, 1462
Effects of double stocking and weighing frequency on pig performance in wean-to-finish production systems, 1442
Effects of feeder-trough space and variation in body weight within a pen of pigs on performance in a wean-to-finish production system, 2241
Evaluating the antioxidant status of weanling pigs fed dietary vitamins A and E, 2396
Weaning Weight
Cow-calf and feedlot performances of Brahman-derivative breeds, 3037
Efficacy of intramuscular treatment of beef cows with oxytetracycline to reduce mastitis and to increase calf growth, 1405
Estimates of genetic parameters and genetic change for reproduction, weight, and wool characteristics of columbia sheep, 3086
Weight
Evaluation of American Wagyu sires for scrotal circumference by age and body weight, 19
Weight necessary to change body condition scores in Angus cows, 2031
Weight Gain
The influence of level of feeding on growth and serum insulin-like growth factor I and insulin-like growth factor-binding proteins in growing beef cattle supplemented with somatotropin, 94
Two-step and random regression analyses of weight gain of station-tested beef bulls, 1497
Wheat
Kinetics of ruminal degradation of wheat and potato starches in total mixed rations, 235
Wheat Milling Residues
Additivity and associative effects of metabolizable energy and amino acid digestibility of corn, soybean meal, and wheat red dog for White Pekin ducks, 3222
By-product feeds for meat goats: Effects on digestibility, ruminal environment, and carcass characteristics, 1752
Impact of vitamin and mineral supplement withdrawal and wheat middling inclusion on finishing pig growth performance, fecal mineral concentration, carcass characteristics, and the nutrient content and oxidative stability of pork, 2920
Whole-Crop Silage
Effect of inoculants on whole-crop barley silage fermentation and dry matter disappearance in situ, 510
Wilting
Effect of inoculants on whole-crop barley silage fermentation and dry matter disappearance in situ, 510
Wool Production
The impact of a transgene for ovine growth hormone on the performance of two breeds of sheep, 2325

X

Xenon
Technical note: Adipose tissue blood flow in miniature swine (*Sus scrofa*) using the ^{133}xenon washout technique, 1294
Xylan 1,4-β-xylosidase
Xylanase and β-glucanase supplementation improve conjugated bile acid fraction in intestinal contents and increase villus size of small intestine wall in broiler chickens fed a rye-based diet, 2773

Y

Yeasts
Brewers dried yeast as a source of mannanoligosaccharides for weanling pigs, 2619
Yields
Online evaluation of a commercial video image analysis system (Computer Vision System) to predict beef carcass red meat yield and for augmenting the assignment of USDA yield grades, 1195
Ytterbium
Binding affinity and capacities for ytterbium (3+) and hafinum (4+) by chemical entities of plant tissue fragments, 3307

Z

Zebu
Comparison of three approaches for synchronization of ovulation for timed artificial insemination in *Bos indicus*-influenced cattle managed on the Texas gulf coast, 1173
Influence of Brahman-derivative breeds and Angus on carcass traits, physical composition, and palatability, 2126
Zeranol
Effect of zeranol or melengestrol acetate (MGA) on testicular and antler development and aggression in farmed fallow bucks, 1433
Zinc
Effect of feeding organic and inorganic sources of additional zinc on growth performance and zinc balance in nursery pigs, 1917
Effect of zinc source (zinc oxide vs zinc proteinate) and level on performance, carcass characteristics, and immune response of growing and finishing steers, 2747
Growth of Holstein calves from birth to 90 days: The influence of dietary zinc and BLAD status, 545
Serum α-tocopherol and immune function in yearling ewes supplemented with zinc and vitamin E, 1329

A

β-Adrenergic Agonists
Variation in the response of multiple genetic populations of pigs to ractopamine, 85
Adipocytes
Mechanisms for conjugated linoleic acid-mediated reduction in fat deposition, 126
Adipose Tissue
Biological basis of the ractopamine response, 28
Amino Acids
Developmental regulation of protein synthesis, 45
Economics of visceral energy metabolism in ruminants: Toll keeping or internal revenue service?, 74
Animal Wastes
Livestock manure odor abatement with plant-derived oils and nitrogen conservation with urease inhibitors: A review, 1

B

Beta-Adrenergic Agonists
Biological basis of the ractopamine response, 28

C

Calf Survival
Reproductive, growth, feedlot, and carcass traits of twin vs single births in cattle, 1
Calpain
Cellular control of ubiquitin-proteasome-dependent proteolysis, 56
Stress and muscle wasting, 50
Calves
Management of twinning cow herds, 14
Carcass Quality
Reproductive, growth, feedlot, and carcass traits of twin vs single births in cattle, 1
Cathepsins
Cellular control of ubiquitin-proteasome-dependent proteolysis, 56
Cattle
Reproductive, growth, feedlot, and carcass traits of twin vs single births in cattle, 1
Cattle Feeding
Effects of manipulating protein and phosphorus nutrition of feedlot cattle on nutrient management and the environment, 106
Cattle Manure
The role of nutrition in reducing nutrient output from ruminants, 143
Chronic Infections
Muscle wasting and protein metabolism, 98
Composition
Evolution and use of ultrasonic technology in the swine industry, 19
Connective Tissue
Role of the extracellular matrix in muscle growth and development, 8
Cows
Management of twinning cow herds, 14

Lean
Variation in the response of multiple genetic populations of pigs to ractopamine, 85
Lipid Metabolism
Mechanisms for conjugated linoleic acid-mediated reduction in fat deposition, 126
Livestock
Biological basis of the ractopamine response, 28

M

Metabolism
Cellular energy expenditure and the importance of uncoupling, 90
Mitochondria
Cellular energy expenditure and the importance of uncoupling, 90
Mortality
Embryonic mortality in cattle from the embryo's perspective, 33
The influence of uterine function on embryonic and fetal survival, 115
Muscle
Biological basis of the ractopamine response, 28
Muscle Tissue
Nutritional regulation of protein metabolism, 135
Muscle Wasting
Muscle wasting and protein metabolism, 98
Muscles
Developmental regulation of protein synthesis, 45
Role of the extracellular matrix in muscle growth and development, 8
Stress and muscle wasting, 50

N

Neonates
Developmental regulation of protein synthesis, 45
Nitrogen
Effects of manipulating protein and phosphorus nutrition of feedlot cattle on nutrient management and the environment, 106
The role of nutrition in reducing nutrient output from ruminants, 143
Nutrient Requirements
Effects of manipulating protein and phosphorus nutrition of feedlot cattle on nutrient management and the environment, 106
Nutritional Status
Muscle wasting and protein metabolism, 98

O

Odors
Livestock manure odor abatement with plant-derived oils and nitrogen conservation with urease inhibitors: A review, 1
Oocytes
Embryonic mortality in cattle from the embryo's perspective, 33

P

Pathogens
Livestock manure odor abatement with plant-derived oils and nitrogen conservation with urease inhibitors: A review, 1
Perinatal
The influence of uterine function on embryonic and fetal survival, 115
Phosphorus
Effects of manipulating protein and phosphorus nutrition of feedlot cattle on nutrient management and the environment, 106
The role of nutrition in reducing nutrient output from ruminants, 143
Pigs
Developmental regulation of protein synthesis, 45
Variation in the response of multiple genetic populations of pigs to ractopamine, 85
Pregnancy
Evolution and use of ultrasonic technology in the swine industry, 19
Productivity
Reproductive, growth, feedlot, and carcass traits of twin vs single births in cattle, 1
Progesterone
The influence of uterine function on embryonic and fetal survival, 115
Protein Synthesis
Developmental regulation of protein synthesis, 45
Protein Turnover
Muscle wasting and protein metabolism, 98
Proteinases
Cellular control of ubiquitin-proteasome-dependent proteolysis, 56
Proteins
Cellular energy expenditure and the importance of uncoupling, 90
Proteoglycans
Role of the extracellular matrix in muscle growth and development, 8
Proteolysis
Cellular control of ubiquitin-proteasome-dependent proteolysis, 56
Stress and muscle wasting, 50
Proton Pump
Cellular energy expenditure and the importance of uncoupling, 90

R

Reproduction
Management of twinning cow herds, 14
Ruminants
The role of nutrition in reducing nutrient output from ruminants, 143

S

Sepsis
Stress and muscle wasting, 50
Skeletal Muscle
Cellular control of ubiquitin-proteasome-dependent proteolysis, 56
Somatotropin
Nutritional regulation of protein metabolism, 135
Splanchnic Metabolism
Economics of visceral energy metabolism in ruminants: Toll keeping or internal revenue service?, 74
Stable Isotopes
Nutritional regulation of protein metabolism, 135
Stillbirth
The influence of uterine function on embryonic and fetal survival, 115
Swine
Evolution and use of ultrasonic technology in the swine industry, 19

T

Tissue Proliferation
Mechanisms for conjugated linoleic acid-mediated reduction in fat deposition, 126
Trauma
Nutritional regulation of protein metabolism, 135
Twins
Management of twinning cow herds, 14
Reproductive, growth, feedlot, and carcass traits of twin vs single births in cattle, 1

U

Ubiquitin
Cellular control of ubiquitin-proteasome-dependent proteolysis, 56
Stress and muscle wasting, 50
Ultrasound
Evolution and use of ultrasonic technology in the swine industry, 19
Urease Inhibitors
Livestock manure odor abatement with plant-derived oils and nitrogen conservation with urease inhibitors: A review, 1

W

Waste Management
Effects of manipulating protein and phosphorus nutrition of feedlot cattle on nutrient management and the environment, 106

Author index for Volume 80, E-Supplement 1
2001 Sectional meeting symposia
(online only, accessible via www.asas.org/jas)

In the articles, the page numbers are all preceded by the letter E and should be so cited.

Subject index for Volume 80, E-Supplement 1
2001 sectional meeting symposia
(online only, accessible via www.asas.org/jas)

In the articles, the page numbers are all preceded by the letter E and should be so cited.

A

Adipocytes
  β-Adrenergic receptor modulation of adipocyte metabolism and growth, 24
Animal Behavior
  Cognition studies with pigs: Livestock cognition and its implication for production, 10

B

Beef Cattle
  Using genetic tools to meet market targets without sacrificing maternal performance, 94
Beta-Adrenergic Agonists
  Beta-adrenergic receptor agonist modulation of skeletal muscle growth, 18
Beta-Adrenergic Receptors
  β-Adrenergic receptor modulation of adipocyte metabolism and growth, 24
  Implications of feedback regulation of beta-adrenergic signaling, 30
Boars
  Increasing fertilization rate of boars: Influence of number and quality of spermatozoa inseminated, 47

C

Carcasses
  Using genetic tools to meet market targets without sacrificing maternal performance, 94
Cognitive Development
  Can farm animal welfare be understood without taking into account the issues of emotion and cognition?, 1
Communication
  Communicating value to cattle producers: Issues, opportunities, and looking ahead, 87
Contracts
  Communicating value to cattle producers: Issues, opportunities, and looking ahead, 87
Coordination
  Communicating value to cattle producers: Issues, opportunities, and looking ahead, 87

D

Domestic Animals
  Can farm animal welfare be understood without taking into account the issues of emotion and cognition?, 1

E

Embryo
  Early embryonic survival in the pig: Can it be improved?, 54
Emotions
  Can farm animal welfare be understood without taking into account the issues of emotion and cognition?, 1

G

Genetics
  Using genetic tools to meet market targets without sacrificing maternal performance, 94
Growth
  β-Adrenergic receptor modulation of adipocyte metabolism and growth, 24
  Beta-adrenergic receptor agonist modulation of skeletal muscle growth, 18

L

Litter Size
  Increasing fertilization rate of boars: Influence of number and quality of spermatozoa inseminated, 47
  Uterine capacity in the pig reflects a combination of uterine environment and conceptus genotype effects, 66
Livestock Farming
  Cognition studies with pigs: Livestock cognition and its implication for production, 10

M

Maternal Transmission
  Using genetic tools to meet market targets without sacrificing maternal performance, 94
Metabolism
  β-Adrenergic receptor modulation of adipocyte metabolism and growth, 24
Mortality
  Preweaning survival in swine, 74
Muscles
  Beta-adrenergic receptor agonist modulation of skeletal muscle growth, 18

N

Neurology
  Can farm animal welfare be understood without taking into account the issues of emotion and cognition?, 1

O

Ovarian Development
  Control of ovulation rate in swine, 36
Ovulation Rate
  Control of ovulation rate in swine, 36

P

Piglets
  Preweaning survival in swine, 74
Pigs
  Cognition studies with pigs: Livestock cognition and its implication for production, 10
  Control of ovulation rate in swine, 36
  Early embryonic survival in the pig: Can it be improved?, 54
  Implications of feedback regulation of beta-adrenergic signaling, 30
Placenta
  Uterine capacity in the pig reflects a combination of uterine environment and conceptus genotype effects, 66

Pregnancy
Early embryonic survival in the pig: Can it be improved?, 54
Preweaning Period
Preweaning survival in swine, 74
Prices
Communicating value to cattle producers: Issues, opportunities, and looking ahead, 87

R

Regulation
Implications of feedback regulation of beta-adrenergic signaling, 30

S

Spermatozoa
Increasing fertilization rate of boars: Influence of number and quality of spermatozoa inseminated, 47
Stress
Can farm animal welfare be understood without taking into account the issues of emotion and cognition?, 1
Survival
Preweaning survival in swine, 74
Systems
Using genetic tools to meet market targets without sacrificing maternal performance, 94

U

Uterus
Early embryonic survival in the pig: Can it be improved?, 54

Author index for Volume 80, Supplement 1 (Joint annual meeting abstracts, 2002)

Please Note:
The Author Index is created directly and automatically from the abstracts. For example, if an author's name is typed differently on multiple abstracts, then multiple or similar entries may exist.

Zuidhof, M. J., 1003, 1124
Zuur, G., 286
Zwald, N.R., 126

Subject index for Volume 80, Supplement 1
(Joint annual meeting abstracts, 2002)

A

α_{s2}-casein, 341
α-galactosidase, 18
α-tocopherol, 163
Abnormal yield, 32
Abortion, 87
Accelerated growth, 235
Accelerated ripening, 37
acetyl CoA carboxylase, 298
Acid phosphatase, 54
Acid precipitation, 91
Acid Resistance, 150
Acid-Base, 172, 219
Acidifiers, 392
Acid-induced gelation, 341
Acidosis, 112
acidosis, 360
Active learning, 164
active site, 341, 341
Activity, 58
Acute Phase Protein, 109, 215
acute phase proteins, 27
acute phase response, 189
Additives, 360
ADG, 273, 295
Adhesion, 328
Adipocyte, 208, 353
Adipogenecity, Acetyl-CoA carboxylase, 352
Adipose, 154
adipose, 238
adipose development, 212
Adipose Tissue, 154, 252
Adipose tissue, Fatty acids synthesis, 140, 352
adjunt starter culture, 260
Adjustment factors, 293
Adult rat model, 351
Aerobic stability, 24, 383
Aflatoxin, 261
Age, 156
aggregation, 157
aging, 90
Agricultural co-operatives, 308
Agricultural policies, 51
Agroterrorism, 77
AI, 201
ALA, 127
Albizia lebbeck, 382
Albumin, 25, 243
Alcohol stability of milk, 59
aldehyde, 129
Alfalfa, 109, 334, 384, 384, 407
Alfalfa hay, 221, 221, 222
Alfalfa hay, Rumen, 403
Alfalfa silage, 93, 241, 244, 278, 405
Alfalfa, Clitoria ternatea, 402
Alkane, 95
Allantoin, 68
Aloe vera, 354
Alpha macroglobulin, 300
Alpha-galactosidase, 36, 329
alpha-lactalbumin, 157, 339
Alpha-s1 casein, 286
Alternative animal protein source, 221
Alveolar Milk, 4
Amino acid, 72, 131, 240, 345
Amino acid digestibilities, 218
Amino acid digestibility, 55, 219, 345
Amino acid flow, 241
Amino acid restrictions, 220
Amino acids, 4, 23, 73, 130, 132, 155, 217, 256
Amino acids requirements, 97
aminophylline, 236
Ammonia, 237
Ammonia and sulfide emission, 396
ammonia emission, 320
Ammoniation, 316
Ammonium, 406
ammonium tetraformate, 278
AMS, 8, 305
Amylase, 105
Analgesia, 371, 372
Analysis, 167, 260
Analytical methods, 167
Anestrous, 269
Anestrous Ewe, 75
Anestrus, 75
angel food cake, 120
Angora goat, 228
Animal Care, 168
animal health, 386
Animal model, 331
Animal performance, 11
Animal Production, 56
Animal protein, 391
Animal science, 51
Animal Traction, 126
Animal waste mangement plan, 123
Animal Welfare, 164, 369
Animal-by-products, 283
Animals, 162
Anionic, 409
Anovulation, 66, 117
Antagonistic amino acid, 241
Anthelmintic resistance, Biological control, 144
Antibiotic, 21
Antibiotic Resistance, 102
Antibiotic-free diet, 348
Antibiotics, 39, 391, 394
Antibody Response, 84
Anti-folate drugs, 156
Antihypertensive effect, 157
anti-infection, 287
Anti-inflammatory factor, 287
Antimicrobial, 36, 86, 211
antimicrobial activity, 326
antimicrobial resistance, 21, 151
antimicrobial susceptibility, 374
Anti-myostatin antibody, 211
Antinutritional factor, 39
antioxidant, 105, 358, 382
Antioxidants, 29
Antler, 371, 372
Apoptosis, 250
Apoptosis Inducing Factor, 3
Apparent digestibility coefficients, 221, 222, 345
applications, 49
Applications, 116
Arctictis binturong, 251
Arginine, 131
Arid Zone, 354
Array Methods, 175
Artificial Insemination, 12, 45, 75, 268, 325, 409
Artificial vagina, 296
aspartate aminotransferase, 18
Assurance, 207
Atherogenic Index, 288
Atmospheric losses, 139
Attachment, 330

Attachment of teat cup, 350
autoaggregation, 326
Autolysis, 35
Autoregressive, 58
Average daily gain, 63
Avilamycin, 390
Avilamycin, 392
Avovulatory, 266
Azadirachta indica, 389

B

β-casein, 25, 253, 339, 343
β-cyclodextrin, 285
β-Glucanase, 346
β-Lactoglobulin, 50, 340, 342, 406
β-Lactoglobulin - κ-casein complex, 50
B. cereus, 331
Baby pigs, 196
Bacillus-thuringiensis, 280
Bacteria, 40, 225, 236, 400, 408
Bacteria concentrations, 368
Bacterial Crude Protein, 68
Bacteriocin, 330, 398
Bacteriophage, 36, 116, 262, 408
Bacteriuria, 392
Bargain position, 307
barley, 110, 223, 396
Barley Silage, 252, 277
Barley Straw, 316
Barley variety, 140
Barley, Beef cattle, 243
Barley, Grain processing, Forage, 46
BCS, 354
Bedding Amendments, 84
Beef, 45, 95, 101, 125, 129, 207, 208, 208, 216, 230
Beef breeds, 378
Beef calves, 367
Beef Cattle, 12, 35, 45, 46, 48, 49, 64, 81, 88, 89, 100, 101, 117, 124, 134, 135, 213, 228, 358, 388
Beef cow, 206
Beef Cows, 62, 74, 353
Beef Heifers, 268
Beef production, 188
Beef Quality, 272, 364
Beef steers, 318
Beet pulp, 70, 233, 404
Behavior, 25, 26, 28, 75, 81, 82, 83, 83, 369
Behaviour, 368
Behaviour Scoring, 247
Benchmarking, 179
Bermudagrass, 102
Best Management Practices, 261
beta-Casein gene, 4
Betaine, 153, 356
Beta-Lactoglobulin, 56, 158
Bifidobacteria, 16, 36, 325, 326, 329, 379
Bile salt hydrolase, 16
Bioavailability, 71, 162
Bioeconomic model, 251
biofilm, 331
Biohydrogenation, 176, 182, 313
Biophotonics, 31
biotechnology, 188
Bioterrorism, 77
biotin, 109, 363, 401
Biotite, 391, 394
Birth weight, 34
Bloat, 334
blocks, 295
Blood Chemistry, 129
Blood components, 82
Blood flow, 68
Blood urea nitrogen, 227
bloom time, 127
BLV, 299
bm3 corn silage, 204
boar fertility, 284
Boar taint, 214
Boars, 161, 222
Body Composition, 69, 79, 173, 198
Body Condition, 247, 276
Body Condition Score, 185, 246, 324
Body length, 325
Body size, 50
Body weight, 80
Bone development, 155
Bone Mineral, 212
Bone mineral content, 367
Bone mineral density, 367
Botanical, 41
Botanicals, 394
Bovine, 12, 20, 20, 66, 141, 141, 154, 195, 203, 217, 250, 250, 301, 302, 303, 338, 376, 378, 389
bovine mammary cells, 5
bovine milk, 287
Bovine Milk Fat, 313
Bovine milk mucins, 339
Bovine milk musins, 20
Bovine oocytes, 136
Bovine Respiratory Disease, 86, 87
bovine somatotropin, 11, 24, 265
Bovine Viral Diarrhea, 32
bPL, 8
Brachiaria brizantha, 239
Brahman, 322, 323
Brahman female, 135
Brahman, Bull Calves, 229
Brazilian dairy cows, 389
Breed, 315
breeding, 290
Breeding strategies, 34
Breeding value, 34
breedtype, 65
Brine, 91
Broiler breeders, 230
Broiler litter, 294
Broilers, 41, 160
bromocryptyne, 100
Brown Fat, 209
Brown midrib, 383
Brown midrib-3, 384
Browse, 295
browsing, 295
bST, 98
bST, 353
buffalo heifer, 388
Buffer, 110, 362
Buffering Capacity, 289
Buffers, 109
Bulk tank milk, 151, 327, 352, 374
Bulk tank milk urea nitrogen, 233
Bull, 306
Bulls, 147
Bunk Management, 112
Bunker Silo, 93
Butter, 150
Buttermilk, 17, 60, 288
B-vitamins, 109
Bypass protein and starch free organic matter, 231
By-pass protein supplementation, 193
Byproduct, 235
Byproducts, 232

C

Ca salts, 141
Cabohydrase enzyme, 253
Caco-2 cells, 56
calcineurin, 170
Calcium, 91, 108, 122, 272, 366, 407
Calcium distribution, 256

Calcium propionate, 189
Calcium salts of conjugated linoleic acid, 316
calcium salts of fatty acids, 316
Calcium, Anionic Salts, 364
Calf, 66, 67, 192, 249, 250, 352
Calf feeding, 369
Calf Livability, 101
Calf nutrition, 235
Calf Removal, 269
Calf serum, 136
calf size, 407
Calibration standards, 51
California, 290
Callipyge, 154
Calpain, Calpastatin, 291
Calves, 42, 57, 79, 80, 101, 103, 230, 237, 246, 250, 307, 336, 336, 336, 358, 360, 364, 372, 389, 389, 407
Calving Ease, 101
Calving interval, 324
Calving-related disorders, 276, 360
Camel, 83
Camel meat, 217
camels, 351
Campylobacter, 262
Canadian Quality Milk, 261
Canine, 161
Canned diets, 161
Canola meal, 348
Canola oil, 299
Capillary Electrophoresis, 286
Caprine oocytes, 194
Carbohydrate, 23, 127, 238
Carbohydrate Degradability, 278
Carbohydrate structure, 339
Carbohydrates, 146, 167
Carbon Dioxide, 59, 379
Carbonation, 382
Carcass, 124, 213
Carcass and Meat Quality, 148
Carcass Characteristics, 128, 225
Carcass composition, 133, 323
Carcass composition, frame type, 214
Carcass grading, 216
Carcass measurements, 224
Carcass muscle, 163
Carcass quality, 128, 159, 226
Carcass-quality, 129
carnitine, 289
Carrageenan, 120
Carrot pulp silage, 277
Carvacrol, 395
Carvacrol, 395
CASA, 202
Casein, 121, 157, 287, 299
casein concentration, 380
Casein micelle, 286
casein micelles, 78
Casein peptides, 286
Caseinate gels, 341
caseinates, 157
Cashmere, 227
Casing, 121
Cassava, 280
Castration, 31, 246
Cation-exchange chromatography, 342
cationic amino acid transporter, 7
Cattle, 9, 9, 15, 21, 27, 31, 34, 46, 46, 47, 55, 63, 68, 68, 68, 74, 89, 99, 102, 113, 140, 150, 194, 210, 213, 229, 232, 236, 246, 270, 271, 272, 273, 314, 322, 349, 359, 366, 372, 376, 378, 404
Cattle Breeds, 67
Cattle performance, 82
Cattle Transport, 150
Cattle, Lipogenesis, 352
cattle, pigs, 320
CD14, 248, 249
Cell adhesion molecule, 303
Cell Culture, 208
Cell envelope proteinase, 37
cell prolieration, 339
cell signaling, 170
Cereal grains, 219
Certification, 168
Cervix, 75
Cervix, 301
Cheddar, 92, 148
Cheddar cheese, 59, 90, 92, 150, 285, 331
Cheese, 93, 149, 149, 253, 254, 254, 256, 317, 343, 408
Cheese rheology, 91
Cheese ripening, 257
Cheese Texture, 90
Chelated trace elements, 107
Chemical characterization, 386
Chemical composition, 94
Chemical Composition and Energy Value, 332
chemical-physical properties, 233
chewing, 106, 362
chewing activity, 204
Chewing Behavior, 106
Chicken, 211
Chickens, 113
Chickpeas, 224
Chickpeas, Soybean meal, 231
Chicory Inulin, 14
Children, 126
China, 174
Chinese indigenous pig breeds, 115
Chitosan, 259
Chloride fertilization, 109
Chlortetracycline, 47
Chocolate milk, 149
Cholesterol, 221, 222
Cholesterol concentration, 246
Cholesterol removal, 285
Choline, 184
Chop Length, 279, 280
Chop-suey beans, Soybean meal, 244
Chromium, 23, 237, 348, 363
Chromium tripicolinate, 161
CIDR, 75, 136, 267
CIDR-B, 12, 269
Circadian Activity, 368
Cisternal Milk, 4
Citrate, 289
Citric acid, 38
Citrus Pulp, 273
CLA, 57, 95, 129, 143, 154, 176, 176, 177, 183, 212, 284, 288, 297, 298, 299, 313, 314, 315, 317, 353, 406
CLA, high CLA beef, 212
Classification, 17
Claw Diseases, 363
Claws, 107
Climatic stress, 55
Clinical, 85
Clinical Mastitis, 291
Cloned pig beavior, 369
Cloning, 122, 330
Clostridium botulinum, 261
CNCPS Protein Fractions, 64
Coagulase Negative Staphylococci, 292, 352
Coastal areas sediments, 261
Cobalt, 47
Cobalt, 110
Coccidiosis, 389
Coding region, 300
Coffee creamer, 381
Cold gelation, 289
Cold-gelling, 289
Coliform, 84
Coliform Mastitis, 84
Coliforms, 151
Collagen, 61
Collagen, 121
Colloid stability, 77
Colonic fermentation, 25
Colonization, 31
Color, 255

colostrum, 158, 192, 336, 352, 353, 405
Colostrum intake, 336
Colostrum, Temperature, Piglets, Mortality, 281
comfort, 28
Commerical pasteurizers, 151
Companion animals, 170
Competitive exclusion, 275
Complexed Trace Minerals, 107, 363
composition, 157, 286
Composting, 137
Computed tomography, 337
Computer controlling system, 307
concentrate, 62
Conception rate, 307, 310
Conceptus, 300
Conceptus development, 145
condensed tannins, 31, 145, 334, 399
condensing, 90
Confecton, 382
Confinement, 155
Confinement vs. grazing, 310
confocal scanning laser microscopy, 116, 255
Conjugated linoleic acid, 10, 19, 141, 142, 143, 176, 196, 235, 288, 313, 316, 326, 379
conjugated linoleic acid (CLA), 121
Conjugated Linoleic Acid, feeding, 212
Consensus phytase, 38
Constant flux microfiltration, 60
consumer acceptance, 188
consumer attitudes, 188
Consumers, 168, 253
Continuous Culture, 58, 142, 240, 332, 356, 359, 402
continuous culture fermentation, 62
Continuous Cultures, 399
Continuous-flow culture, 25
Contracting, specialization, Replacement heifers, 177
Controlled release capsule, 191
Controlling Mastitis, 409
Cooking methods, 217
Cool season grasses, 333
Cooling strategies, 100
Copper, 109, 344, 375
Copper Amino Acid Complex, 409
coproducts, 231
Corn, 22, 162, 270, 275
Corn distillers solubles, 73
Corn dried distiller's grain with solubles, 345
Corn endosperm type, 181, 204
Corn grain, 221, 222, 271, 316
Corn Grinding, 243
Corn processing, 238
corn silage, 93, 94, 236, 241, 244, 279, 280, 383, 384
corn silage chop length, 279
Corn silage processing, 106
Corn Steep Liquor, 232
corn varieties, 232, 233
corpus luteum, 98, 117
correlation, 247

Author index for Volume 80, Supplement 2
(Sectional abstracts, 2002)

Please Note:
The Author Index is created directly and automatically from the abstracts. For example, if an author's name is typed differently on multiple abstracts, then multiple or similar entries may exist.
